Total Human Castration Before And Understandably, little is known about effects of castration on the human skull and skeleton.

However, in recent years a number of studies have begun to yield information. Unmanned: An Unnatural History of Human Castration ...Castration (also known as orchiectomy or orchidectomy) is any action, surgical, chemical, or otherwise, by which an individual loses use of the testicles: the male gonad. Surgical castration is bilateral orchidectomy (excision of both testicles), and chemical castration uses pharmaceutical drugs to deactivate the testes. Castration causes sterilization (preventing the castrated person or animal ...Castration -
