Far back in time, light from the underlying fabric of creation burst forth creating the super-luminous event through which our Universe was born. Time began its endless journey through ever-expanding space. The early

universe was simply a sea of particles floating through space and time. But life's invisible wheels were already in motion and over time the sea of particles became a sea of stars from which Gaia, our Earth, was born - a living, breathing entity - our Goddess, our Mother and our reflection. The Gaia Oracle, a beautiful new oracle set from bestselling artist Toni Carmine Salerno, consists of 45 richly illustrated cards designed to point you in love's direction and help you find the answers you seek.

The Wild Offering Oracle Simon and Schuster

The marriage of words and images creates a multidimensional experience for the reader, both physical and emotional. As you connect with the visual three dimensional form, you

simultaneously align with the feelings that will carry you to a place of being one with the letters and words. A place where there is no separation between poet, artist and you. What you experience through this book is meant to be repeated and appreciated many times. The intent is to provide you a holistic, ongoing moment that will touch on all levels, from the heart of the authors to your heart. The thoughts, emotions and feelings expressed in the words and in the art are there for you to savor and enjoy and share with someone you love, especially yourself. May this book lead you to explore your heart and the depth of your soul, as you let love be the magic that opens the unknown.
