How God Works AuthorHouse

This book explores the role that religion and culture play in the oppression of women. Ophelia Benson and Jeremy Stangroom ask probing questions about the way that religion shields the oppression of women from criticism and why many Western liberals, leftists and feminists have remained largely silent on the subject. *Does God Hate Women?* explores instances of the oppression of women in the name of religious and cultural norms and how these issues play out both in the community and in the political arena. Drawing on philosophical concerns such as truth, relativism, knowledge and ethics, Benson and Stangroom assess the current situation and provide a rallying call for a progressive politics that is committed to universal values. This book will appeal to anyone interested in issues of global justice, human rights and multiculturalism.

The Methods of Science and Religion is a philosophical analysis of the conflict between science and religion, which challenges the popular, contemporary view that science and religion are complementary worldviews. It exposes their methodological incompatibility and concludes that religious modes of investigation are unreliable.

Why People Love God But Hate Church? Macmillan

Pastor Creflo Dollar offers ten compelling reasons why God hates religion--but loves for people to have real relationships with Christ. Religion has broken churches, fueled wars, and driven people away from the true Gospel of Jesus. *WHY I HATE RELIGION* is a clarion call for people to ditch religion and embrace relationship as it explores the top ten reasons why God hates religion, such as: Religion makes people try to earn their way into

heaven--but Christ offers grace. Religion says God uses calamity to teach his people--but Christ comforts us. Religion blames problems on God--but Christ helps people learn from their mistakes. Religion makes prayer a powerless "form of godliness"--but Christ hears every word. WHY I HATE RELIGION offers an empowering understanding of true Christianity, one that transforms church into full, authentic, meaningful relationship with Jesus.

Jeffrey Israel offers an innovative argument for the power of playfulness in popular culture to make our capacity for coexistence imaginable. He explores how people from different backgrounds can pursue justice together, even as they play with their divisive grudges, prejudices, and desires in their cultural lives.

Why Science and Religion Are Incompatible Thomas Nelson
How right-wing political entrepreneurs around the world use religious offense—both given and taken—to mobilize supporters and marginalize opponents. In the United States, elements of the religious right fuel fears of an existential Islamic threat, spreading anti-Muslim rhetoric into mainstream politics. In Indonesia, Muslim absolutists urge suppression of churches and minority sects, fostering a climate of rising intolerance. In India, Narendra Modi's radical supporters instigate communal riots and academic censorship in pursuit of their Hindu nationalist vision. Outbreaks of religious intolerance are usually assumed to be visceral and spontaneous. But in *Hate Spin*, Cherian George shows that they often involve sophisticated campaigns manufactured by political opportunists to mobilize supporters and marginalize opponents. Right-wing networks orchestrate the giving of offense and the taking of offense as instruments of identity politics, exploiting democratic space to promote agendas that undermine democratic values. George calls this strategy "hate spin"—a double-sided technique that combines hate speech (incitement through vilification) with manufactured offense-taking (the performing of righteous indignation). It is deployed in societies as diverse as Buddhist Myanmar and Orthodox Christian Russia. George looks at the world's three largest democracies, where intolerant groups within India's Hindu right, America's Christian right, and Indonesia's Muslim right are all accomplished users of hate spin. He also shows how the Internet and Google have opened up new opportunities for cross-border hate spin. George argues that governments must protect vulnerable communities by prohibiting calls to action that lead directly to discrimination and violence. But laws that try to protect believers' feelings against all provocative expression invariably backfire. They arm hate spin agents' offense-taking campaigns with legal ammunition. Anti-discrimination laws and a commitment to religious equality will protect communities more meaningfully than misguided attempts to insulate them from insult.

There are two major themes throughout the book. The first major theme involves the dual nature of the Kingdom being both here and now and yet to come, but with the focus being on the here and now aspect and learning to live everyday life in it. The second major theme involves knowing and being known in Christ's Kingdom. Another significant focus is on all relationships, starting with our personal relationship with Jesus Christ, and then all other relationships with all people in our daily lives. Strong comparisons and some examples attack the principles and practices of Religion, as true Christianity is shown by our personal relationship with Jesus Christ. This book is about Relationship-vs-Religion. This book is full of controversy as it actually faces and deals with real problems, issues, and lies instead of avoiding

them. This book provides teaching on how to have better, stronger, and healthier relationships with all people from all walks of life. This book is very exciting because of its unique and aggressive attacks on institutionalized systems of religions and religious Churches and people. The approach and writing style is so Non-Traditional and Non-Religious that it stands alone, separate and unique, like no other Christian book has ever been written. This book reveals many secrets of the Kingdom, exposes many lies and false doctrines, and upholds the truth of Christ, His WORD, and His Kingdom, and supports the common people of the world. With the many problems and issues we face in our world today, this book addresses many of them and provides possible solutions to help and improve on them. This book draws from personal life experience and exposes our human inadequacies and faults, while demonstrating the Non-failing awesomeness of an all-powerful, all-knowing God.

