Build Up Your Brain the Easy Way And

Have Fun While Doing It Imagine that you had access to the best tools for learning, brain training, and problem-solving. Think what it would be like if you could easily improve your memory, focus, thinking speed, vocabulary, and more. Fortunately, you can. All you need is a smart phone or device. Internationally bestselling author I. C.

Robledo personally tested 100+ apps to come up with the best Free Apps for brain training, learning, and solving everyday problems. Smart apps are valuable to your intellectual growth because they are easily available, can adapt to your needs, and are engaging and fun. Inside, you will discover: - An app that has been proven to raise IQ scores in people who train with it - A brain training app created in collaboration with scientists from Cambridge and Yale - Two apps to help you learn almost any language you can think of - An app that gives you something new to learn every time you access your device - A game that lets you test yourself in over 1,000 unique topics Here are the number of Free Apps you will find for each device: iPhone &

iPad: 53 Google Play: 50 Kindle Fire: 31 Web Browser: 24 Windows Phone: 17 Apple Watch: 5 Train your brain using fun and free apps, with 55 Smart Apps to Level Up Your Brain. Pick up your copy today by scrolling to the top of the page and clicking BUY NOW.

How to Be a Genius I. C. Robledo Learn from some of the greatest thinkers in history. Study their patterns and stand on the shoulders of giants. How does one think like a genius? Is there a set definition for this? Well, no. But if you study the greats, you're bound to learn something. Learn the five "genius traits" and how to apply them in your daily life. Think Like a Genius is a look through time and history. We climb into a time travel machine and examine flashpoints in the lives of famous geniuses. They are

all household names, and now you can better understand what made them tick. Learn their traits, absorb their techniques, and forge your own path of genius to accomplish whatever you set your mind to. Walk away with a framework of how to simply think better. Nick Trenton grew up in rural Illinois and is quite literally a farm boy. His best friend growing up was his trusty companion Leonard the dachshund. RIP Leonard. Eventually, he made it off the farm and obtained a BS in Economics, followed by an MA in Behavioral Psychology. The most helpful mental models directly from their sources. •How Einstein's hobbies helped his genius. •What Descartes had to say about demons. •Darwin's Golden Rule and how it changed his life. •Tesla, Edison, and

the battle of approaches and philosophies. •Copernicus, Galileo, and the values of non-convention. •The unique team that Abraham Lincoln surrounded himself with.

MIT Press

Discover Your Truths & Fulfill Your Dreams If you have ever doubted yourself, your life's path, beliefs, or questioned what is True, prepare to illuminate the path to Your Personal Truth. This is the best path. It is the one you are called for and that you must go on, or you will be left feeling unfulfilled, as if you missed out on something essential from life. We all have our unique journey to live, and nothing is more worthy than pursuing this path for yourself. The point of this book is not to

impose any particular beliefs, ideas, philosophies, or Truths on you. Instead, the focus is on helping you find your truth in a way that allows you to achieve your dreams and goals. Can you think of something that you know to be True without any doubt? When you know something to be True, it becomes a deep part of your life, and you know it to be true with your thoughts, feelings, beliefs, experience, logic, and intuition, then you can get to a point where no one can take this Truth away from you. The only one who can release yourself from an old Truth that is no longer working and replace it with a new and more valid one is yourself. With Your Personal Truth, you can regain control of your life's direction and take the power you have always had but perhaps never realized, which is the

power to determine what is true for you and what is not. Ultimately, Truth is a journey, not a destination. When you choose to walk this path, you will unlock deeper parts of yourself, discover your highest ideals and values, find purpose, and live by your truth with every thought and action. Internationally bestselling author I. C. Robledo discovered that his path was to seek Truth at 16 years of age. Since then, he has been searching for truth, and now he wishes to teach you how to discover Your Personal Truth. This endeavor has led to meaning, a transcendent level of awareness and understanding, self-knowledge, and the ability to focus on worthy paths and avoid false ones. Inside, you will learn to:

- Discover your truths, rather than waiting for someone to give them to you,

which would be a mistake - Identify critical values that are worth living by (with a list of 100 values to consider) - Unlock the deepest parts of yourself by remembering, uncovering, recovering, discovering, and creating yourself - See that there are infinite truths in the universe, and we must choose the ones that work for us - Communicate with a version of yourself that is 20-30 years older (via an imaginative exercise) to help unlock your best life path - Perceive a scale of lies, and see that some lies are worse than others - Test your truths to see which ones are valid and which ones were just faulty assumptions - Move toward the paths that lead to confidence, awareness, happiness, and growth, and move away from the paths that lead to negativity, pain, and feelings

of being lost. This book is a one-of-a-kind practical resource for better living. At the end of every chapter, you will find key questions and an activity to ensure that you benefit from the lessons. Learn to live by your Truth and become the best version of yourself with Your Personal Truth. Your Personal Truth will help you to discover the truth for yourself, to peel away the falseness and lies around you, and see the reality as it actually is. There is the false, then there is the real and whole truth, and we must learn to see it for ourselves. If you are attracted to what is truly true, real, genuine, actual, and the universe as it is, and accepting it and working with that rather than being in denial, then this book is for you. Only harm comes from denying the truth of this life, so that is to be avoided. We

should avoid lying and liars, as this just moves us away from the reality as it is. Did you know that what you believe can affect your personal truth? Whether you are a believer in something or not can determine whether it will manifest and become the reality of your life. Truth is what the universe wants us to see. It is in love and in our everyday being, if we just open our eyes to it. Truth seekers are quite rare, but necessary in this world that has much nonsense, noise, and chaos (or perhaps even bullshit). Is finding truth in the cards for you? Was it ever something to be found, anyway? Explore such ideas here. Sometimes people can be brainwashed and not even know - it is vital then to pursue our own truth, to avoid this ever happening. This book is ideal for thoughtful, spiritual, and

introspective (or possibly introverted) souls. It is also useful for those who have been searching for and seeking the truth but struggled to find it. Your Personal Truth will surely benefit life coaches, mental health counselors, advisors, therapists, psychologists, and other leaders as well as their clients. If you are pursuing or looking for truth, this book will help to open up a truthful Tao, way, or path for you. (If you are concerned, I do not claim to give you the truth, but just to open up a way for you to find it for yourself.) Understand that whether God, holiness, a deity or deities, or religion plays an important role in your life or not, this book makes no claims to contain the truth, but rather, will help you discover it or rediscover it for yourself. I do not hold the truth. You do.

Arrive to your enlightenment, understanding, awakening, and greater insights. Similar authors you may have enjoyed include Mark Manson, Jordan B. Peterson, James Clear, Don Miguel Ruiz, Robert Greene, Charles Duhigg, Mitch Albom, Oprah Winfrey, Eckhart Tolle, Brené Brown, Napoleon Hill, Rhonda Byrne, Admiral William H. McRaven, Jonathan Haidt, Timothy (Tim) Ferriss, Ryan Holiday, Anthony (Tony) Robbins, Stephen R. Covey, and Shawn Achor. Similar genres of books you tend to read will be nonfiction, self-help, self-improvement, personal development, mind and brain improvement, philosophy, applied psychology, biographies and memoirs, education, learning, academic textbooks, health, mind & body, business and investing,

new age, religion and spirituality, and Christian books. Your Personal Truth is available as an eBook,

as a paperback book, and as an audiobook. Pick up your copy today by scrolling to the top of the page and clicking BUY NOW. Editorial Review

Issac's (I. C. Robledo's) latest book is a deep dive into the link between our thoughts and our behavior. For those that want to understand themselves (and thus others) better, this book is a can't miss. It gets straight into the hard facts of our daily incongruities that we grow used to - to our detriment. Your Personal Truth can and will help you live a more authentic life, and one that is filled with a metric ton of daily fulfillment. - Patrick King, Social Interaction Specialist, Bestselling Author

Herramientas Intellectuales de los Genios

I. C. Robledo

How do we define genius? For the Mega

Society, it means a one-in-a-million level score on an IQ test, which is why the society only has 27 members. Standardized testing to measure intelligence began in the first half of the 20th century, but a high IQ score is only one way to quantify genius. Another is by virtue of extraordinary achievement and expertise in science and the arts. The second is probably more useful, but these debates illustrate how little we know about the origins, development or processes of intelligence. In this eBook, Eureka! The Science of Genius, we review the latest research on the nature of intellectual and creative achievement, including traits that geniuses tend to share, how much of their ability is nature versus nurture, the cognitive processes involved during the stages of discovery

