A guarded shifter. A nerd turned rock star. Opposites attract in this paranormal romance with damaged heroes and dangerous secrets. I avoid relationships because of my furry little secret. It makes me a freak. No one would understand my affliction during the full moon. But when I meet Nico, the singer of a rock band, at an underground goth club, his sensual voice enchants me. He's a computer geek by day, and rock star by night. Incredibly smart and devilishly attractive. How could anyone resist such a hot combination? Or the way he sings with that British accent? But getting too close will set us both up for a fall... Ignite is a standalone romance in the Underground Encounters paranormal romance series. Step into a hidden world of shifters, vampires, witches, and gargoyles. Who will you take home tonight? "The chemistry between Lily and Nico is off the charts... hot and steamy. They are a great match together in and out of the bedroom." Don't Miss this Top Pick from both Night Owl Reviews and The Romance Reviews! For readers of J. R. Hugo and Shirley Jackson award-winning Peter Watts stands on the cutting edge of hard SF with his acclaimed novel, *Blindsight* Two months since the stars fell... Two months of silence, while a world held its breath. Now some half-derelict space probe, sparking fitfully past Neptune's orbit, hears a whisper from the edge of the solar system: a faint signal sweeping the cosmos like a lighthouse beam. Whatever's out there isn't talking to us. It's talking to some distant star, perhaps. Or perhaps to something closer, something en route. So who do you send to force introductions with unknown and unknowable alien intellect that doesn't wish to be met? You send a linguist with multiple personalities, her brain surgically partitioned into separate, sentient processing cores. You send a biologist so radically interfaced with machinery that he sees x-rays and tastes ultrasound. You send a pacifist warrior in the faint hope she won't be needed. You send a monster to command them all, an extinct hominid predator once called vampire, recalled from the grave with the voodoo of recombinant genetics and the blood of sociopaths. And you send a synthesist—an informational topologist with half his mind gone—as an interface between here and there. Pray they can be trusted with the fate of a world. They may be more alien than the thing they've been sent to find. At the Publisher's request, this title is being sold without Digital Rights Management Software (DRM) applied.

21 simple and easy daily rituals to help you tune into your inner wisdom so that you can start making better, more inspired decisions in your life Like optimism, intuition can be cultivated. Research has shown that contrary to popular opinion intuition isn't something we are born with and it doesn't come naturally to everyone. Intuition is a skill that we can learn and we can get better at it the more we practise. Drawing on science, psychology and Theresa's techniques this book offers 21 simple and proven daily rituals to help you tune into your inner wisdom and start making better decisions in your life today. Following on from the success of *21 Rituals to Change your Life* readers will be encouraged to follow a daily ritual plan for a period of at least 21 days. Research shows that it takes around three weeks to ensure a daily ritual becomes entrenched at a neural level and is therefore powerful enough to change your life for the better. Each of the intuition-boosting rituals are simple and easy to understand and can be incorporated into everyday life in a matter of moments. Most importantly they are enjoyable and rewarding, with, external benefits or internal insights becoming obvious within days. Combining science, esoteric arts, the power of ritual and the accessibility of popular psychology, this easy-to-read guide will engage, motivate and inspire.

Endless terror. Refugee waves. An unfixable global economy. Surprising election results. New billion-dollar fortunes. Miracle medical advances. What if they were all connected? What if you could understand why? *The Seventh Sense* is the story of what all of today's successful figures see and feel: the forces that are invisible to most of us but explain everything from explosive technological change to uneasy political ripples. The secret to power now is understanding our new age of networks. Not merely the Internet, but also webs of trade, finance, and even DNA.

Based on his years of advising generals, CEOs, and politicians, Ramo takes us into the opaque heart of our world's rapidly connected systems and teaches us what the losers are not yet seeing -- and what the victors of this age already know.

The Sense of an Ending Farrar, Straus and Giroux

In the near future of Seattle, darkness looms as a malevolent force infects humanity, seizing control of their minds. Marci, a brilliant seventeen-year-old hacker renowned across the city, has always battled against this relentless assault on her mind. But lately, the attacks intensify, pushing her to commit reckless acts beyond her control. Misjudged as a rebellious youth, even her own mother and best friend fail to see the truth when she races her bike, pursued by the authorities. She's not the one in command. Something else is. Time after time, Marci triumphs over the encroaching shadows, determined to preserve her own identity. Recognizing her unwavering strength, James McCray, leader of the rebellious group IgNiTe, recruits her, assuring her sanity is intact. But the reality is far grimmer. Marci has fallen victim to a devastating plague, one that affects half of Seattle and the world. With alarming swiftness, people are replaced by sinister beings. The fate of humanity hangs by a thread, unless Marci and IgNiTe can halt the infection's relentless spread before it's too late. For devotees of clean young adult science fiction, this dark urban fantasy infused with apocalyptic dread offers intrigue, romance, and relentless action. Ignite the Shadows, a thrilling series reminiscent of The 5th Wave guarantees an unputdownable experience.

