A young dinosaur shows how to stay friends even after having a terrible fight with his very best friend.

[Diggersaurus Explore](#) Scholastic Inc.

Describes what a young dinosaur should do in order to quickly get over being sick.

[Grandma Always Listens](#) Scholastic Inc.

In this brilliant exploration of our cosmic environment, the renowned particle physicist and New York Times bestselling author of *Warped Passages* and *Knocking on Heaven's Door* uses her research into dark matter to illuminate the startling connections between the furthest reaches of space and life here on Earth. Sixty-six million years ago, an object the size of a city descended from space to crash into Earth, creating a devastating cataclysm that killed off the dinosaurs, along with three-quarters of the other species on the planet. What was its origin? In *Dark Matter and the Dinosaurs*, Lisa Randall proposes it was a comet that was dislodged from its orbit as the Solar System passed through a disk of dark matter embedded in the Milky Way. In a sense, it might have been dark matter that killed the dinosaurs. Working through the background and consequences of this proposal, Randall shares with us the latest findings—established and speculative—regarding the nature and role of dark matter and the origin of the Universe, our galaxy, our Solar System, and life, along with the process by which scientists explore new concepts. In *Dark Matter and the Dinosaurs*, Randall tells a breathtaking story that weaves together the cosmos' history and our own, illuminating the deep relationships that are critical to our world and the astonishing beauty inherent in the most familiar things.

Darwin, Then and Now is a journey through the most amazing story in the history of science; encapsulating who Darwin was, what he said and what scientists have discovered since the publication of *The Origin of Species* in 1859. While recognized as one of the most influential individuals of the twentieth century, little is widely known about his personal life, interests, and motivations. This book explores Darwin's driving passion using Darwin's own words from *The Origin of Species*, *Autobiography*, *Voyage of the Beagle* and letters. In retracing the roots of evolution from the Greeks, *Darwin, Then and Now* journeys through the dynamics of the eighteenth century that led to the publication of *The Origin of Species* and the succeeding role of key players in the emerging evolution revolution. *Darwin, Then and Now* examines Darwin's theory with more than three-hundred quotations from *The Origin of Species*, spotlighting what Darwin said concerning the origin of species and natural selection using the American Museum of Natural History Darwin exhibit format. With over one-thousand referenced quotations from scientists and historians, *Darwin, Then and Now* explores the scientific evidence over the past 150 years from the fossil record, molecular biology, embryology, and modern genetics. [How Do Dinosaurs Love Their Cats?](#) Random House Books for Young Readers

Foreword written by Nancy Pearcey "Parents are the most important apologists our kids will ever know. Mama Bear Apologetics will help you navigate your kids' questions and prepare them to become committed Christ followers." —J. Warner Wallace "If every Christian mom would apply this book in her parenting, it would profoundly transform the next generation." —Natasha Crain #RoarLikeAMother The problem with lies is they don't often sound like lies. They seem harmless, and even sound right. So what's a Mama Bear to do when her kids seem to be absorbing the culture's lies uncritically? *Mama Bear Apologetics*® is the book you've been looking for. This mom-to-mom guide will equip you to teach your kids how to form their own biblical beliefs about what is true and what is false. Through transparent life stories and clear, practical applications—including prayer strategies—this band of Mama Bears offers you tools to train yourself, so you can turn around and train your kids. Are you ready to answer the rallying cry, "Mess with our kids and we will demolish your arguments"? Join the Mama Bears and raise your voice to protect your kids—by teaching them how to think through and address the issues head-on, yet with gentleness and respect.

[How Do Dinosaurs Love Their Dogs?](#) Blue Sky Press (AZ)

Dinosaurs prepare, enjoy the aromas of, and snack on chocolate chip, strawberry, and cinnamon cookies. On board pages.

Mama Bear Apologetics Scholastic Inc.

Simon and Schuster

A young dinosaur takes precautions in order to stay safe throughout the day, both at home and at play, in the latest addition to the How Do Dinosaurs...? series by the award-winning creative team.

How Do Dinosaurs Laugh Out Loud? Exhibit A

Ho ho ho! America's bestselling dinosaur series celebrates Christmas in an engaging board book overflowing with humor and joy! From decorating the tree to wrapping presents, little dinosaurs love to celebrate Christmas-and everything about it. With ornaments on the branches and carolers singing at the door, the spirit of Christmas is finally here and filling the hearts of families everywhere. But when the stockings are hung on the chimney, and the cookies are left out for Santa, how can little dinosaurs go to sleep? It's so exciting! How can they possibly

calm down and behave? Children will laugh out loud as dinosaurs secretly lick candy canes, take sneaky peeks at gifts, and disrupt traditional family activities. Already a holiday favorite, this board book from award-winning team Jane Yolen and Mark Teague will be an engaging, fun gift sure to be read again and again, year after year. How do dinosaurs say Merry Christmas? With an abundance of love, joy, memory, and gratitude.

How Do Dinosaurs Eat Cookies? Cartwheel Books

You won't believe why the Old Scientist swallowed a dinosaur, a fern, a rock, a pick, a dustpan, a sifting screen, a pen, and a magnifying glass! There was an old scientist who swallowed a dinosaur. I don't know why she swallowed a dinosaur but she needed to explore. Filled with hilarious illustrations, fun rhyming text, and real facts about dinosaurs, this is the latest book in the bestselling Old Lady series that's perfect for young readers. [There Was an Old Scientist Who Swallowed a Dinosaur!](#) Blue Sky

Press (AZ)

Play all day with the very first How Do Dinosaurs sticker book! Featuring the humorous prehistoric pals that made How Do Dinosaurs a bestselling series, Jane Yolen and Mark Teague bring their classic characters to life in this one-of-a-kind sticker book. Children will love to play all day with pages and pages of dinosaur stickers!
