Theodor Seuss Geisel--known worldwide as the beloved children's author Dr. Seuss--produced a body of work that spans more than 70 years. Though most often associated with children's books, he frequently contributed cartoons and humorous essays to popular magazines, produced effective and memorable advertising campaigns ("Quick, Henry, the Flit!"), and won Oscars and Emmys for motion picture productions, animated shorts, and

features. As founder and president of Beginner Books, his influence on children's book publishing was revolutionary, especially in the field of elementary readers. Geisel's prolific career--he wrote or contributed illustrations to more than 75 books, most of which have been reprinted repeatedly and translated worldwide--and his predilection for made-up creatures make this joint bibliography and iconography especially useful to readers and researchers. The exhaustive bibliography is arranged chronologically, providing full bibliographic information, including translations as they appear, reissue information, and descriptions of the binding. The iconography links more than 900 fictional names, places and terms to the works in which they appear. For the reader seeking a first edition of *Quomodo Invidiosulus Nomine Grinchus Christi Natalem Abrogaverit* (How the Grinch Stole Christmas! translated into Latin) or hoping to identify "abrasion-contusions" (race cars in *If I Ran the Circus!*), this work promises as much discovery as a walk down Mulberry Street.

Working on a musical is exciting for students, teachers, and the entire middle school community! As the first musical theater book especially for middle school productions, *The Magic of Middle School Musicals* provides a step-by-step guide for success. Bobetsky approaches planning and producing musicals in the context of a curricular unit of study and includes strategies for assessing student learning. Dr. Victor V. Bobetsky, a former New York City middle school music teacher, begins with advice on how to select a musical, obtain copyright permission, and arrange the music for middle school voices. He discusses strategies for teaching the music in the choral classroom, auditioning, casting,

and rehearsal procedures. Practical suggestions show directors how to work with student actors, create choreography, and manage scenery, set design, costumes, lighting, and more. *The Magic of Middle School Musicals* gives music teachers the information and confidence they need to artistically adapt musicals from the American repertoire to the middle school level so that teachers, students, and audiences can experience and enjoy this unique, familiar, and musically expressive genre!
