MARISA CARLIE

[Pocket Medicine High-Yield Board Review](#) CRC Press

Following the organization of Dr. Marc Sabatine's bestselling Pocket Medicine manual, Pocket Medicine High-Yield Board Review is an all-new, must-have study guide for advanced medical students; for residents in internal medicine, family medicine, and primary care; and for practitioners. This new review brings you authoritative, trusted content designed to prepare you for success on licensing, certification, and recertification exams and hone your knowledge of internal medicine.

Topic Wise Mometrix Media LLC

This publication assesses progress towards Sustainable Development Goal 4 (SDG 4) on education and its ten targets, as well as other related education targets in the SDG agenda. It addresses inclusion in education, drawing attention to all those excluded from education, because of background or ability. The report is motivated by the explicit reference to inclusion in the 2015 Incheon Declaration, and the call to ensure an inclusive and equitable quality education in the formulation of SDG 4, the global goal for education. It reminds us that, no matter what argument may be built to the contrary, we have a moral imperative to ensure every child has a right to an appropriate education of high quality.

The Ortho-perio Patient Lippincott Williams & Wilkins

Written to help haematology and general medical trainees evaluate their own knowledge, and particularly useful for those preparing for the Part 1 examination of the Royal College of Pathologists. This exam-centered book will also be of use to core medical trainees preparing for the examinations of the Royal College of Physicians and the Royal Australasian College of Physicians and to haematology and general medicine trainees in other countries where methods of examination are similar. The 150 questions are presented in two formats, Single Best Answer and Extended Matching Question, and comes complete with detailed feedback and, when appropriate, relevant references are given for each question so that those who select the wrong answer will understand why another answer is better. Quick reference question book, ideal for examination preparation Includes 50 SBA questions, ideal for the Part 1 and Part 2 MRCP examinations, which although having a general medical slant, are also appropriate for haematology specialist trainees Includes 70 SBA multiple choice questions appropriate for haematology specialist trainees but also useful to core medical trainees Includes 30 EMQs suitable for those taking Part 1 of the FRCPath examination Questions come complete with fully referenced answers and discussion points This book provides an educational tool for training as well as an ideal way to prepare for examinations and is also of value to those who examine in haematology and haematopathology.

Mosby's Review for the NBDE Part I - E-Book John Wiley & Sons

Lippincott's Illustrated Q&A Review of Pharmacology offers up-to-date, clinically relevant board-style questions—perfect for course review and board prep. 1,000 multiple-choice questions with detailed answer explanations cover frequently tested topics in pharmacology, including questions related to clinical topics and divided by body systems. The book features full-color illustrations and offers flexible study options with online access to the questions and answers on a companion website.

Key Skills and Clinical Illustrations Lippincott Williams & Wilkins

Compiled by the China National Intellectual Property Administration (CNIPA) with the support of the WIPO China Funds-in-Trust, this book gives students a basic yet comprehensive understanding of IP. Using a question-and-answer format, it covers the general rules of the IP system as well as the essentials of patents, copyright, trademarks and other forms of IP, such as industrial designs, geographical indications and traditional knowledge.

MCQs In General Dentistry BoD - Books on Demand

covers all key aspects of the field, mimicking the image-rich, multiple-choice format of the actual test. Ideal for residents preparing for the Core Examination, as well as practitioners taking recertification exams, this unique review follows the structure and content of what you'll encounter on the test, effectively preparing you for Core Exam success!

United Nations

Advances in materials science and digital technologies have revolutionized the field of ceramic-based restorative and implant dentistry. Forward-thinking clinicians and dental technicians must negotiate this rapidly changing landscape to determine which materials and technologies are validated by laboratory and clinical evidence, have the potential to improve patient outcomes, and are practical for clinical application. To provide insight into these issues, the editors of this book have assembled the talents of the various stakeholders in this field. International authorities from a variety of disciplines have come together to share expertise from the biomaterials, industry, clinical, and laboratory perspectives. The result is a comprehensive reference on all-ceramic technology that combines thoughtful analysis of the state of the science with practical clinical advice for dentists and laboratory technicians alike. This book will provide readers with the tools to judge the research presented in the literature and incorporate best practices and advances in materials and technology into their armamentarium in a way that will benefit their patients.

