SUSTAINABLE SOCIETY: A NEW BEGINNING Career Examination

This edited book focuses on current practices, challenges and innovations in the emerging field of English for Specific Purposes (ESP). By combining diverse, empirically-proven and innovative ESP practices from all over the world with inspiring theoretical input and reflections from experienced practitioners, the authors in this volume examine both best-practice examples and ESP programmes which by various metrics are deemed to have failed. This book will be of interest to practitioners, teacher educators and researchers working in the field of ESP, as well as readers interested in language education and curriculum development more broadly.

Electrical Level 4 Taylor & Francis

The paper delineates the concept of Gestational diabetes mellitus (GDM) occurs during pregnancy which affects mother, fetus, and outcome of pregnancy, hence early detection is necessary. At present, diabetes mellitus (DM) is one of the most common non-communicable diseases globally. It is a major public health problem in India. The GDM is defined as impaired glucose intolerance with onset or first recognition during pregnancy. Globally, one in 10 pregnancies is associated with diabetes, 90% of which are GDM. Undiagnosed or inadequately treated GDM can lead to significant maternal and fetal complications. Women with GDM and their offspring are at increased risk of developing type 2 diabetes in later life. Create awareness and to healthy life style, sufficient intake of nutrition is very important to strengthen the safe motherhood and reducing Infant and maternal mortality and it's also focuses on socio economic, cultural determinants of infant and maternal mortality.

A Taxonomy of the Psychomotor Domain Testbook.com

Reimagining Digital Learning for Sustainable Development is a comprehensive playbook for education leaders, policy makers, and other key stakeholders leading the modernization of learning

and development in their institutions as they build a high value knowledge economy and prepare learners for jobs that don't yet exist. Currently, nearly every aspect of human activity, including the ways we absorb and apply learning, is influenced by disruptive digital technologies. The jobs available today are no longer predictors of future employment, and current and future workforce members will need to augment their competencies through a lifetime of continuous upskilling and reskilling to meet the demands of the Fourth Industrial Revolution. This book features curated insights and real-world cases from thought leaders throughout the world and identifies major shifts in content formats, pedagogic approaches, technology frameworks, user and design experiences, and learner roles and expectations that will reshape our institutions, including those in emerging economies. The agile, lean, and cost-effective strategies proposed here will function in scalable and flexible bandwidth environments, enabling education leaders and practitioners to transform brick-and-mortar learning organizations into digital and blended ecosystems and to achieve the United Nation's ambitious Sustainable Development Goals by 2030. Chapter 18 of this book is freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons Attribution-Non Commercial-No Derivatives (CC-BY-NC-ND) 4.0 license.

Empowering India Through Digital Literacy (Vol. 2) Disha Publications

With a median age of 29 for its youth, India is currently experiencing its highest demographic dividend, which is expected to extend until 2040. About 62% of people between the ages of 15 and 59 are working age. The global workforce will shrink by 4% over the next 20 years, whereas India's population will grow by 32%. India has a majestic opportunity to provide a skilled workforce globally. With this in mind and a vision to alleviate poverty through jobs/entrepreneurship, Pradhan Mantri Kaushal Vikas Yojana 1.0 (PMKVY 1.0) was launched in July 2015. It was followed by PMKVY 2.0 and 3.0. Orders for the constitution of the Steering Committee and Executive Committee have been issued. However, approval of PMKVY 4.0 from the Government is awaited. The book delves into the perceptions of the youth of Haryana on the key aspects of the PMKVY scheme and the benefits accrued thereafter.

The Book of Massage Testbook.com

"Although India is one of the largest economies in the world, its skill challenges are huge. Despite the tremendous growth and diversification, over half of India's population lacks primary education. Only a fraction of people possess any formal or vocational education and training (VET). Based on primary surveys of vocational training providers and enterprises, this book is a first to provide a comprehensive agenda of reforms to improve the employability of India's youth."--Résumé de

l'éditeur.

India's Skills Challenge Penguin

New and emerging technologies under Industry 4.0 are rapidly changing the nature of work and demand for skills around the world. Meanwhile, the coronavirus disease (COVID-19) pandemic is causing significant labor market upheavals. In the Philippines, the impacts on economic growth and employment have been highly disruptive. This publication highlights the vital role technical and vocational education and training (TVET) can play in mitigating the negative impacts of these drivers. It assesses what needs to be done to ensure the country's TVET system, and TESDA, the agency responsible for TVET, can meet the challenges and achieve their objectives of a competitive and socially inclusive workforce.

Egyptian hieroglyphs, Chinese scrolls, and Ayurvedic literature record physicians administering aromatic oils to their patients. Today society looks to science to document health choices and the oils do not disappoint. The growing body of evidence of their efficacy for more than just scenting a room underscores the need for production standards, quality control parameters for raw materials and finished products, and well-defined Good Manufacturing Practices. Edited by two renowned experts, the *Handbook of Essential Oils* covers all aspects of essential oils from chemistry, pharmacology, and biological activity, to production and trade, to uses and regulation. Bringing together significant research and market profiles, this comprehensive handbook provides a much-needed compilation of information related to the development, use, and marketing of essential oils, including their chemistry and biochemistry. A select group of authoritative experts explores the historical, biological, regulatory, and microbial aspects. This reference also covers sources, production, analysis, storage, and transport of oils as well as aromatherapy, pharmacology, toxicology, and metabolism. It includes discussions of biological activity testing, results of antimicrobial and antioxidant tests, and penetration-enhancing activities useful in drug delivery. New information on essential oils may lead to an increased understanding of their multidimensional

uses and better, more ecologically friendly production methods. Reflecting the immense developments in scientific knowledge available on essential oils, this book brings multidisciplinary coverage of essential oils into one all-inclusive resource.

Proceedings of International Conference on Recent Trends in Machine Learning, IoT, Smart Cities and Applications Asian Educational Services