and creativity, and, most importantly, what we can do to enhance intelligence. While genetics have a large role to play, even geniuses have to work to gain the necessary expertise – although they have to spend less time to acquire it than their less endowed counterparts – as Dean Keith Simonton points out in the eBook’s namesake article, “The Science of Genius.” Imaging research also indicates that there is no one “blueprint” for intelligence. In “What Does a Smart Brain Look Like?” Richard J. Haier explains how women and men with the same IQ scores show different patterns of gray and white matter, suggesting that the structural roots of intelligence may differ by gender. Many articles look at either nurturing intelligence in children or enhancing it in adults, and

the good news is that intellectual abilities are not set in stone. In fact, one method is surprisingly simple – move. As Christopher Hertzog points out in “Fit Body, Fit Mind?” physical activity is linked to mental acuity and can help slow the cognitive decline that comes with aging. Research is also providing insight into what happens in the brain when we learn, leading to changes in educational practices. In “What Works, What Doesn’t,” psychology professors describe study techniques that accelerate learning—and reveal that the most popular methods are actually a waste of time, and in “Calisthenics for a Child’s Mind,” Ingrid Wickelgren reports on brain-training exercises that show promise in classrooms. Carol S. Dweck advocates the importance of a “growth

mind-set” that focuses on effort and effective strategies rather than innate intelligence in her article “The Secret to Raising Smart Kids.” This approach emphasizes hard work and love of the challenge of learning, an approach that could benefit everyone, regardless of IQ score.

The Early Mental Traits of Three Hundred Geniuses Instant Series Publication
Go from Poor Learner to Pro-Learner Without Buying into the Many Myths
Imagine that there was a way to improve your ability to learn, so that you could move toward your goals faster. Think what would happen if you didn’t have to struggle so much to get little result, and that you could make great progress for the effort you put in. Internationally bestselling author I. C. Robledo collected

information from a wide range of sources to show you what you need to know about learning. Realize that learning is a skill that can be improved. If you master this skill, it can help you make progress in many other areas. Inside, you will discover:

- The most effective study technique that few students actually use
- How slower learners are often underestimated, and can surpass expectations
- What we can learn from the fun and curiosity children bring to learning
- Why knowing your motivation and purpose is key when learning something new
- What type of learner you are: exploratory generalist, project tackler, or curriculum developer

Understand how learning works, and use it to your advantage with No One Ever Taught Me How to Learn. Pick up your

Editorial Reviews "This book been through some things, you know, financially,

emotionally, physically, spiritually, all types of stuff. I've been down with the book, the book brought me back up, been back down, and brought me back up again." — Oliver James, TikTok Sensation and Motivational Speaker (@oliverspeaks1) whose story has been featured on ABC's Good Morning America, the Rachael Ray Show, and NPR. "I live for quotes and positive affirmations. This is a great collection of them for all different types of life situations." — Maria Howard, Writing Consultant, Amazon.com "This is a collection of thought-provoking inspirational quotes, and some of them come from surprising sources. If, like me, you're a sucker for a good quote, you'll enjoy this book." — Susan Flett Swiderski, reader, Amazon.com "It was

as good as I thought it would be. Reading this book reminded me of my inner voice and what I need to listen to more. We need to hear the positive side instead of the negative side or we lose who we can truly be!!!" — Amazon Customer, reader, Amazon.co.uk "Magnificent: The quotes are amazing and relevant to our current society." — Onesmus A., reader, Kobo.com "Most powerful book ♥" — Ezaz Ahamed, reader, Play.Google.com "Best book I ever read." — Sunilsonu Sunilsonu, reader, Play.Google.com Master the Art of Genius I. C. Robledo Named one of Vulture's Top 10 Best Books of 2020! Leftist firebrand Fredrik deBoer exposes the lie at the heart of our educational system and demands top-to-bottom reform. Everyone agrees

that education is the key to creating a more just and equal world, and that our schools are broken and failing. Proposed reforms variously target incompetent teachers, corrupt union practices, or outdated curricula, but no one acknowledges a scientifically-proven fact that we all understand intuitively: Academic potential varies between individuals, and cannot be dramatically improved. In *The Cult of Smart*, educator and outspoken leftist Fredrik deBoer exposes this omission as the central flaw of our entire society, which has created and perpetuated an unjust class structure based on intellectual ability. Since cognitive talent varies from person to person, our education system can never create equal opportunity for all. Instead, it teaches our children that

hierarchy and competition are natural, and that human value should be based on intelligence. These ideas are counter to everything that the left believes, but until they acknowledge the existence of individual cognitive differences, progressives remain complicit in keeping the status quo in place. This passionate, voice-driven manifesto demands that we embrace a new goal for education: equality of outcomes. We must create a world that has a place for everyone, not just the academically talented. But we'll never achieve this dream until the Cult of Smart is destroyed.