A MCQ and Case Study-Based Review CRC Press

A 36-year-old housewife presents in the emergency department complaining of progressively increasing breathlessness over the last two weeks, accompanied by wheeze and a productive cough. You are the medic on duty... 100 Cases in Radiology presents 100 radiological anomalies commonly seen by medical students and junior doctors on the ward, in outpatient clinics or in the emergency department. A succinct summary of the patient's history, examination and initial investigations, including imaging photographs, is followed by questions on the diagnosis and management of each case. The answer includes a detailed discussion of each topic, with further illustration where appropriate, providing an essential revision aid as well as a practical guide for students and junior doctors. Making clinical decisions and choosing the best course of action is one of the most challenging and difficult parts of training to become a doctor. These cases will teach students and junior doctors to recognize important radiological signs, and the medical and/or surgical conditions to which these relate, and to develop their diagnostic and management skills.

Optimization and Innovation Lippincott Williams & Wilkins

This new review textbook, written by residents and an experienced faculty member from Cleveland Clinic, is designed to ensure success on all sorts of standardized neurology examinations. Presented in a comprehensive question-and-answer format, with detailed rationales, Comprehensive Review in Clinical Neurology is a must-have for both aspiring and practicing neurologists and psychiatrists preparation to take the RITE, the American Board of Psychiatry and Neurology written exams, and various recertification exams.

Stories CRC Press

The single best answer format of questions is invaluable in assessing a trainee's clinical skills and problem-solving abilities. It allows the trainee to demonstrate application of their knowledge to clinical practice. This book comprises six sets of practice papers. Each set contains 30 single best answer questions which cover topics including clinical anaesthesia, pain and intensive care. The questions are based on the recent changes introduced to the written part of the final FRCA examination. The best possible answer to a given clinical scenario is substantiated by a detailed explanation drawn from recent review articles and textbooks in clinical anaesthesia. These questions will enable candidates to assess their clinical knowledge and skills in problem-solving, data interpretation and decision making. This book is essential study material for candidates sitting postgraduate examinations in anaesthesia and intensive care medicine. It is not only an essential guide for trainees but also an invaluable educational resource for all anaesthetists.

MCQs In General Dentistry To Prepare For Prometric Exam

Clinical Evidence & Therapeutic Guidelines JAYPEE BROTHERS PUBLISHERS

The science and art of implant dentistry encompasses both complex surgical protocols and advanced prosthodontics, and no beginner can achieve excellence in this discipline without a clear understanding of the step-by-step guidelines. This established textbook, written by clinicians for clinicians, presents evidence-based protocols and focuses on the technical skill and practical craftsmanship that are essential to predictable outcomes in implant placement, augmentation, and restoration. Detailed clinical algorithms facilitate understanding of the various treatment options available, and checklists ensure that the proper protocol is followed before advancing to the next phase of therapy. Updated throughout, the book now features new sections on the use of cone beam imaging, computer-based diagnostics, and CAD/CAM restorative laboratory procedures. This book provides the perfect introduction to implantology with instruction to advance the skills and extend the clinical scope of every practitioner.

500 Multiple Choice Questions with Discussion John Wiley & Sons

The problems arising from root canals in the daily clinical practice of dentistry can often be difficult and time-consuming to solve. Here a team from one leading centre of dental excellence provides detailed and highly illustrated guidance to these difficult areas and how to manage the problems that they often pose.

Secrets of the General Chairside Assisting Exam Study Guide Lippincott Williams & Wilkins

The aim of this book is to provide a selection of representative MCQs together with a detailed explanation of each answer covering the topic in depth. Each chapter has been written by experienced Urological surgeons who have already been successful in passing the examination. In addition to the FRCS(Urol) examination MCQs form the basis of equivalent postgraduate Urological examinations internationally and the scope of this book will be an invaluable addition to individuals sitting the FEBU and similar exams in the USA, Australia and Asian countries. Established consultants may also find the text useful as a 'refresher' in areas outside their subspecialist interest.
