How to Run a Country Vintage

"This is the first life of Alexander the Great to explore his religious experience, to put his experience in Egypt and Asia on a par with his Macedonian upbringing and Greek education, and to explain how the European conqueror became a Moslem saint"--

[The Death of Alexander the Great and the Bloody Fight for His Empire](#) Berrett-Koehler Publishers
 Analysis of Sterols and Other Biologically Significant Steroids provides the fundamental training for the analysis of selected sterols and steroids. The book is composed of chapters that review the spectroscopic and chromatographic properties of certain sterols and steroids. The text also teaches how to isolate and characterize sterols and steroid metabolites of plant, fungal, and insect origin. Lipoprotein analysis and the utilization of physical-analytical techniques are likewise provided. Biochemists, microbiologists, and medical physiologists will find the book useful.
The de Brailes Hours Oxford University Press, USA

Claire Donovan provides a detailed discussion of the Hours, its iconography and its place in the thirteenth-century Oxford book trade, with five appendices, notes and bibliography.

[Alexander the Great](#) Cambridge University Press

Tough, resolute, fearless. Alexander was a born warrior and a ruler of passionate ambition who understood the intense adventure of conquest and of the unknown. When he died in 323 B.C.E. at age thirty-two, his vast empire comprised more than two million square miles, spanning from Greece to India. His achievements were unparalleled—he had excelled as leader to his men, founded eighteen new cities, and stamped the face of Greek culture on the ancient East. the myth he created is as potent today as it was in the ancient world. Robin Lane Fox's superb account searches through the mass of conflicting evidence and legend to focus on Alexander as a man of his own time. Combining historical scholarship and acute psychological insight, it brings this colossal figure vividly to life.

[The Death of a God : what - Or who - Really Killed the Young Conqueror of the Known World?](#) Aris and Phillips Classical Te

Philip II of Macedonia (382-336 BCE), unifier of Greece, author of Greece's first federal constitution,

founder of the first territorial state with a centralized administrative structure in Europe, forger of the first Western national army, first great general of the Greek imperial age, strategic and tactical genius, and military reformer who revolutionized warfare in Greece and the West, was one of the greatest captains in the military history of the West. Philip prepared the ground, assembled the resources, conceived the strategic vision, and launched the first modern, tactically sophisticated and strategically capable army in Western military history, making the later victories of his son Alexander possible. Philip's death marked the passing of the classical age of Greek history and warfare and the beginning of its imperial age. To Philip belongs the title of the first great general of a new age of warfare in the West, an age that he initiated with his introduction of a new instrument of war, the Macedonian phalanx, and the tactical doctrines to ensure its success. As a practitioner of the political art, Philip also had no equal. In all these things, Philip exceeded Alexander's triumphs. This book establishes Philip's legitimate and deserved place in military history, which, until now, has been largely minimized in favor of his son by the classicist writers who have dominated the field of ancient biography. Richard Gabriel, renowned military historian, has given us the first military biography of Philip II of Macedonia.

The Virtues of War Basic Books

In the summer of 1944, a shocking murder rocked the fledgling Beats. William S. Burroughs and Jack Kerouac, both still unknown, were inspired by the crime to collaborate on a novel, a hard-boiled tale of bohemian New York during World War II, full of drugs and art, obsession and brutality, with scenes and characters drawn from their own lives. Finally published after more than sixty years, this is a captivating read, and incomparable literary artifact, and a window into the lives and art of two of the twentieth century's most influential writers.

Genghis Khan and the Making of the Modern World Potomac Books, Inc.

Who killed Alexander the Great? After more than two thousand years of speculation, the assassin of Alexander is finally identified in a comprehensive investigation in *The Murder of Alexander the Great* (in two books: *The Puranas* and *The Secret War*). In *Book 1: The Puranas* Alexander's journey is chronicled not only through the siloed lens of Greek records but also through a comparison of ancient Indian and Greek texts and artifacts. For the first time ever, the story of the eminent king of Macedonia is retold from a different perspective - one that not only establishes Alexander prominently in ancient Sanskrit texts but also holds the key to resolving the age-old mystery of his demise. Inspired by fresh awareness to an ancient conundrum that has perplexed historians for millennia, *The Murder of Alexander the Great* is a powerful narrative of blood-thirsty wars, mystic locales, and epic encounters -- one that leads to SIXTEEN remarkable findings about Alexander the Great thus rewriting the history of this great emperor forever.

Vintage Books

The Libro de Alexandre is an epic poem about the life of Alexander the Great, written by an anonymous Spanish cleric in the thirteenth century. It is the most substantial poem (and almost certainly the first) composed in the learned *cuaderna via verse* form and provides a unique insight into the intellectual world from which it sprang. The poem conveys the grim message of Alexander's life, the sense of hubris and the horror of his fall from greatness and world domination to the bleak obscurity of the grave. As well as relaying the story of a great ancient figure, the poet also comments on the society and political situation of early thirteenth-century Spain. The combination of eras makes this poem strikingly representative of its time. Peter Such and Richard Rathbone's edition in the *Hispanic Classics* series illuminates this substantial and important text, with a wide-ranging introduction, Spanish text with facing-page English translation and notes.