According to Michael Barkun, many white supremacist groups of the radical right are deeply committed to the distinctive but little-recognized religious position known as Christian Identity. In *Religion and the Racist Right* (1994), Barkun provided the first sustained exploration of the ideological and organizational development of the Christian Identity movement. In a new chapter written for the revised edition, he traces the role of Christian Identity figures in the dramatic events of the first half of the 1990s, from the Oklahoma City bombing and the rise of the militia movement to the Freemen standoff in Montana. He also explores the government's evolving response to these challenges to the legitimacy of the state. Michael Barkun is professor of political science in the Maxwell School of Citizenship and Public Affairs at Syracuse University. He is author of several books, including *Crucible of the Millennium: The Burned-over District of New York in the 1840s*.

To allow or restrict hate speech is a hotly debated issue in many societies. While the right to freedom of speech is fundamental to liberal democracies, most countries have accepted that hate speech causes significant harm and ought to be regulated. Richard Moon examines the application of hate speech laws when religion is either the source or target of such speech. Moon describes the various legal restrictions on hate speech, religious insult, and blasphemy in Canada, Europe and elsewhere, and uses cases from different jurisdictions to illustrate the particular challenges raised by religious hate speech. The issues addressed are highly topical: speech that attacks religious communities, specifically anti-Muslim rhetoric, and hateful speech that is based on religious doctrine or scripture, such as anti-gay speech. The book draws on a rich understanding of freedom of expression, the harms of hate speech, and the role of religion in public life.

Why Young Christians Are Leaving Church...and Rethinking Faith Bethany House

"A superbly argued book." —Richard Dawkins, author of *The God Delusion* The New York Times bestselling author of *Why Evolution is True* explains why any attempt to make religion compatible with science is doomed to fail In this provocative book, evolutionary biologist Jerry A. Coyne lays out in clear, dispassionate detail why the toolkit of science, based on reason and empirical study, is reliable, while that of religion—including faith, dogma, and revelation—leads to incorrect, untestable, or conflicting conclusions. Coyne is responding to a national climate in which more than half of Americans don't believe in evolution, members of Congress deny global warming, and long-conquered childhood diseases are reappearing because of religious objections to inoculation, and he warns that religious prejudices in politics, education, medicine, and social policy are on the rise.

Extending the bestselling works of Richard Dawkins, Daniel Dennett, and Christopher Hitchens, he demolishes the claims of religion to provide verifiable “truth” by subjecting those claims to the same tests we use to establish truth in science. Coyne irrefutably demonstrates the grave harm—to individuals and to our planet—in mistaking faith for fact in making the most important decisions about the world we live in. Praise for Faith Versus Fact: “A profound and lovely book . . . showing that the honest doubts of science are better . . . than the false certainties of religion.” —Sam Harris, author of *The End of Faith*

NEW YORK TIMES BESTSELLER • For the weary, the angry, the anxious, and the hopeful, this collection of moving, tender prayers offers rest, joyful resistance, and a call to act, written by Barbara Brown Taylor, Amena Brown, Nadia Bolz-Weber, and other artists and thinkers, curated by the author Glennon Doyle calls “my favorite faith writer.” It’s no secret that we are overworked, overpressured, and edging burnout. Unsurprisingly, this fact is as old as time—and that’s why we see so many prayer circles within a multitude of church traditions. These gatherings are a trusted space where people seek help, hope, and peace, energized by God and one another. This book, curated by acclaimed author Sarah Bessey, celebrates and honors that prayerful tradition in a literary form. A companion for all who feel the immense joys and challenges of the journey of faith, this collection of prayers says it all aloud, giving readers permission to recognize the weight of all they carry. These writings also offer a broadened imagination of hope—of what can be restored and made new. Each prayer is an original piece of writing, with new essays by Sarah Bessey throughout. Encompassing the full breadth of the emotional landscape, these deeply tender yet subversive prayers give readers an intimate look at the diverse language and shapes of prayer.

Close to 60 percent of young people who went to church as teens drop out after high school. Now the bestselling author of *unChristian* trains his researcher's eye on these young believers. Where Kinnaman's first book *unChristian* showed the world what outsiders aged 16-29 think of Christianity, *You Lost Me* shows why younger Christians aged 16-29 are leaving the church and rethinking their faith. Based on new research, *You Lost Me* shows pastors, church leaders, and parents how we have failed to equip young people to live “in but not of” the world and how this has serious long-term consequences. More importantly, Kinnaman offers ideas on how to help young people develop and maintain a vibrant faith that they embrace over a lifetime.

