NeoPopRealism Journal, In the News 2011-2013

Dorrance Publishing
 □□□□□ “Eerily plausible,” they said. “Too close to reality...” Originally published six years before the real 2019 coronavirus outbreak, The ChinaPandemic is USA Today best-selling author A.R. Shaw’s strikingly foreboding post-apocalyptic thriller novel, which plunges readers into an all-too-realistic alternate

history doomsday event that occurs after a weaponized super-virus is unleashed from a lab in China and wipes out most of the world’s population. To limit exposure to infected victims of the virus, a kind and empathetic Seattle math professor with limited survival skills escapes deep into the forests of northern Washington State. In his last words to an infected and fading

man, Graham promises his dad that he will forego his thoughts of giving up and try to survive, despite the hopelessness and despair that surrounds him. From Graham’s rustic family cabin in the woods, he starts drawing strong and determined survivors to him – an orphaned 4-year-old Korean American boy, a strong Native American woman named Tala, an elderly African American

retired police officer with a gift for understanding people... and a group of gritty survivalists without immunity to the killer virus. The China Pandemic is the epic first volume of the imaginative and immersive 'Graham's Resolution' apocalypse survival series, which features a terrifying virus pandemic, compelling and diverse and complex characters, and a

powerful battle of good vs evil in a dystopian world of desperation and corruption. "This is a story of hope when humanity is at its worst. Post-apocalyptic fiction at its best!" - Amazon Review Page Up and Order Now. Get the first 4 books in the Graham's Resolution series in one Box Set! Includes: The China Pandemic (Published in 2013) The Cascade Preppers The Last Infidels

The Malefic Nation Does not include:
 Book 5 - The Bitter Earth
 Book 6 - The Wild West
 Book 7 - The Long Goodbye

Report of the Royal Commission on Historical Manuscripts

NeoPopRealism PRESS
In the seven decades from its establishment in 1775 to the commercialization of the electric telegraph in 1844, the American postal system spurred a communicatio

ns revolution no less far-reaching than the subsequent revolutions associated with the telegraph, telephone, and computer. This book tells the story of that revolution and the challenge it posed for American business, politics, and cultural life. During the early republic, the postal system was widely hailed as one of the most important institutions of the day. No other

institution had the capacity to transmit such a large volume of information on a regular basis over such an enormous geographical expanse. The stagecoaches and postriders who conveyed the mail were virtually synonymous with speed. In the United States, the unimpeded transmission of information has long been hailed as a positive good. In few other countries has informational mobility been such a cherished

ideal. Richard John shows how postal policy can help explain this state of affairs. He discusses its influence on the development of such information-intensive institutions as the national market, the voluntary association, and the mass party. He traces its consequences for ordinary Americans, including women, blacks, and the poor. In a broader sense, he shows how the

postal system worked to create a national society out of a loose union of confederated states. This exploration of the role of the postal system in American public life provides a fresh perspective not only on an important but neglected chapter in American history, but also on the origins of some of the most distinctive features of American life today.  Reviews of this book:
 "[A] splendid new book...that gives the lie to any notion that 'government'

and 'administratio n' were 'absent' in early America." DD--Theda Skocpol, Social Science History "This well-researched and elegantly written book will become a model for historians attempting to link public policy to cultural and political change...[It] will engage not only historians of the early republic, but all scholars interested in the relationship

between state and society." DD--John Majewski, Journal of Economic History "The strength of the book is...the author's ability to untangle the thousands of social, political, economic, and cultural threads of the postal fabric and to rearrange them into a clear and compelling social history." DD--Roy Alden Atwood, Journal of American History "Richard R.

John provides an insightful cultural history of the often-overlooked American postal system, concentrating on its preeminent status for long-distance communication between its birth in 1775 and the commercialization of the electric telegraph in 1844...John effectively draws upon government documents, newspapers, travelogues, and contemporary social and political

histories to argue that the postal system causes and mirrors dramatic changes in American public life during this period...John focuses his study on the communication revolution of the past, yet his meticulous analysis of the complex motives forming the postal institution and its policies relate to such current controversies as those that surround the transmission of information in cyberspace.