New York Times bestselling author Jaci Burton is back with a friends-to-lovers romance sure to melt hearts as one smokin'-hot fireman turns up the heat on love. Relationships. Firefighter Rafe Donovan avoids them whenever possible. He loves dating women, but he makes sure they know up front that he's in it for fun, great sex and nothing more. Fun. As an ER nurse and official caretaker of her disabled grandfather, Carmen Lewis doesn't have time for fun. But Rafe has been there for Carmen--and her grandfather--time and again, and he's clearly interested in her. She knows he's a player, but she's tempted by his charm and incredible body. And maybe a little fun isn't a bad thing, as long as she keeps her heart away from this fiery game she's enjoying with a very hot man. Love. It doesn't take Rafe long to realize that until now he's only been playing at romance. With Carmen he feels searing passion and heart-tugging emotion for the first time. Now he has to convince Carmen that what they have together is the real deal.

Our Final Hour Little, Brown

Jesus never said "Seek first" about any pursuit or purpose except the kingdom of God. But the church has essentially abandoned this central message, so that kingdom realities have become lost to us. Our neglect has been costly, because God's kingdom on earth—His cosmic initiative—has the authority and power to revolutionize our culture. This transformation occurs first within us and then around us, igniting the world with forgiveness, healings, miracles, righteousness, and peace. The reason most people today do not seek the kingdom is that they have not seen it. Once they truly see it, they seek and follow the remarkable vision they have glimpsed. This is because discovering the kingdom is not just information but an adventure in revelation and transformation. Well-known speaker and kingdom-seeker Jack Taylor invites us to be reintroduced to the kingdom of God and to experience the recovery of the kingdom gospel—leading to kingdom power, kingdom love, and the greatest kingdom harvest the world has ever seen.

I Heart You, You Haunt Me Abrams

New York Times Bestseller "I never thought science could be funny . . . until I read Frank Einstein. It will have kids laughing." —Jeff Kinney, *Diary of a Wimpy Kid* "Huge laughs and great science—the kind of smart, funny stuff that makes Jon Scieszka a legend." —Mac Barnett, author of *Battle Bunny* and *The Terrible Two* Clever science experiments, funny jokes, and robot hijinks await readers in the first of six books in the New York Times bestselling Frank Einstein chapter book series from the mad scientist team of Jon Scieszka and Brian Biggs. The perfect combination to engage and entertain readers, the series features real science facts with adventure and humor, making these books ideal for STEM education. This first installment examines the science of "matter." Kid-genius and inventor Frank Einstein loves figuring out how the world works by creating household contraptions that are part science, part imagination, and definitely unusual. In the series opener, an uneventful experiment in his garage-lab, a lightning storm, and a flash of electricity bring Frank's inventions—the robots Klink and Klank—to life! Not exactly the ideal lab partners, the wisecracking Klink and the overly expressive Klank nonetheless help Frank attempt to

perfect his inventions. . . until Frank's archnemesis, T. Edison, steals Klink and Klank for his evil doomsday plan! Integrating real science facts with wacky humor, a silly cast of characters, and science fiction, this uniquely engaging series is an irresistible chemical reaction for middle-grade readers. With easy-to-read language and graphic illustrations on almost every page, this chapter book series is a must for reluctant readers. The Frank Einstein series encourages middle-grade readers to question the way things work and to discover how they, too, can experiment with science. In a starred review, Kirkus Reviews raves, "This buoyant, tongue-in-cheek celebration of the impulse to 'keep asking questions and finding your own answers' fires on all cylinders," while Publishers Weekly says that the series "proves that science can be as fun as it is important and useful." Read all the books in the New York Times bestselling Frank Einstein series: Frank Einstein and the Antimatter Motor (Book 1), Frank Einstein and the Electro-Finger (Book 2), Frank Einstein and the BrainTurbo (Book 3), and Frank Einstein and the EvoBlaster Belt (Book 4). Visit frankeinsteinbooks.com for more information.

STARRED REVIEW "In the final analysis, this buoyant, tongue-in-cheek celebration of the impulse to 'keep asking questions and finding your own answers' fires on all cylinders." --Booklist, starred review "Scieszka mixes science and silliness again to great effect." —Kirkus Reviews "In refusing to take itself too seriously, it proves that science can be as fun as it is important and useful." —Publishers Weekly "With humor, straightforward writing, tons of illustrations, and a touch of action at the end, this book is accessible and easy to read, making it an appealing choice for reluctant readers. A solid start to the series." --School Library Journal "Kids will love Frank Einstein because even though he is a new character he will be instantly recognizable to the readers..Jon Scieszka is one of the best writers around, and I can't wait to see what he does with these fun and exciting characters." —Eoin Colfer, *Artemis Fowl* "Jon Scieszka's new series has the winning ingredients that link his clever brilliance in story telling with his knowledge of real science, while at the same time the content combination of fiction and non fiction appeals to the full range of the market." —Jack Gantos, *Dead End in Norvelt*

Igniting a Passion for Reading The Experiment

Jump start hope, kick your creativity into gear, and explode your definition of the possible A self improvement book like nothing you've ever seen-or heard: a book and podcasting joint production brings to light an insight-boosting audio/visual method for changing the way you think and maximizing your creative potential. Recommended by the American Psychological Association, the therapeutic method works on two different levels. Powerful four color images accompanied by penetrating questions ask us to think deeply and concentrate on our ideas and beliefs. Then the sound track uses bilateral sounds that resonate from one side of your headphones to the other, stimulating both sides of the brain. When asking the brain to communicate with itself differently, new neural networks and thought pathways form, and people begin to be able to see events and ideas through different lenses. The process heightens awareness and mindfulness and allows readers the rare opportunity to take control and live the lives they've always dreamed of and ignite the genius they've always had within.

