U.S. Army Ranger Handbook Churchill & Dunn, Limited

Formatted to 5x8 handbook with ample room for notes on each page. Fits in your pocket or backpack easily. This handbook describes the techniques that make US Army Rangers the world's premier light infantry fighting force. Over two centuries of lessons learned in bloody special operations combat are contained in this book. This book is the

ultimate resource for anyone who wants to know how Rangers function. The Ranger Handbook covers: Deception Stealth Communications Escape and Evasion Ambush Operations Perimeter Defense Counterintelligence First Aid Demolitions Mountaineering Waterborne Operations Urban Operations and Much More. The Ranger Creed: Recognizing that I volunteered as a Ranger, fully knowing the hazards of my chosen profession, I will always endeavor to uphold the prestige, honor, and high esprit de corps of the Rangers.

Acknowledging the fact that a Ranger is a more elite soldier who arrives at the cutting edge of battle by land, sea, or air, I accept the fact that as a Ranger my country expects me to move further, faster and fight harder than any other soldier. Never shall I fail my comrades. I will always keep myself mentally alert, physically strong and morally straight and I will shoulder more than my share of the task whatever it may be, 100% and then some. Gallantly will I show the world that I am a specially selected and well-trained soldier. My courtesy to superior officers, neatness of dress and care of equipment shall set the example for others to follow. Energetically will I meet the enemies of my country. I shall defeat them on the field of battle for I am better trained and will fight with all my might. Surrender is not a Ranger word. I will never leave a fallen comrade to fall into the hands of the enemy and under no circumstances will I ever embarrass my country. Readily will I display the intestinal fortitude required to fight on to the Ranger objective and complete the mission though I be the lone survivor. BUY YOUR COPY TODAY!

Defend what's yours when catastrophe strikes with expert tips that go beyond food and water storage. Should a national disaster occur, how will you respond? What will occur when critical societal services cease to function? As a

prepper, you will likely be ready to hole up and live off of your stored supplies, at least for a while. But what do you do during that time? What are your next steps? And how do you defend yourself against others who have not prepared for such a disaster? After the Crash covers all the situations that you may face when the lack of governmental infrastructure leads to social upheaval and chaos. Since most of the population is unprepared for a disaster of any kind, this book gives both the trained and untrained prepper valuable information needed to have any chance of survival in a world where organized government assistance may not be available. Importantly, he details the crucial steps you need to take in addition to doing everything other survival manuals advise. These critical tips go beyond stockpiling food, water, and weapons. Offering battle-proven advice, Steve Mattoon explores what it takes to survive alone versus in groups, each approach presenting its own advantages and challenges. Discover how best to defend yourself, what to use, and how to most effectively use the tools you have at your disposal. Whether you find yourself in a rural area or an urban jungle, Steve Mattoon's *After the Crash* will prove an essential addition to any prepper's bug-out bag.

Historically in warfare, the majority of all combat deaths have occurred prior to a

casualty ever receiving advanced trauma management. The execution of the Ranger mission profile in the Global War on Terrorism and our legacy tasks undoubtedly will increase the number of lethal wounds. Ranger leaders can significantly reduce the number of Rangers who die of wounds sustained in combat by simply targeting optimal medical capability in close proximity to the point of wounding. Directing casualty response management and evacuation is a Ranger leader task; ensuring technical medical competence is a Ranger Medic task. A solid foundation has been built for Ranger leaders and medics to be successful in managing casualties in a combat environment. The true success of the Ranger Medical Team will be defined by its ability to complete the mission and greatly reduce preventable combat death. Rangers value honor and reputation more than their lives, and as such will attempt to lay down their own lives in defense of their comrades. The Ranger Medic will do no less.
