Building Vocabulary provides a systematic approach to teaching vocabulary using Greek and Latin prefixes, bases, and suffixes. Over 90% of English words of two or more syllables are of Greek or Latin origin. Instead of learning words and definitions in isolation, students learn key roots and strategies for deciphering words and their meanings across all content areas. Building Vocabulary: Foundations for grades 1-2, empowers beginning readers to learn words by identifying word parts

or word families that share common sounds. Students will build vocabulary through the use of poetry, word endings, and simple roots. Building Vocabulary: Foundations: Level 2 kit includes: Teacher's Guide; Student Guided Practice Book (Each kit includes a single copy; additional copies may be ordered in quantities of 10 or more); Assessments to support data-driven instruction; and Digital resources including modeled lessons, 50 bonus activities, and more.

 Taking a holistic approach to developmental reading, CONNECT:

COLLEGE READING is an intermediate level book for reading levels 8-10. CONNECT strives to build students' confidence by showing them that many of the skills needed to become stronger readers are skills they already possess and use on a daily basis. Using popular media as a springboard, Dole and Taggart show students how thinking skills used while watching television or movies can easily transfer to reading. CONNECT's comprehensive approach includes extensive vocabulary coverage, critical thinking practice throughout, and textbook readings in every chapter to help students master college reading. The second edition includes a full chapter on inferences, enhanced coverage of main idea, and guides for specialized reading situations such as

reading visuals, novels, and a guide to taking tests. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

Technology stimulates minds in ways that make a profound and lasting difference, especially in the classroom. It can be used to adapt curriculum to diverse learners or to express material in ways not possible prior to the creation of new technologies. Learning Tools and Teaching Applications through ICT Advancements provides research regarding introducing, collaborating, analyzing, synthesizing, and evaluating innovative contributions to the theory, practice, and research of technology education applicable to K-12 education, higher education, and corporate and proprietary education. It grows this body of research, proposing new applications of technology for teaching and learning, and documenting those practices that contribute irrefutable verification of

information technology education as a discipline.

Primary care physicians know from experience how many patients come to them needing help with anxiety and related disorders: these disorders have a lifetime prevalence rate of 30%, but they often seem to be present in a much higher proportion of primary care visits. Time pressure challenges every primary care provider who responds to these disorders. The Primary Care Toolkit for

Anxiety and Related Disorders—carefully aligned with the DSM-5—gives you the tools to help you treat your patients promptly and effectively. Quickly find the information and strategies you need using summaries of diagnostic criteria and pharmacological therapies, severity assessments, treatment summaries, and case studies. Efficiently screen, diagnose, and manage common anxiety and related disorders, using visit-by-visit guides for mild, moderate, and severe disorders. An accompanying CD puts the best, most effective diagnostic tools at your fingertips, ready to be printed and used by you and your patients: patient self-report forms and questionnaires, symptom checklists, functional impairment assessment scales, and more. The Primary Care Toolkit helps

prepare you for the 7 anxiety and related disorders that primary care physicians see most often: Generalized anxiety disorder, Panic disorder, Agoraphobia, Social anxiety disorder, Obsessive-compulsive disorder, Posttraumatic stress disorder, Adjustment disorder. Whether you are a family physician, an ER doctor, a pharmacist, a nurse or nurse practitioner, or a medical student, the information and resources in The Primary Care Toolkit for Anxiety and

Related Disorders will add to your clinical primary care knowledge and skills.

The Primary Care Toolkit for Anxiety and Related Disorders McGraw-Hill College

This volume covers the 2006 subject specifications for all exam boards. The text is laid out in 'sound bite' boxes to aid recollection, with clearly labelled diagrams to add visual clarity and further demonstrate the subject matter.