Feminine traits that were once disparaged as weaknesses -- such as sensitivity, intuition, and feeling emotional -- are reclaimed as powerful strengths that can be embraced as the keys to a happier life for everyone Challenging old and outdated perceptions that feminine traits are weaknesses, The Feminine Revolution revisits those characteristics to show how they are powerful assets that should be embraced rather than maligned. It argues that feminine traits have been mischaracterized as weak, fragile, diminutive, and bittered for too long, and offers a call to arms to redeem them as the superpowers and gifts that they are. The authors, Amy Stanton and Catherine Connors, begin with a brief history of when-and-why these traits were defined as weaknesses, sharing opinions from iconic females including Marianne Williamson and Cindy Crawford. Then they offer a set of feminine principles that challenge current perceptions of feminine traits, while providing women new mindsets to reclaim those traits with confidence. The principles include counterintuitive messages, including: Take things hard. Women feel things deeply, especially the hard stuff -- and that's a good thing. Enjoy glamour. Peacocks' bright coloring and garish feathers are part of their survival strategy -- similar tactics are part of our happiness strategy. Chit-chat. Women have been derogated for "gossip" for centuries. But what others call gossip, we call social connection. Emote. Never let anyone tell you to not be emotional. Express your enthusiasm, love, affection and warmth. Embrace your domestic side. Don't be ashamed to cultivate the beauty of your home and wrap your arms around friends and family. With an upbeat blend of self-help and fresh analysis, The Feminine Revolution reboots femininity for the

modern woman and provides her with the tools to accept and embrace her own authentic nature.

Now this singular guide helps us rediscover what our ancestors long understood—that a windswept tree, the depth of a puddle, or a trill of birdsong can help us find our way, if we know what to look and listen for. Adventurer and navigation expert Tristan Gooley unlocks the directional clues hidden in the sun, moon, stars, clouds, weather patterns, lengthening shadows, changing tides, plant growth, and the habits of wildlife. Rich with navigational anecdotes collected across ages, continents, and cultures, *The Natural Navigator* will help keep you on course and open your eyes to the wonders, large and small, of the natural world.

Ignite Your Psychic Intuition Lisa Carlisle

A scientist known for unraveling the complexities of the universe over millions of years, Sir Martin Rees now warns that humankind is potentially the maker of its own demise -- and that of the cosmos. Though the twenty-first century could be the critical era in which life on Earth spreads beyond our solar system, it is just as likely that we have endangered the future of the entire universe. With clarity and precision, Rees maps out the ways technology could destroy our species and thereby foreclose the potential of a living universe whose evolution has just begun. Rees boldly forecasts the startling risks that stem from our accelerating rate of technological advances. We could be wiped out by lethal "engineered" airborne viruses, or by rogue nano-machines that replicate catastrophically. Experiments that crash together atomic nuclei could start a chain reaction that erodes all atoms of Earth, or could even tear the fabric of space itself. Through malign intent or by mistake, a single event could trigger global disaster. Though we can never completely safeguard our future, increased regulation and inspection can help us to prevent catastrophe. Rees's vision of the infinite future that we have put at risk -- a cosmos more vast and diverse than any of us has ever imagined -- is both a work of stunning scientific originality and a humanistic clarion call on behalf of the future of life.

"Awaken Your Third Eye is a practical guide to help you explore the depths of your intuitive wisdom."—Judith Orloff, MD, author of *The Empath's Survival Guide* "This book is a treasure trove of information, bridging science, philosophy and actual practice. I can't imagine a more well-rounded and thorough resource on the subject of opening the sixth chakra and discovering the gateway to transcendent awakening. A jam-packed gem full of spiritual insight." —Anodea Judith, PhD, author of *Wheels of Life* and *Eastern Body-Western Mind* Usually, you perceive the world by using your five senses: sight, taste, smell, touch, and hearing. But there is a sixth sense, an inner eye that can open the gateway to subtler realms of existence. Developing this inner eye will enable you to view a previously invisible world of multiple dimensions, spiritual planes filled with light, and alternate realities of indescribable wonders. This eye of wisdom, knowledge, illumination, and intuition is aptly named the third eye. Using the methods in *Awaken Your Third Eye*, you will learn how to develop supersensory perception, and how to use your third eye in your everyday life to receive guidance, healing, wisdom, inspiration, creativity, and spiritual awakening.