The Legend and Legacy of Alexander the Great Simon and Schuster

In the first authoritative biography of Alexander the Great written for a general audience in a generation, classicist and historian Philip Freeman tells the remarkable life of the great conqueror. The celebrated Macedonian king has been one of the most enduring figures in history. He was a general of such skill and renown that for two thousand years other great leaders studied his strategy and tactics, from Hannibal to Napoleon, with countless more in between. He flashed across the sky of history like a comet, glowing brightly and burning out quickly: crowned at age nineteen, dead by thirty-two. He established the greatest empire of the ancient world; Greek coins and statues are found as far east as Afghanistan. Our interest in him has never faded. Alexander was born into the royal family of Macedonia, the kingdom that would soon rule over Greece. Tutored as a boy by Aristotle, Alexander had an inquisitive mind that would serve him well when he faced formidable obstacles during his military campaigns. Shortly after taking command of the army, he launched an invasion of the Persian empire, and continued his conquests as far south as the deserts of Egypt and as far east as the mountains of present-day Pakistan and the plains of India. Alexander spent nearly all his adult life away from his homeland, and he and his men helped spread the Greek language throughout western Asia, where it would become the *lingua franca* of the ancient world. Within a short time after Alexander's death in Baghdad, his empire began to fracture. Best known among his successors are the Ptolemies of Egypt, whose empire lasted until Cleopatra. In his lively and authoritative biography of Alexander, classical scholar and historian Philip Freeman describes Alexander's astonishing achievements and provides insight into the mercurial character of the great conqueror. Alexander could be petty and magnanimous, cruel and merciful, impulsive and farsighted. Above all, he was ferociously, intensely competitive and could not tolerate losing—which he rarely did. As Freeman explains, without Alexander, the influence of Greece on the ancient world would surely not have been as great as it was, even if his motivation was not to spread Greek culture for beneficial purposes but instead to unify his empire. Only a handful of people have influenced history as Alexander did, which is why he continues to fascinate

Fire from Heaven Alexander the Great

In 336 b.c. Philip of Macedonia was assassinated and his twenty-year-old son, Alexander, inherited his kingdom. Immediately quelling rebellion, Alexander extended his father's empire throughout the Middle East and into parts of Asia, fulfilling the soothsayer Aristander's prediction that the new king "should perform acts so important and glorious as would make the poets and musicians of future ages labour and sweat to describe and celebrate him." *The Life of Alexander the Great* is one of the first surviving attempts to memorialize the achievements of this legendary king, remembered today as the greatest military genius of all time. This exclusive Modern Library edition, excerpted from Plutarch's *Lives*, is a riveting tale of honor, power, scandal, and bravery written by the most eminent biographer of the ancient world.

How to Be a Friend Simon and Schuster

More than two thousand years after his death, Julius Caesar remains one of the great figures of history. He shaped Rome for generations, and his name became a synonym for "emperor" -- not only in Rome but as far away as Germany and Russia. He is best known as the general who defeated the Gauls and doubled the size of Rome's territories. But, as Philip Freeman describes in this fascinating new biography, Caesar was also a brilliant orator, an accomplished writer, a skilled politician, and much more. Julius Caesar was a complex man, both hero and villain. He possessed great courage, ambition, honor, and vanity. Born into a noble family that had long been in decline, he advanced his career cunningly, beginning as a priest and eventually becoming Rome's leading general. He made alliances with his rivals and then discarded them when it suited him. He was a spokesman for the ordinary people of Rome, who rallied around him time and again, but he profited enormously from his conquests and lived opulently. Eventually he was murdered in one of the most famous assassinations in history. Caesar's contemporaries included some of Rome's most famous figures, from the generals Marius, Sulla, and Pompey to the orator and legislator Cicero as well as the young politicians Mark Antony and Octavius (later Caesar Augustus). Caesar's legendary romance with the Egyptian queen Cleopatra still fascinates us today. In this splendid biography, Freeman presents Caesar in all his dimensions and contradictions. With remarkable clarity and brevity, Freeman shows how Caesar dominated a newly powerful Rome and shaped its destiny. This book will captivate readers discovering Caesar and ancient Rome for the first time as well as those who have a deep interest in the classical world.

Before and After Alexander Routledge

In 336 BC Alexander the Great became king of Macedon. During his twelve-year reign he conquered the Achaemenid Persian Empire, the largest to have yet existed, and in the process had a profound effect on the world he moved through. In this examination of his life and career, Hugh Bowden explores his cultural and historical legacy.

