Few individuals have done more to educate the American public about financial scams than Jay Adkisson. As the creator of Quatloos.com, Jay has helped many thousands of people worldwide avoid being scammed out of many millions of dollars to various investment schemes. The U.S. Senate Finance Committee has twice called Jay as an expert witness on abusive tax schemes. As one of the authors of *Asset Protection: Concepts and Strategies* (McGraw-Hill 2004), Jay has similarly helped thousands of people avoid dubious asset protection schemes. In his latest book, *Equity-Indexed Annuities: The Smart Consumer's Guide*, Jay gives a balanced and objective overview of this advanced form of fixed annuity to better educate consumers of the advantages, disadvantages, and the numerous product options that are available when considering the purchase of this popular retirement vehicle. This short guide covers all the most important issues that consumers should address before purchasing an equity-indexed annuity, including: How the minimum interest rate is paid, how the maximum return is linked to the stock index, and how participation rates and caps may limit returns. How surrender charges may limit withdrawal rights for a period of years after the annuity is purchased, and why the annuity should not be purchased if the consumer will need the cash during this period. How the annuity payments may be made, and what can happen upon the death of the annuitant. How annuities benefit from tax-deferral, how taxes are paid upon withdrawal or when annuity payments are made, and tax considerations upon the death of the annuitant. How the annuity and annuity payments may be protected from creditors in some states, and how in other states they may be protected by proper planning done in advance of claims. This guide should also give consumers the ability to intelligently answer the most fundamental question: Is an equity-indexed annuity right for me?

Canada's #1 bestselling retirement income book is now completely revised and updated. Vettese will show you how to mitigate risk and secure your financial future in these unpredictable times. As COVID-19 rocks the economy in an unprecedented black swan event, retirees and those who are preparing to retire need answers to pressing questions about their financial futures. Originally published in 2018, the second edition of *Retirement Income for Life*, has been completely revised and updated, and now includes: New chapters on early retirement, retiring single, what to do when one spouse dies young, and more. Three strategies for mitigating your personal financial risk in the current downturn in equities and other investment products. Advice on how to plan for (and even benefit from) the coming bear market, resulting from COVID-19, which will create unprecedented equity buying opportunities, possibly as early as 2021. Information on the impact of unbearably low interest rates on annuities and fixed income investments and what to do if you hold them. The

reasons retirees should be deferring CPP until age 70 and why the case for this is stronger than ever. Author Frederick Vettese demystifies a complex and often frightening subject and provides practical, actionable advice based on five enhancements the reader can make to mitigate risk and secure their financial future. With over one thousand Canadians turning 65 every day, the cultivation of good decumulation practices — the way in which you draw down assets in retirement, ideally to have a secure income for the rest of your life — has become an urgent matter that no one can afford to ignore.

As a veteran of the financial services industry, I realize the importance of the position I have been placed in to help others. As our industry has evolved, we have taken on a greater responsibility to make sure we do right by others through adherence to ethics and acquiring as much education as we possibly can. After being in the business for over twenty-five years, I've come to really appreciate what we do and how we do it to the point where I am now mentoring others in our business. The key word that I stress to all in our mentor program is "lifetime" because it gives peace of mind to seniors who fear outliving their money. I love the television commercial with the college professor who is conducting a study for the Prudential Life Insurance Company, asking people who the oldest person is that they know. I also enjoy the ad that has people pulling a blue ribbon until their money runs out (usually before they expect). And the woman looks up and says "I better

rethink this thing." Those commercials portray exactly what our clients fear most—running out of money.