These contemporary disputes highlight the power of the government in shaping the communication of the people. John privileges the postal institution as the reigning communication system, yet he links it with the developing ideology of the nation, and the scope of his study ensures its value--in the disciplines of communication studies, literature, history, and political science,

among others--as a history of the past and present." DD--Sarah R. Marino, Canadian Review of American Studies "Spreading the News exemplifies the kind of sophisticated and nuanced research that US postal history has long needed. Richard R. John breaks from the internalist, antiquarian tradition characteristic of so many post office histories to place the postal system

at the centre of American national development." DD--Richard B. Kielbowicz, Business History "[John] presents a thoroughly researched and well-written book...[which will give] insight into the history of the post office and its impact on American life." DD--Library Journal "It is surely true that in Richard John the post has had the good fortune to have found its proper historian, one capable of

appreciating the complex design and social importance of the means a people use to distribute information. He has also accomplished the impressive feat of gathering together the pieces of a postal history present elsewhere as so many tiny fragments. John has drawn into a coherent design the stories of postal patronage, the decisions about postal privacy, the incidents

along post roads used by others as illustrative anecdotes. John's work has inspired in him a deep appreciation for the accomplishments of the post." DD--Ann Fabian, The Yale Review "John's book explains how the letters and newspapers sent through the post were really the glue that held the early 13 states together and that embraced additional states as the nation expanded

westward...It is a splendid attempt to show the importance of mail service in the years before the telegraph or the telephone made at least brief news transmission possible. The postal system of the 19th century really was a factor, perhaps the major factor, in making the United States one nation." DD--Richard B. Graham, Linn's Stamp News "This book traces the central role of the postal system in [its]

communications revolution and its contribution to American public life. The author shows how the postal system influenced the establishment of a national society out of a loose union of confederated states. Richard John throws light onto a chapter in American history that is often neglected but sets up the origins of some of the most distinctive features of American life today...The

book is a comprehensive study on an important American institution during a critical epoch in its history." DD--Monika Plum, Prometheus [UK] "John has produced an original, well-documented, and thoughtful study that offers alternative and enticing interpretations of Jacksonian policies and public institutions." DD--Choice *Music News* A. R. Shaw Created by professors for professors,

the Faculty Awards compendium is the first and only university awards program in the United States based on faculty peer evaluations. The Faculty Awards series recognizes and rewards outstanding faculty members at colleges and universities across the United States. Voting was not open to students or the public at large.

Located in the Washington State Historical Society's Research Center, this collection consists of Richard Graham's letters during his trip to Nome, Alaska at the time of the gold rush in 1900. Illustrated Sporting & Dramatic News Hachette Books Marshall Frady's epic biography of Billy Graham, the world's best-known Christian evangelist and America's

pastor. With unparalleled access to Billy Graham and his family and associates, Frady presents an intimate and multifaceted portrait of the man, from his childhood upbringing in the midlands of North Carolina to his ascent to national recognition. Frady's narrative encompasses the popular religious leader, his spiritual mission, and his political involvements and bears witness to the

preeminent position Graham has held in American life for decades. “Billy Graham is our nation’s least studied national institution...Frady has finally given him the kind of attention he deserves” (The New York Times). 2015 U.S. Higher Education Faculty Awards, Vol. 1 With over 30 years of experience in the automotive industry, and detailed analysis for many of those

years. An extensive background in quality, operations management, and a certified trainer in Lean Manufacturing . This industry expertise was developed working for major automotive companies like Honda of America Mfg. (New Model Launch Team, Project Leader bringing Driver and Passenger Air Bags to Honda and initial Project Team for the East Liberty Auto Plant), BMW Manufacturing (Initial Start

Up Team, Manager of Test Finish and Rework Department as well as Special Vehicle Operations for all show and magazine vehicles) and as the General Manager for Faurecia Interior Systems (full plant responsibilities included 2 vehicle launches and adding a second facility on the campus). A few additional professional development and training experiences include an 8