The Intellectual Toolkit of Geniuses
Forgotten Books

"Genius 101 makes for a great read on a centuries-old scientific puzzle - as well as a lively text on the wellsprings and

manifestations of genius." Teresa M. Amabile, PhD The Edsel Bryant Ford Professor of Business Administration Harvard Business School [A] clear and engaging summary of this mysterious and utterly important phenomenon written by arguably the world's expert on the topic. Nearly 30 years of Simonton's fascination and focused intellect on the topic of exemplary genius come together in this brief, accessible and insightful volume. If only all introductory courses were this much fun! --Gregory J. Feist, PhD San Jose State University "The latest, and possibly most comprehensive, entry into this genre [on the study of genius] is Dean Keith Simonton's new book Genius 101... Simonton, a psychology professor at the University of California, Davis, is one of

the world's leading authorities on the intellectually eminent..." --Time Magazine, February 13, 2009 "Genius 101 is an extremely readable and entertaining book: I read it in one sitting....Each chapter is informative, well organized, provocative, and entertaining. This book presents the best short introduction to genius to be found." --Robert Sternberg PsycCritiques Are geniuses born or made? How do psychologists measure "genius"? Is it "genius," or is it "madness"? "Genius," contrary to common belief, is not strictly a matter of intelligence. Intellect, personality, creativity, even serendipity play a significant role in molding a genius. So, what does it mean to be a genius? Genius 101 examines the many definitions of "genius," and the multiple

domains in which it appears, including art, science, music, business, literature, and the media. Dr. Simonton introduces the study of genius theory and the research supporting it, using non-scientific, accessible language-fit for a non-genius. The Psych 101 Series Short, reader-friendly introductions to cutting-edge topics in psychology. With key concepts, controversial topics, and fascinating accounts of up-to-the-minute research, The Psych 101 Series is a valuable resource for all students of psychology and anyone interested in the field.

7 Thoughts to Live Your Life By I. C. Robledo

LERNEN – Die Grundsätze, die Genies seit Jahrzehnten verwenden Was haben Leonardo da Vinci, Thomas Edison,

Charles Darwin und Albert Einstein gemeinsam? Dies scheint eine Fangfrage zu sein, richtig? Sie waren natürlich Genies! Sie waren nicht nur Genies, sondern sie haben alle Grundsätze befolgt, die ihnen auf dem Weg zu ihren großen Entdeckungen geholfen haben. Ich habe das Leben der Genies studiert und bin auch in meinem eigenen Leben auf Grundsätze gestoßen, die Genies immer wieder anwenden. Es gibt Regeln und Muster, wie Genies denken und auf was sie sich konzentrieren. Darum geht es in diesem Buch. FANGEN SIE SOFORT AN – Bauen Sie Ihren Geist und Ihre intellektuelle Stärke auf Wenn Sie nicht massenweise Biographien lesen wollen, sondern einfach nur lernen möchten, wie Genies denken (und wie Sie zu einem werden können), ist dies das richtige

Buch für Sie. Mit Hilfe dieser 40 Grundsätze können Sie sofort anfangen. Diese Grundsätze werden Sie schlauer machen und Sie einen großen Schritt weiter bringen, wie ein Genie zu denken. Wir müssen im Hinterkopf behalten, dass es in der heutigen Gesellschaft viele falsche Überzeugungen darüber gibt, was man braucht, um ein Genie zu werden. Viele Menschen glauben, dass es nicht möglich sei, ein Genie zu werden. Das ist einfach nicht wahr. Die meisten von uns wissen nur nicht, wo Sie anfangen sollen, und sie wollen sich nicht die Mühe machen, die es erfordert, um ein Genie zu werden. Ansonsten gibt es nicht viel, was uns aufhalten kann. Wenn Sie wissen, wo Sie anfangen müssen, und wenn Sie bereit sind, daran zu arbeiten, liegt die Genialität in Ihrer