Few times of year lend themselves to pilgrimage and contemplation like Easter. For forty days, Christians have before them the opportunity to examine their own path and compare it with the incredible journey undertaken by Christ, from the agony of the garden to the glory of the resurrection. By sharing her journey, Tricia Rhodes provides the tools to cultivate the cross within and the inspiration to accept the Father's summons to kneel in its shadow. Scripture and daily exercises gently nourish the spiritual traveler, while journal pages wait to hold the story of personal reflection. More encompassing than a devotional, more intimate than a mere yardstick of faith, *Contemplating the Cross* will become a treasured keepsake. “May God touch your deepest soul and brand you with the fire of His devotion as you contemplate the cross of Christ.” Tricia Rhodes

Love Jesus, Hate Church is the first book that specifically

examines the senseless and hurtful experiences Christians often have to endure within our current church structure. It is a book about emerging faith and absolute truths, and offers hope and direction to those who have taken an honest look at the church, scratched their head, and said, You know, this aint the way church is suppose to be. Something must be wrong. Bad wrong.

Jefferson regarded Jesus as a moral guide rather than a divinity. In his unique interpretation of the Bible, he highlights Christ's ethical teachings, discarding the scriptures' supernatural elements, to reflect the deist view of religion.

Christopher Hitchens, described in the *London Observer* as “one of the most prolific, as well as brilliant, journalists of our time” takes on his biggest subject yet—the increasingly dangerous role of religion in the world. In the tradition of Bertrand Russell’s *Why I Am Not a Christian* and Sam Harris’s recent bestseller, *The End Of Faith*, Christopher Hitchens makes the ultimate case against religion. With a close and erudite reading of the major religious texts, he documents the ways in which religion is a man-made wish, a cause of dangerous sexual repression, and a distortion of our origins in the cosmos. With eloquent clarity, Hitchens frames the argument for a more secular life based on science and reason, in which hell is replaced by the Hubble Telescope’s awesome view of the universe, and Moses and the burning bush give way to the beauty and symmetry of the double helix.

While atheists such as Richard Dawkins have now become public figures, there is another and perhaps darker strain of religious rebellion that has remained out of sight—people who hate God. In this revealing book, Bernard Schweizer looks at men and women who do not question God's existence, but deny that He is merciful, competent, or good. Sifting through a wide range of literary and historical works, Schweizer finds that people hate God for a variety of reasons. Some are motivated by social injustice, human suffering, or natural catastrophes that God does not prevent. Some blame God for their personal tragedies. Schweizer concludes that, despite their blasphemous thoughts, these people tend to be creative and moral individuals, and include such literary lights as Friedrich Nietzsche, Mark Twain, Zora Neale Hurston, Rebecca West, Elie Wiesel, and Philip Pullman. Schweizer shows that literature is a fertile ground for God haters. Many authors, who dare not voice their negative attitude to God openly, turn to fiction to give vent to it. Indeed, Schweizer provides many new and startling readings of literary masterpieces, highlighting the undercurrent of hatred for God. Moreover, by probing the deeper mainsprings that cause sensible, rational, and moral beings to turn against God, Schweizer offers answers to some of the most vexing questions that beset human relationships with the divine.

The God Delusion. 10th Anniversary Edition Simon and Schuster
A NEW YORK TIMES BESTSELLER Abandon dead, dry, rule-keeping and embrace the promise of being truly known and deeply loved. Jefferson Bethke burst into the cultural conversation in 2012 with a passionate, provocative poem titled “Why I Hate Religion, But Love Jesus.” The 4-minute video literally became an overnight sensation, with 7 million YouTube views in its first 48 hours (and 23+ million in a year). The message blew up on social-media, triggering an avalanche of responses running the gamut from encouraged to enraged. In *Jesus > Religion*, Bethke unpacks similar contrasts that he drew in the poem—highlighting the difference between teeth gritting and grace, law and love, performance and peace, despair and hope. With refreshing candor he delves into the motivation behind his message, beginning with the unvarnished tale of his own plunge from the

pinnacle of a works-based, fake-smile existence that sapped his strength and led him down a path of destructive behavior. Bethke is quick to acknowledge that he's not a pastor or theologian, but simply a regular, twenty-something who cried out for a life greater than the one for which he had settled. Along his journey, Bethke discovered the real Jesus, who beckoned him beyond the props of false religion.

Religion and the Racist Right PCG Legacy

The God Delusion caused a sensation when it was published in 2006. Within weeks it became the most hotly debated topic, with Dawkins himself branded as either saint or sinner for presenting his hard-hitting, impassioned rebuttal of religion of all types. His argument could hardly be more topical. While Europe is becoming increasingly secularized, the rise of religious

fundamentalism, whether in the Middle East or Middle America, is dramatically and dangerously dividing opinion around the world. In America, and elsewhere, a vigorous dispute between 'intelligent design' and Darwinism is seriously undermining and restricting the teaching of science. In many countries religious dogma from medieval times still serves to abuse basic human rights such as women's and gay rights. And all from a belief in a God whose existence lacks evidence of any kind. Dawkins attacks God in all his forms. He eviscerates the major arguments for religion and demonstrates the supreme improbability of a supreme being. He shows how religion fuels war, foments bigotry and abuses children. The God Delusion is a brilliantly argued, fascinating polemic that will be required reading for anyone interested in this most emotional and important subject.
