Aliens, space ships, and constellations, oh my! Ride on a rocket ship to another galaxy with this stellar book. With The Everything Kids' Astronomy Book, astronomers-in-training will learn: How galaxies like the Milky Way were built. Why the sun's surface is 20,000-50,000-degrees Fahrenheit. Why the earth spins and how

gravity works. What comets and asteroids are made of and how they affect planets. The truth about the man in the moon. Why Mars is so hot and what those rings around Saturn are. What scientists think about aliens and life in outer space If you want to build a sky-watching kit or change your room into a small universe, this book will take you on a journey that is out-of-this-world! Harvest House Publishers Named a Most Anticipated Book of 2020 by Apple Books, Literary Hub, The Millions, and The Week An indelible novel of teenage alienation and adult complacency in an unraveling world. Pulitzer Prize finalist Lydia Millet's sublime

new novel—her first since the National Book Award long-listed *Sweet Lamb of Heaven*—follows a group of twelve eerily mature children on a forced vacation with their families at a sprawling lakeside mansion. Contemptuous of their parents, who pass their days in a stupor of liquor, drugs, and sex, the children feel neglected and suffocated at the same time. When a destructive storm descends on the summer estate, the group's ringleaders—including Eve, who narrates the story—decide to run away, leading the younger ones on a dangerous foray into the apocalyptic chaos outside. As the scenes of devastation begin to

mimic events in the dog-eared picture Bible carried around by her beloved little brother, Eve devotes herself to keeping him safe from harm. A Children's Bible is a prophetic, heartbreaking story of generational divide—and a haunting vision of what awaits us on the far side of Revelation.