Reichweite. Sobald wir die genauen Grundsätze kennen (die Wege des Denkens und die Tools, die wir brauchen, um loszulegen), sind uns keine Grenzen gesetzt. Das allgemeine Thema dieses Buches ist, dass wir damit aufhören müssen, uns selbst zu begrenzen. Wir müssen dazu bereit sein, unser Potential zu entfalten. Unser Kopf hat mehr Potential, als wir denken. Nutzen Sie Ihren Verstand, um Ihr Denken auf die nächste Stufe zu bringen und Ihre eigene wahre Größe zu erreichen. DOWNLOAD – Das intellektuelle Toolkit der Genies: 40 Grundsätze, die Sie schlauer machen und Sie lehren, wie ein Genie zu denken Hier sind einige Grundsätze, die Sie in diesem Buch erfahren werden: - Lernen Sie mittels verschiedener Formate oder Methoden (#2) - Lassen Sie sich auf

persönliche Experimente mit der Welt um Sie herum ein (#11) - Lernen Sie den Unterschied zwischen Fehler und Misserfolg kennen (#18) - Wir alle hegen unsere eigene falsche Art der Weltanschauung (#27) - Achten Sie auf Muster und Unregelmäßigkeiten (#37) - Insgesamt 40 Grundsätze! LERNEN – Sie mehr darüber, wie man schlauer denkt und wird... Laden Sie “Das Intellektuelle Toolkit Der Genies” herunter und schalten Sie Ihr Potenzial frei, wie so viele Genies vor Ihnen. Scrollen Sie nach oben und klicken Sie auf die ‘Kaufen’ Taste. Das intellektuelle Toolkit der Genies wird Ihnen helfen, klüger zu denken und zu arbeiten, Ihr inneres Genie zu entfesseln, jeden Tag klüger zu werden, ein kreatives Genie zu sein und ein Universalgelehrter zu werden. Es

wird Ihnen auch helfen, schnell Fachwissen zu erwerben, Ihr Gehirn zu trainieren, Ihre Intelligenzwerte und Ihren IQ zu erhöhen, Spitzenleistungen und beschleunigtes Lernen anzuwenden, sich länger zu konzentrieren und sich nicht mehr ablenken zu lassen, wahre Meisterschaft zu erlangen und Menschen zu lehren, genial zu sein. Dies ist eines der besten Bücher, die man auf Deutsch lesen kann. Dieses Buch ist ideal für Schüler und Studenten, begabte und talentierte Schüler, Teilnehmer an standardisierten Tests, Lehrer, Erzieher, erwachsene Lernende, unabhängige Lernende und Selbststarter, Schulverwalter, Manager und Führungskräfte sowie Eltern. Ähnliche Autoren, die Ihnen gefallen haben könnten, sind Sean Patrick, Daniel Coyle,

Mihaly Csikszentmihalyi, Malcolm Gladwell, Steven Pressfield, Walter Isaacson, Michael Michalko, Ed Catmull, David McRaney, Tony Buzan, Barbara Oakley, Joshua Foer, Sanjay Gupta, Harry Lorayne, Edward de Bono, Joseph Murphy, John C. Maxwell, Robert Greene, Peter Hollins, Peter C. Brown, Jim Kwik und Josh Waitzkin. Ähnliche Genres von Büchern, die Sie gerne lesen, sind Sachbücher, Selbsthilfe, Selbstverbesserung, persönliche Entwicklung, Verbesserung des Geistes und des Gehirns, Philosophie, angewandte Psychologie, Biografien und Memoiren, Bildung, Lernen, akademische Lehrbücher, Gesundheit, Geist und Körper, Wirtschaft und Investitionen, Religion und Spiritualität sowie christliche Bücher. Wenn Sie

"Awakening Your Inner Genius" von Sean Patrick, "You Are Not So Smart" von David McRaney oder "Thinking, Fast and Slow" von Daniel Kahneman mochten, werden Sie dieses Buch nicht verpassen wollen. Das intellektuelle Toolkit der Genies ist auch als Taschenbuch und als Hörbuch erhältlich.

