The Fun of It Penguin

From the best-selling author of *My Weird School*: a new entry in the hilarious biography series that casts fresh light on high-interest historic figures. Did you know that Amelia Earhart loved heights so much she built a roller coaster in her backyard? Or that she used to race worms with her sister? Bet you didn't know that she took photographs of garbage cans to pay for flying lessons! Siblings Paige and Turner do—and they've collected some of the most unusual and surprising facts about the legendary pilot, from her childhood in the rural Midwest and the spark of her passion for flying to her record-smashing

flights and her infamous disappearance over the Pacific Ocean. Narrated by the two spirited siblings and animated by Allison Steinfeld's upbeat illustrations, *Amelia Earhart Is on the Moon?* is an authoritative, accessible, and one-of-a-kind biography infused with Dan Gutman's signature zany sense of humor.

ABOUT THE BOOK
When Amelia Earhart took off for her around-the-world flight in 1937, no one would have suspected that within weeks, she would vanish into thin air. More than 70 years later, her vanishing act is still hotly debated by researchers, investigators and history buffs.

Celebrated in books and movies and admired for her achievements, Amelia Earhart is equally well known as the 20th century's most famous "missing persons" case. Among all of the uncertainties surrounding her fate, one thing is certain the

public would never have this level of fascination with Amelia Earhart were she not such a captivating, fascinating personality. Her talent, charisma and courage were matched by her joie de vivre, as well as her adventurous outlook. Earhart maintained that women had just as much right to adventure and achievement as men. By her own admission, Amelia loved the limelight, but her publicity served a far more noble purpose than self aggrandizement; it carved out a path of opportunity for the women who came before and after her. She was well aware of this, and felt the responsibility that came with being a trailblazer. MEET THE

EXCERPT FROM THE BOOK Amelia Mary Earhart was born on July 24, 1897, in Atchison, Kansas. As the daughter of a prominent railroad attorney, Amelia spent her early years living in Midwestern railway towns such as including Kansas City and Des Moines. Growing up with her younger sister Muriel, Amelia was the tomboy of the family, climbing trees, belly slamming her sled down treacherous hills and even hunting rats with a .22 rifle. Another hobby for the young Amelia was collecting

newspaper clippings about women who had succeeded in male dominated fields such as mechanical engineering, law and industry; these women became her early heroes. Amelia's life of adventure began during World War I when she decided to leave school and help the war effort by tending wounded soldiers. After taking a Red Cross course, Amelia spent a year in Canada as a nurses' aid in a military hospital. This experience led her to enroll in the pre med program at New York's Columbia University. Her medical education ended when her parents asked her to join them in California. Shortly after moving to California, Amelia revived an old interest

her fascination with flight. During the First World War, she found herself captivated when a stunt pilot at an air show "buzzed" her and a friend, swooping low and then just missing them. As she said later, "I believe that little red airplane said something to me as it swished by." CHAPTER OUTLINE Biography of Amelia Earhart + Introduction + A Typical Midwest Girl + Fame and Achievements + The Final Flight + ...and much more [Amelia Earhart: Pioneer of the Sky!](#) Crown Amelia Earhart's account of her ill-fated last flight around the world, begun in 1937, remains one of the most moving and absorbing adventure stories of all time.