Ghost on the Throne Simon and Schuster

This definitive biography of one of history's most influential father-son duos tells the story of two rulers who gripped the world -- and their rise and fall from power. Alexander the Great's conquests staggered the world. He led his army across thousands of miles, overthrowing the greatest empires of his time and building a new one in their place. He claimed to be the son of a god, but he was actually the son of Philip II of Macedon. Philip inherited a minor kingdom that was on the verge of dismemberment, but despite his youth and inexperience, he made Macedonia dominant throughout Greece. It was Philip who created the armies that Alexander led into war against Persia. In *Philip and Alexander*, classical historian Adrian Goldsworthy shows that without the work and influence of his father, Alexander could not have achieved so much. This is the groundbreaking biography of two men who together conquered the world.

A Very Short Introduction Createspace Independent Publishing Platform

An analysis of Alexander the Great's political and military accomplishments traces the path of his armies while charting the course of his influence, citing his impact on military tactics, scholarship, and politics throughout history while describing the many roles with which he has been credited. Reprint. 20,000 first printing.

An Ancient Guide for Modern Leaders Grove/Atlantic, Inc.

An exploration of the fascinating poetry, life, and world of Sappho, including a complete translation of all her poems. For more than twenty-five centuries, all that the world knew of the poems of Sappho—the first woman writer in literary history—were a few brief quotations preserved by

ancient male authors. Yet those meager remains showed such power and genius that they captured the imagination of readers through the ages. But within the last century, dozens of new pieces of her poetry have been found written on crumbling papyrus or carved on broken pottery buried in the sands of Egypt. As recently as 2014, yet another discovery of a missing poem created a media stir around the world. The poems of Sappho reveal a remarkable woman who lived on the Greek island of Lesbos during the vibrant age of the birth of western science, art, and philosophy. Sappho was the daughter of an aristocratic family, a wife, a devoted mother, a lover of women, and one of the greatest writers of her own or any age. Nonetheless, although most people have heard of Sappho, the story of her lost poems and the lives of the ancient women they celebrate has never been told for a general audience. Searching for Sappho is the exciting tale of the rediscovery of Sappho's poetry and of the woman and world they reveal.

Two Birds in a Tree HarperCollins UK

A re-evaluation of Genghis Khan's rise to power examines the reforms the conqueror instituted throughout his empire and his uniting of East and West, which set the foundation for the nation-states and economic systems of the modern era.

Greater Than Alexander Broadway Books

In this moving, funny and sometimes chilling book, leading Australians open their ASIO files and read what the state's security apparatus said about them. Writers from across the political spectrum including Mark Aarons, Phillip Adams, Nadia Wheatley, Michael Kirby, Peter Cundall, Gary Foley and Anne Summers confront - and in some cases reclaim - their pasts. Reflecting on the interpretations, observations and proclamations that anonymous officials make about your personal life is not easy. Yet we see outrage mixed with humour, not least as ASIO officers got basic information wrong a lot of the time, though many writers have to contend with personal betrayal. Some reflect on the way their political views have - or haven't - changed. Meredith Burgmann and all those who were spied on have produced an extraordinary book where those being watched look right back.

Alexander the Great Simon and Schuster

This book explains what made Alexander 'Great' according to the people and expectations of his time and place.

And the Hippos Were Boiled in Their Tanks Princeton University Press

New York Times Bestseller and Man Booker Prize Finalist: A novel of ancient Greece by the author Hilary Mantel calls "a shining light." Alexander the Great stands alone as a leader and strategist, and *Fire from Heaven* is Mary Renault's unsurpassed dramatization of the formative years of his life. His parents fight for their precocious son's love: On one side, his volatile father, Philip, and on the other, his overbearing mother, Olympias. The story tells of the conqueror's two great bonds—to his horse, Oxhead, and to his dearest friend and eventual lover, Hephaestion—and of the army he commands when he is barely an adult. Coming of age during the battles for southern Greece, Alexander the Great appears in all of his colors—as the man who first takes someone's life at age twelve and who swiftly eliminates his rivals as soon as he comes to power—and emerges as a captivating, complex, larger-than-life figure. *Fire from Heaven* is the first volume of the *Novels of Alexander the Great* trilogy, which continues with *The Persian Boy* and *Funeral Games*. This ebook features an illustrated biography of Mary Renault including rare images of the author. "Mary Renault is a shining light to both historical novelists and their readers. She does not pretend the past is like the present, or that the people of ancient Greece were just like us. She shows us their strangeness; discerning, sure-footed, challenging our values, piquing our curiosity, she leads us through an alien landscape that moves and delights us." —Hilary Mantel

Our ASIO files Open Road Media

From the author of *White Noise* (winner of the National Book Award) and *The Silence*, an eerily convincing fictional speculation on the events leading up to the assassination of John F. Kennedy In this powerful, unsettling novel, Don DeLillo chronicles Lee Harvey Oswald's odyssey from troubled teenager to a man of precarious stability who imagines himself an agent of history. When "history" presents itself in the form of two disgruntled CIA operatives who decide that an unsuccessful attempt on the life of the president will galvanize the nation against communism, the scales are irrevocably tipped. A gripping, masterful blend of fact and fiction, alive with meticulously portrayed characters both real and created, *Libra* is a grave, haunting, and brilliant examination of an event that has become an indelible part of the American psyche.
