From Patagonia to Apple, Whole Foods to New Balance, we love our favorite products--and, by extension, the companies that provide them. The emotional connections we form with our beloved brands and services are important relationships--relationships that are potentially worth billions. In the fast-paced, constantly-changing world of the modern marketplace, brands must adapt or perish--strategies, methods, and techniques must evolve to remain effective and relevant. Are you using yesterday's thinking for tomorrow's challenges? Brand Intimacy details ways to build better marketing through the cultivation of emotional connections between brand and consumer. The book provides lessons for marketers and business leaders alike who are seeking to understand these ultimate brand relationships and the opportunities they represent. Divided into three sections, Brand Intimacy starts with Context and Understanding. This explains today's marketing landscape, the effects of technology, consumer behaviors and the advancements around decision making. Through research we discovered that people form relationships with brands the same way they develop relationships with other people. This section provides guidance on how to think about complimentary concepts such as loyalty, satisfaction and brand value. We then explore and compare established approaches and methodologies and showcase why intimacy is a compelling new and enhanced opportunity to build your brand or market your business. The second section, Theory and Model reveals and dimensions the brand intimacy model and dissects it into steps to help you better factor it into your marketing approaches or frameworks. Here you will learn the core concepts and components that are essential to build bonds and the role emotion can play to help you achieve greater customer engagement. You can also review the rankings of the best brands in terms of Brand Intimacy. A summary of our annual research reveals the characteristics of best performers, the most intimate industries, and differences based on geography, age, gender and income. By examining the top intimate brands, we reveal and decode the secrets of the bonds they form with their customers. The third section is Methods & Practice, this details the economic benefits and advantages of a strategy that factors Brand Intimacy. Intimate brands are proven to outperform the Fortune 500 and Standards and Poors' index of brands. Intimate brands create more revenue and profit and last longer.

Consumers are also willing to pay more for a brand they are more intimate with. Conversely, we also explore a series of brand failures and lessons learned to help you avoid common pitfalls in brand management. We articulate the steps to build a more intimate brand as well as share a glimpse on the future where software will play a more important role in brand building. The book outlines a proprietary digital platform that we use to help manage and enable intimacy through collaboration, simulators

and real-time tracking of emotions. Business and marketing owners face an increasing difficult task to build brands that rise above the clutter, engage more and grow. Brand Intimacy explains how to better measure, build and manage enduring brands. Brands that are built to inspire as well as profit. Written by experienced marketers and backed by extensive research, Brand Intimacy rewrites the rulebook on how to establish and expand your marketing. The book is equal parts theory, research and practice, the result of 7 year journey and a new marketing paradigm for the modern marketer.

Franklin, Jack, Marla, Thadius, and Caitlin... this unlikely group of assorted misfits are the Cemeterians, a group that will take on any job - no, really, we mean any bloody job (money's a bit tight right now)! Trudge through disgusting sewers to battle manatee-massacring mermaids and soggy cultists, creep through creepy, fog-littered cemeteries straight out of an ancient Hammer Film soundstage, confront undead lecherous lodgers and other assorted beasties, creepies, and ghoulies. It all comes down to whether an adolescent giant Automaton, a truly mad, Mad Scientist, a surly Necromancer, a Banshee's granddaughter, and a reluctant furry monster straight from under your little sister's bed can manage not to kill each other - or, at least, quit fighting over the tele-privilege-schedule long enough to get the job done! Not likely.

Phil Edmonston, Canada's automotive "Dr. Phil," pulls no punches. He says there's never been a better time to buy a new car or truck, thanks to a stronger Canadian dollar and an auto industry offering reduced prices, more cash rebates, low financing rates, bargain leases, and free auto maintenance programs. In this all-new guide he says: Audis are beautiful to behold but hell to own (biodegradable transmissions, "rodent snack" wiring, and mind-boggling depreciation) Many 2011-12 automobiles have "chin-to-chest head restraints, blinding dash reflections, and dash gauges that can't be seen in sunlight, not to mention painful wind-tunnel roar if the rear windows are opened while underway Ethanol and hybrid fuel-saving claims have more in common with Harry Potter than the Society of Automotive Engineers GM's 2012 Volt electric car is a mixture of hype and hypocrisy from the car company that "killed" its own electric car more than a decade ago You can save \$2,000 by cutting freight fees and "administrative" charges Diesel annual urea fill-up scams can cost you \$300, including an \$80 "handling" charge for \$25 worth of urea Lemon-Aid's 2011-12 Endangered Species List: the Chinese Volvo, the Indian Jaguar and Land Rover, the Mercedes-Benz Smart Car, Mitsubishi, and Suzuki Lemon-Aid New and Used Cars and Trucks 1990-2016 Dundurn Hannah is stunned when a stranger stops her on the street to deliver a message from her long-dead mother. When a desperate car dealer advertises a competition with a simple premise -- that each contestant must keep one hand on a car at all times, and the last one standing will drive away the owner of a new Land Rover -- he sets in motion a chain of events that brings together an oddball group of individuals, each with a desperate need to win. For the contestants, this publicity gimmick represents a once-in-a-lifetime opportunity for a fresh start, a chance to break records, and to prove themselves in an unlikely test of endurance. It pits the patience of an elderly night watchman against the youthful vigor and carefully cultivated stamina of a high school track-and-field star. It sets a single mother who spends her life on her feet against a down-on-his-luck Mensa member who tells anyone who will listen that he's got the whole thing figured out. As the days and nights unavoidably carry on -- and big talk and clever strategies backfire -- the contestants' true colors come through in unexpected twists. At once lyrical and suspenseful, and by turns poignant and hilarious, *Show of Hands* and its all-too-human characters are ultimately unforgettable.

Like five books in one, *Lemon-Aid Used Cars and Trucks* is an exposé of car scams and gas consumption lies; a do-it-yourself service manual; an independent guide that covers beaters, lemons, and collectibles; an archive of secret service bulletins granting free repairs; and a legal primer that even lawyers can't beat! Phil delivers the goods on free fixes for Chrysler, Ford, and GM engine, transmission, brake, and paint defects; lets you know about Corvette and Mustang tops that fly off; gives the lowdown on Honda, Hyundai, and Toyota engines and transmissions; and provides the latest information on computer module glitches.

As the recent Tiger Woods scandal illustrates, brand reputation is more precarious than ever before. True and false information spreads like wildfire in the vast and interconnected social media landscape and even the most venerable brands can be leveled in a flash—by disgruntled customers, competing companies, even internal sources. Here, veteran marketing executive Jonathan Copulsky shows companies and individuals how to play brand defense in the twenty-first century. *Five Signs that You Need to Pay More Attention to the Possibility of Brand Sabotage: A group of uniformed employees posts embarrassing YouTube videos, in which they display unprofessional attitudes towards their work. One of your senior executives publicly blames a supplier for product defects, even though they predate your relationship with the supplier. Your competitor's ads trumpet their solution to the performance problems associated with your most recent product. A customer unhappy with changes made to your product design launches a Facebook group, which attracts 5,000 fans. Your outsource partner is prominently featured in numerous blogs and websites describing allegations of worker mistreatment and workplace safety hazards.*
