"There's nothing semi about Finn Murphy's trucking tales of The Long Haul."—Sloane Crosley, Vanity Fair More than thirty years

ago, Finn Murphy dropped out of college to become a long-haul trucker. Since then he's covered more than a million miles as a mover, packing, loading, hauling people's belongings all over America. In *The Long Haul*, Murphy recounts with wit, candor, and charm the America he has seen change over the decades and the poignant, funny, and often haunting stories of the people he encounters on the job.

*Treasury, Postal Service, and General Government Appropriations for Fiscal Year 1994* DIANE Publishing

A surreal, lyrical work of narrative nonfiction that portrays how the largest domestic oil discovery in half a century transformed a forgotten corner of the American West into a crucible of breakneck capitalism. As North Dakota became the nation's second-largest oil producer, Maya Rao set out in steel-toe boots to join a wave of drifters, dreamers, entrepreneurs, and criminals. With an eye for the dark, absurd, and humorous, Rao fearlessly immersed herself in their world to chronicle this modern-day gold rush, from its heady beginnings to OPEC's price war against the US oil industry. She rode shotgun with a surfer-turned-truck driver braving toxic fumes and dangerous roads, dined with businessmen disgraced during the financial crisis, and reported on everyone in between -- including an ex-con YouTube celebrity,

a trophy wife mired in scandal, and a hard-drinking British Ponzi schemer--in a social scene so rife with intrigue that one investor called the oilfield Peyton Place on steroids. As the boom receded, a culture of greed and recklessness left troubling consequences for investors and longtime residents. Empty trailers and idle oil equipment littered the fields like abandoned farmsteads, leaving the pioneers who built this unlikely civilization to reckon with their legacy. Part Barbara Ehrenreich, part Upton Sinclair, *Great American Outpost* is a sobering exploration of twenty-first-century America that reads like a frontier novel.

"Both the public and private sectors are grappling with decisions regarding policies that will lead to reductions in greenhouse gas (GHG) emissions. *Moving Cooler* analyzes and assesses the effectiveness and costs of almost 50 transportation strategies for reducing GHG emissions, as well as evaluates combinations of those strategies. The findings of this study can help decision makers coordinate and shape effective approaches to reducing GHG emissions at all levels - national, regional, and local - while also meeting broader transportation objectives." --Book Jacket.

As online distractions increasingly colonize our time, why has productivity become such a vital demonstration of personal and professional competence? When corporate profits are soaring but worker salaries remain stagnant, how does technology exacerbate the demand for ever greater productivity? In

*Counterproductive* Melissa Gregg explores how productivity emerged as a way of thinking about job performance at the turn of the last century and why it remains prominent in the different work worlds of today. Examining historical and archival material alongside popular self-help genres—from housekeeping manuals to bootstrapping business gurus, and the growing interest in productivity and mindfulness software—Gregg shows how a focus on productivity isolates workers from one another and erases their collective efforts to define work limits. Questioning our faith in productivity as the ultimate measure of success, Gregg's novel analysis conveys the futility, pointlessness, and danger of seeking time management as a salve for the always-on workplace.

Holy hot flashes! This blue-eyed dream in a pair of Wranglers is the best-looking cowboy I've ever seen. Thankfully, I'm immune

to his charms. After nearly 25 years as a trophy wife, my cheating ex dumped me for a younger woman. Now I'm starting over in a new place with a car, a piddly amount of money in the bank, and an exotic cat. Oh, and a ten-foot pole to keep between me and any man, even the good-looking, boot-wearing Texan who swoops in to help me. Yes, he makes me remember what it's like to feel something. But my heart is too brittle for romance. Every sassy comment I fling his way, he serves right back until I'm not sure if we're arguing or flirting. With him, I feel more alive than I have in years, but starting over means standing on my own two feet, not being swept off them.