Mindware Springer Publishing Company Whether you are a CEO or cab driver, quantum mechanic or auto mechanic, preschooler or PhD, Remedial Genius reveals the principles we humans use to create knowledge, to think, to learn, and to generate new ideas and innovations. Through entertaining stories and a layman's descriptions, Cabrera gives us a dynamic model for thinking and learning. Cabrera's string of educational and professional bumbles - both tragic

and humorous - read in stark contrast to his simple insight into the elemental structure of knowledge. For corporations who want to understand the atomic elements of the learning organization; for professionals, teachers, and students who want to reclaim their genius; for scientists who need a model to deal with complexity; for parents who want to build their child's inherent genius; Remedial Genius offers the mental model we'll all need to prosper in the coming Knowledge Age.

The Insightful Reader I. C. Robledo
What Are Your Solutions to Life's Questions? This is not your typical book. Here, you will find 365 questions designed to open up your mind to think about yourself and your place in the world in new ways. With these questions,

you may come to powerful realizations that will help you to improve yourself, the people around you, and maybe even the world. Most self-development books present you with solutions to common problems. This can be helpful, but what if those solutions work for most people, but not you? Perhaps what you need is a book of questions to help stimulate you to find useful solutions for your unique situation. Maybe you always had the solutions deep down somewhere inside of you, and you just needed the right questions to help guide you to them. When you do the work of pursuing your answers to these Questions, you will be rewarded with a breakthrough in understanding your life, your place in the world, and the path that you were destined for. Understand that there is no

single right answer, no one perspective that is right, there is only your personal truth that you must reveal to yourself. In Question Yourself, the authors give you the credit that with your knowledge, background and experiences, and with the right questions, you will be able to discover solutions to your life's troubles. Look inside, deeper and deeper into yourself, and you may be surprised at the power and abilities you always possessed. You may even discover new parts of yourself you never knew existed. Authors Dave Edelstein (A.B., Philosophy from Harvard University) and I. C. Robledo (M.S., Industrial-Organizational Psychology from University of Oklahoma) combine their expertise in philosophy, psychology, and self-development to provide you with

questions which were designed to help you help yourself. The authors believe there is enormous potential in seeking the answers within, rather than always seeking them from sources outside of yourself. Here is a small sample of the Questions you will find inside: - Question #9: Are you afraid of being alone with yourself? Or do you enjoy it? - Question #57: What is love? How do you show it? - Question #112: What is the one thing you know for sure? - Question #182: Are the small moments in life worth more than we give them credit for? - Question #263: What amount of money would it take for you to consider forsaking your deeply held values? - Question #295: Are you in the process of fulfilling your dreams, or is there an obstacle in your path? - Question #359: Have you ever

felt personally touched by a spirit or higher power? Are you ready to find meaningful solutions to your life's greatest troubles with Question Yourself? Question Yourself will help you to begin searching for answers to some of life's toughest, challenging, and thought-provoking questions. Questioning is a skill and art that we must all develop, but this book rather than answering your questions, actually provides questions for every day of the new year that you might have never even thought to ask on your own. These will offer you some of the best questions to figure out this life all on your own. No book can provide you a definitive answer to these difficult questions, but perhaps you can figure it all out for yourself, with a bit of thought and reflection. Perhaps you can change

your life by truly digging deep and searching for your own responses, with this awesome list of wonderful questions to use as a prompt. This book is ideal for high school and college students, gifted and talented students, standardized test takers, teachers, educators, adult learners, independent learners and self-starters, school administrators, managers and leaders, and parents. Similar authors you may have enjoyed include Sean Patrick, Daniel Coyle, Mihaly Csikszentmihalyi, Malcolm Gladwell, Steven Pressfield, Walter Isaacson, Michael Michalko, Ed Catmull, David McRaney, Tony Buzan, Barbara Oakley, Joshua Foer, Sanjay Gupta, Harry Lorayne, Edward de Bono, Joseph Murphy, John C. Maxwell, Robert Greene, Peter Hollins, Peter C. Brown, Jim Kwik,

