I Hope I Screw This Up Multnomah

Five-year-old Joey Harrison's world is turned upside down when he and his seven-year-old sister, Beth, are placed in foster care in 1942. With the war in Europe underway and the attack on Pearl Harbor by Japan, the children's father joins the Army despite the pleadings of his young wife. From 1941 until 1947 Joey's mother will have five additional children fathered by another man. All of the children are subsequently placed in foster care where Joey

and his siblings suffer unconscionable abuse at the hands of foster parents. They are shifted from foster care to foster care, including one stay in an orphanage for Joey. Joey's mother is age 40 when she dies due to cirrhosis of the liver and the children's father petitions the State of New York, requesting that Joey come and live with him. What follows for the boy, as well as his siblings, is a loveless path of more foster homes, formidable hurdles, and abuse until Joey ultimately triumphs and reaches the top of the stairs. It's an inspirational journey the reader will witness as they see Joey and his six siblings become reunited after overcoming multiple hardships and are finally reunited over twenty-five years later.

After the Fall (How Humpty Dumpty Got Back Up Again)

In this raw, honest, and poetic novel, Tony reveals to the reader (and to himself) the exciting and sometimes hollow search for meaning in LA-LA land. Garrett paints a vivid portrait of millennials and relationships in the age of Tinder and friends with benefits. He takes the reader on a voyeuristic journey through his new haunts of Santa Monica, Venice Beach, and Malibu with all their quirky, shady, and wondrous characters. Often compared to: - *Bright Lights, Big City*- *Californication* - *The Great Gatsby*- *On The Road*- *The Catcher in the Rye*A hopeless romantic and a perfectionist with a penchant for mistakes, the protagonist Tony falls in love with the allure of the City of Angels and learns to live with his own imperfections. He leaves behind everything familiar in his hometown of Atlanta with only \$1,800 to his name to pursue his dream of being a writer in Los Angeles. "Connor Judson Garrett's novel, *Falling Up in The City of Angels*, takes us on a fresh romp through the adventures of Tony, a young wannabe writer as he makes his way through his new home in LA, far from the only world he had ever known back in Georgia. And what a romp it will be as Tony stumbles and falls, yet, continues to pick himself up as he makes his way into adulthood. Garrett has crafted a truly wonderful, debut novel worthy of both our time and attention." - Robert Hicks, author of the New York Times Bestseller *The Widow of The South*

From the time Dana Liesegang could walk, she was out looking for adventure, and she never stopped. As a fearless child in the Pacific Northwest, she climbed trees, caught frogs, and held her own with any boy in town. She brought that true-grit, fire-in-her-belly attitude to the Navy . . . and to her recovery from the unthinkable. At the age of 19, she was sexually assaulted by a fellow sailor and thrown off a cliff, left for dead. She survived—but woke up in a hospital hours later paralyzed from the neck down, with doctors giving no hope for recovery. They underestimated the spirit and stubbornness of their patient. In *Falling Up: My Wild Ride from Victim to Kick-Ass Victory*, Dana recounts her agonizing and sometimes comical struggle from total dependence to doing the "impossible": walking again. With equal parts humor and rawness, she brings us along on her wild ride, as she navigates her new world, hurtles through rocky relationships, deals with family secrets, and returns to her love of sports and the outdoors. In the process, she learns the importance of forgiveness, discovers the awe-inspiring power of belief and perseverance, and transforms herself from silent victim to outspoken advocate and inspiration for people everywhere. After all, sometimes an unexpected fall can lead a person to reach for magnificent heights.

This brash and rollicking autobiography is a potent primer of the rough-and-tumble world of political consulting by one of its founding fathers and preeminent experts. A cross between a patriotic redneck raconteur and a TV-savvy renaissance man, Raymond D. Strother is unafraid to name names and refuses to mince words in tales of what he calls "the beauty and gore" of American politics. From the crash course in Louisiana politics and corruption he received following graduate school to his compelling entry into the big-time senatorial and congressional races of the 1970s and early 1980s and his adventures with candidates Clinton, Gore, and Hart and famous consultants Dick Morris and James Carville, Strother offers a wildly entertaining, controversial, but finally optimistic political and media success story that will thrill and inspire anyone spellbound by American politics.

'Watch closely,' said Mrs Jewls. 'You can learn much faster using a computer instead of paper and pencil.' Then she pushed the computer out of the window. The children all watched it fall thirty floors. 'See?' said Mrs Jewls. 'That's gravity . . .' That's the way things happen at Wayside School. There are twenty-nine kids in Mrs Jewls' class and this book is about all of them: there is Todd, who is in trouble every day, until he gets a magic dog; Paul, whose life is saved by Leslie's pigtailed; Ron, who dares to try the cafeteria's mushroom surprise; and all the others who help turn a day at Wayside School into one madcap adventure after another.

INTERNATIONAL BESTSELLER • An engaging, deeply researched guide to flourishing in a world of increasing stress and negativity—the inspiration for one of the most popular TED Talks of all time “Powerful [and] charming . . . A book for just about anyone . . . The philosophies in this book are easily the best wire frames to build a happy and successful life.”—Medium Happiness is not the belief that we don't need to change; it is the realization that we can. Our most commonly held formula for success is broken. Conventional wisdom holds that once we succeed, we'll be happy; that once we get that great job, win that next promotion, lose those five pounds, happiness will follow. But the science reveals this formula to be backward: Happiness fuels success, not the other way around. Research shows that happy employees are more productive, more creative, and better problem solvers than their unhappy peers. And positive people are significantly healthier and less stressed and enjoy deeper social interaction than the less positive people around them. Drawing on original research—including one of the largest studies of happiness ever conducted—and work in boardrooms and classrooms across forty-two countries, Shawn Achor shows us how to rewire our brains for positivity and optimism to reap the happiness advantage in our lives, our careers, and even our health. His strategies include: • The Tetris Effect: how to retrain our brains to spot patterns of possibility so we can see and seize opportunities all around us • Social Investment: how to earn the dividends of a strong social support network • The Ripple Effect: how to spread positive change within our teams, companies, and families By turns fascinating, hopeful, and timely, *The Happiness Advantage* reveals how small shifts in our mind-set and habits can produce big gains at work, at home, and elsewhere.