<p>Week Plant Manager Training at the University of Paris, Intensive Problem-Solving Training at the Honda Design Center in Tochigi, Japan, a Quality Enhancement Seminar led by W. Edwards Deming, certification program with the John Maxwell Team and Certified Behavior Motivation Analysis with TTI Success Insights. Has authored several papers on Process Control and Process</p>	<p>Discipline and performed numerous Problem-Solving Trainings around the world.</p> <p>Reports</p> <p>Complains of Graham's not writing enough. Mentions that he has written to the Secty of War on Indn afs. in relation to the points suggested by you... The only news from the Indians in the Illinois Territory, which Graham oversaw, was the application by Chief Anderson for provisions.</p>	<p>Indicates that he will not purchase the needed corn, remarking that the Delaware Indians of Illinois will join their friends on White River and mentions the prospect of inducing the Kickapoo to move in the spring. NEW YORK
TIMES

BESTSELLER

"Reilly pokes more holes in Trump's claims than there are sand traps on all of his courses combined. It is by turns amusing and alarming."--
The New Yorker "Golf is the spine of this shocking, wildly humorous book, but humanity is its flesh and spirit." --
Chicago Sun-Times "Every one of Trump's most disgusting

qualities surfaces in golf." -- The Ringer An outrageous indictment of Donald Trump's appalling behavior when it comes to golf -- on and off the green - - and what it reveals about his character. Donald Trump loves golf. He loves to play it, buy it, build it, and operate it. He owns 14 courses around the world and runs another five, all of which he insists are the best on the planet. He also claims

he's a 3 handicap, almost never loses, and has won an astonishing 18 club championships. How much of all that is true? Almost none of it, acclaimed sportswriter Rick Reilly reveals in this unsparing look at Trump in the world of golf. Based on Reilly's own experiences with Trump as well as interviews with over 100 golf pros, amateurs, developers, and caddies, Commander in Cheat is a

startling and at times hilarious indictment of Trump and his golf game. You'll learn how Trump cheats (sometimes with the help of his caddies and Secret Service agents), lies about his scores (the "Trump Bump"), tells whoppers about the rank of his courses and their worth (declaring that every one of them is worth \$50 million), and tramples the etiquette of the game (driving on

greens doesn't help). Trump doesn't brag so much, though, about the golf contractors he stiffes, the course neighbors he intimidates, or the way his golf decisions wind up infecting his political ones. For Trump, it's always about winning. To do it, he uses the tricks he picked up from the hustlers at the public course where he learned the game as a college kid, and then polished as one of the

most bombastic businessmen of our time. As Reilly writes, "Golf is like bicycle shorts. It reveals a lot about a man." Commander in Cheat "paints a side-splitting portrait of a congenital cheater" (Esquire), revealing all kinds of unsightly truths Trump has been hiding. *News Digest* One day Ezra hears a gloomy blue tune coming from the piano. To her surprise, it's a caterpillar making the

sound: a cranky caterpillar. Ezra tries to cheer him up with some fresh air, cakes and new hats, but nothing seems to work... What can Ezra do to help the cranky caterpillar change his tune? Richard Graham is a new illustrator with a highly distinctive and original style. The origins of The Cranky Caterpillar lie in his own artistic sculptural creations: a caterpillar created from the hammers

inside an old piano, a band of musical characters, all sculpted from instruments and materials found in his studio. Graham has also been inspired by Wassily Kandinsky's colour synesthesia, whereby we are shown the magical colours of music, in this splendidly illustrated book. Children will identify with the struggle the caterpillar goes through in trying to articulate his emotions, and

will delight in the inventive band of friends that succeed in cheering him up.

The Berkshire News

A brief summary of financial proposals filed with and actions by the S.E.C.

Television & Cable Factbook

Communicate s news from John Campbell, a sub-Indian agent at the James Fork of the White River in Missouri, that the party of Delaware

Indians led by Chief William Anderson oppose removal to Kansas and have overruled Catchum's band. Reports dissatisfaction and confusion over a map. Indicates that he has very little doubt they will go and notes that it is the Cherokees that draws them to the South. Graham plans to go to White River, but asks

if Clark would like him to go immediately. Writes that he has informed Campbell of the Delaware Indians desire to have him removed and that Clark should have no objection to transfer him. Docketed by Graham, who indicates that this letter was a copy. Several alterations indicate that this was possibly a draft. Commander in Cheat