and Josh Waitzkin. Similar genres of books you tend to read will be nonfiction, self-help, self-improvement, personal development, mind and brain improvement, philosophy, applied psychology, biographies and memoirs, education, learning, academic, textbooks, health, mind & body, business and investing, religion and spirituality, and Christian books. If you enjoyed reading *The Book of Questions: Revised and Updated* by Gregory Stock, *A More Beautiful Question: The Power of Inquiry to Spark Breakthrough Ideas* by Warren Berger, or *Questions You Must Answer Before You DIE!* by AiR, then you won't want to miss this book. *Question Yourself* is available as an eBook, paperback book, and audiobook. Read for Insights, Improve Your Life, & Make an Impact * INSIGHTS present you with a shift in the way you think about

an idea or topic. They provide you with a realization that you should change the way you think about something and reconsider the actions that you take. * Insights from reading have the power to provide us with priceless nuggets of knowledge and wisdom. For example, you may discover a key piece of advice that helps you move away from a bad situation and to change your life around. Or you may discover words that aid you to help someone close to you in need of advice or support, perhaps helping you to save a life. Seeking out and reading insightful books will help catapult you to higher levels of success, happiness, physical and emotional health, understanding, wisdom, and peace. This is because when you read, you have access to some of the most brilliant and

inspirational people of all time, and the lessons they learned. The problem is most of us learn how to read superficially in school, rather than in a deep and meaningful way. Thankfully, The Insightful Reader will help you to choose the right books to read, get more out of what you read, create a better life through reading, and ultimately to become an insightful reader, learner, and thinker. Whether you read hundreds of books or just a few per year, you will benefit from this book. With the insights you acquire through reading, you can change and empower yourself, aid those around you, and ultimately make an impact on the world. Why focus on reading? Reading is a unique vehicle for learning, where the cost in money and time for the insights gained is quite low.

A workshop or course will cost magnitudes more, while you may not learn any more than you would from books. Also, you tend to learn much more from reading than you would in audio or video formats, when given the same time. Focus on becoming an Insightful Reader, and you will accomplish your goals much more effectively and efficiently. Internationally bestselling author I. C. Robledo has written The Insightful Reader based on a personal love for reading, learning, and applying what he learns. He has read over 400 books, thousands of general articles, hundreds of academic articles, and hundreds of short stories and poems. Robledo wishes to show you how to improve your reading abilities based on his experience. Inside, you will

discover how to: - Find high quality, interesting books efficiently - Hunt for insights instead of meaningless facts - Make more time to read and stop making excuses - Take notes adaptively, depending on your goals - Stop getting distracted while reading - Read different books differently, depending on your purpose - Learn more effectively from very challenging books (e.g., college textbooks or highly technical texts) - Apply what you read - Bonus: 200+ high quality and insightful book recommendations Learn how to read better books and get the most out of them today with The Insightful Reader. The Insightful Reader will help you to read better and faster, to not need to “speed read” impatiently, but rather to read, understand, and learn deeply,

effectively, and with masterful skill. You will read with tremendous comprehension and truly absorb the knowledge within the books around you. Train your mind to engage in critical thinking and boost your capacity for intellectual thought and reasoning, all through knowing how to actually read a book properly. There is no need to read speedily when you know how to read deeply, in a way that the information and knowledge sticks, so that you can remember, recall, and apply it. You will soon begin to have insights, epiphanies, and flashes of understanding. This book is ideal for high school and college students, gifted and talented students, standardized test takers, teachers, educators, adult learners, independent learners and self-starters, school

administrators, managers and leaders, and parents. It is also useful for serial readers, voracious readers, and people who love to read for fun and to learn anything and everything quickly yet thoroughly. This book is effective for readers of all kinds of nonfiction via eBooks, paperback books, magazines, newspapers, school textbooks, short stories, essays, digital or computer screen readers, and even the backs of cereal boxes. Similar authors you may have enjoyed include Sean Patrick, Daniel Coyle, Mihaly Csikszentmihalyi, Malcolm Gladwell, Steven Pressfield, Walter Isaacson, Michael Michalko, Ed Catmull, David McRaney, Tony Buzan, Barbara Oakley, Joshua Foer, Sanjay Gupta, Harry Lorayne, Edward de Bono, Joseph Murphy, John C. Maxwell, Robert

Greene, Peter Hollins, Peter C. Brown, Jim Kwik, and Josh Waitzkin. Similar genres of books you tend to read will be nonfiction, self-help, self-improvement, personal development, mind and brain improvement, philosophy, applied psychology, biographies and memoirs, education, learning, academic textbooks, health, mind & body, business and investing, religion and spirituality, and Christian books.
