craft - constitutes a direct challenge to current mainstream thinking on the artistic limits of postmodernism, and suggests a alternative. Studies in Tectonic Culture: The Poetics of Construction ... The point is that tectonic culture is threatened by the forces of universal commodification and is in danger of being swept away. The delicate, humane balance

between the ontological and representational aspects of construction, which has produced so many great buildings from the Altes Museum to the Sydney Opera House, is becoming an irrelevance in a world of spectacle and mere simulation.
