Although his film career  
extended from the early  
days of sound to the  
British New Wave and  
beyond, Sir John Mills is  
nonetheless remembered  
as the archetypal hero of  
the Second World War.  
Regarded as an English

'everyman', his performances crossed the class divide and, in his easy transition from below decks to above, he came to represent a newly democratic masculine ideal. But what was this exemplary masculinity and what became of it in the aftermath of war? John Mills and British Cinema asks how was it possible for an actor to embody national identity and, by exploring the cultural contexts in which Mills and the nation became synonymous, the book offers a new

perspective on 40 years of cinema and social change. Through detailed analysis of a wide range of classic British films, John Mills and British Cinema exposes the shifting constructions of 'national' masculinity, arguing that the screen persona of the actor is a fundamental, and often overlooked, dimension of British cinema.

Seven Seas Entertainment Dick Dale & the Del-Tones began holding weekend dances at the Rendezvous

Ballroom in Balboa, California, in the summer of 1960. Over the next year and a half, Dale developed the sound and style that came to be known as "surf music." The result was the development of more powerful guitar amplifiers, a dramatic increase in the sales of Fender guitars and amplifiers, and a shift from New York to West Coast recording studios. More and more people were drawn to the sport of surfing, which became an important part of teen beach culture at the time.

Even landlocked teenagers were captured by the moment, carrying surfboards atop their woodies in Phoenix or bleaching their hair blonde in St. Paul. For hundreds of thousands of kids, though, the attraction was not the connection to surfing; it was the connection to the music pioneered by Dick Dale.

sang Mau Mau activists. The struggle for independence in Kenya was waged at many levels. *Never be Silent* explores how this struggle was reflected in the communications field. It looks at publishing activities of the main contending forces and explores internal contradictions within each community. It documents the major part played by the communications activities of the organised working class and Mau Mau in the achievement of independence in Kenya.

The book contributes to a reinterpretation of colonial history in Kenya from a working class point of view and also provides a new perspective on how communications can be a weapon for social justice in the hands of liberation forces.
