of Witches is the first in the must-read ALL SOULS trilogy. It begins with absence and desire. It begins with blood and fear. It begins with a discovery of witches. Fall under the spell of Diana and Matthew in the stunning first volume of the No.1 internationally bestselling ALL SOULS trilogy. A world of witches, daemons and vampires. A manuscript which holds the secrets of their past and the key to their future. Diana and Matthew - the forbidden love at the heart of it.

When historian Diana Bishop opens an alchemical manuscript in the Bodleian Library, it's an unwelcome intrusion of magic into her carefully ordered life. Though Diana is a witch of impeccable lineage, the violent death of her parents while she was still a child convinced her that human fear is more potent than any witchcraft. Now Diana has unwittingly exposed herself to a world she's kept at bay for years; one of powerful witches, creative, destructive

daemons and long-lived vampires. Sensing the significance of Diana's discovery, the creatures gather in Oxford, among them the enigmatic Matthew Clairmont, a vampire geneticist. Diana is inexplicably drawn to Matthew and, in a shadowy world of half-truths and old enmities, ties herself to him without fully understanding the ancient line they are crossing. As they begin to unlock the secrets of the manuscript and their feelings for each other deepen, so the fragile

 Finnikin was only a child during the five days of the unspeakable, when the royal family of Lumatere were brutally murdered, and an imposter seized the throne. Now a curse

binds all who remain inside Lumatere's walls, and those who escaped roam the surrounding lands as exiles, persecuted and despairing, dying by the thousands in fever camps. In a narrative crackling with the tension of an imminent storm, Finnikin, now on the cusp of manhood, is compelled to join forces with an arrogant and enigmatic young novice named Evanjalin, who claims that her dark dreams will lead the exiles to a surviving royal child and a way to

pierce the cursed barrier and regain the land of Lumatere. But Evanjalin's unpredictable behavior suggests that she is not what she seems -- and the startling truth will test Finnikin's faith not only in her, but in all he knows to be true about himself and his destiny.

A Conversation with Deborah Harkness How did you become interested in the intersection of alchemy,

magic, and science? Historically, what do you see as the relationship between science and religion or mysticism? In college, I had a wonderful professor who taught a class on these subjects. To kick off the class, he asked us, 'How do you know what you think you know?' I've spent the last quarter century trying to answer that question. Because the world is a mysterious place and our relationship to it is not always clear, people have often turned to science, faith, and magic for

answers. They help people find responses to the questions of, who am I and why am I here? Diana is an appealing heroine, determined, accomplished, and yet aware of her own weaknesses. In what ways, if any, does Diana reflect your own experience or personality? There are some similarities - Diana is also a historian of science, also interested in the history of alchemy, and shares some of my passions (including television cooking programs, tea,

and rowing). Really, all the characters have some element of me in them. I think that's how authors create imaginary people who nevertheless feel real. The rest of Diana's character comes from a combination of qualities I admire in others, wish fulfilment, and my completion of the following statement: 'Wouldn't it be great if a heroine in a book was . . .  From the iconic and bestselling author of *The Mummy* and *The Vampire Chronicles*, a mesmerizing, glamorous new tale of ancient feuds and modern passions. Ramses the Great, former pharaoh of Egypt, is reawakened by the elixir of life in Edwardian England. Now immortal with his bride-to-be, he is swept up in a fierce and deadly battle of wills and psyches against the once-great Queen Cleopatra.

Ramses has reawakened Cleopatra with the same perilous elixir whose unworldly force brings the dead back to life. But as these ancient rulers defy one another in their quest to understand the powers of the strange elixir, they are haunted by a mysterious presence even older and more powerful than they, a figure drawn forth from the mists of history who possesses spectacular magical potions and tonics eight millennia old. This is a figure who ruled over an ancient kingdom

stretching from the once-fertile earth of the Sahara to the far corners of the world, a queen with a supreme knowledge of the deepest origins of the elixir of life. She may be the only one who can make known to Ramses and Cleopatra the key to their immortality—and the secrets of the miraculous, unknowable, endless expanse of the universe.

Follow an epic story of the Viking Age that traces the historical trail of an ancient piece of jewelry

found in a Viking grave in England to its origins thousands of miles east in India. An acclaimed bioarchaeologist, Catrine Jarman has used cutting-edge forensic techniques to spark her investigation into the history of the Vikings who came to rest in British soil. By examining teeth that are now over one thousand years old, she can determine childhood diet—and thereby where a person was likely born. With radiocarbon dating, she can ascertain a death-date down to the range of

a few years. And her research offers enlightening new visions of the roles of women and children in Viking culture. Three years ago, a Carnelian bead came into her temporary possession. River Kings sees her trace the path of this ancient piece of jewelry back to eighth-century Baghdad and India, discovering along the way that the Vikings' route was far more varied than we might think—that with them came people from the Middle East, not just Scandinavia, and that the

reason for this unexpected integration between the Eastern and Western worlds may well have been a slave trade running through the Silk Road, all the way to Britain. Told as a riveting history of the Vikings and the methods we use to understand them, this is a major reassessment of the fierce, often-mythologized voyagers of the North—and of the global medieval world as we know it.

*Slammerkin* Penguin

In this sparkling collection of nineteen stories, the

bestselling author of *Slammerkin* returns to contemporary affairs, exposing the private dilemmas that result from some of our most public controversies. A man finds God and finally wants to father a child—only his wife is now forty-two years old. A coach's son discovers his sexuality on the football field. A roommate's bizarre secret liberates a repressed young woman. From the unforeseen consequences of a polite social lie to the turmoil caused by the hair on a woman's chin,

Donoghue dramatizes the seemingly small acts upon which our lives often turn. Many of these stories involve animals and what they mean to us, or babies and whether to have them; some replay biblical plots in modern contexts. With characters old, young, straight, gay, and simply confused, Donoghue dazzles with her range and her ability to touch lightly but delve deeply into the human condition.

Speculative fiction is the literature of questions, of challenges and imagination, and what better to question than the ways in which gender and sexuality have been rigidly defined, partitioned off, put in little boxes? These seventeen stories

explore the ways in which identity can go beyond binary from space colonies to small college towns, from angels to androids, and from a magical past to other worlds entirely, the authors in this collection have brought to life wonderful tales starring people who proudly define (and redefine) their own genders, sexualities, identities, and so much else in between.

The wondrous Aimee Bender conjures the lush and moving story of a girl whose magical gift is really a devastating curse. **A Merciful Fate** Penguin  
The #1 New York Times–bestselling author of *A Discovery of Witches* examines the real-life history of the scientific community of Elizabethan London.

Travel to the streets, shops, back alleys, and gardens of Elizabethan London, where a boisterous and diverse group of men and women shared a keen interest in the study of nature. These assorted merchants, gardeners, barber-surgeons, midwives, instrument makers, mathematics teachers, engineers, alchemists, and other experimenters formed a patchwork scientific community whose practices set the stage for the Scientific Revolution. While Francis

Bacon has been widely regarded as the father of modern science, scores of his London contemporaries also deserve a share in this distinction. It was their collaborative, yet often contentious, ethos that helped to develop the ideals of modern scientific research. The book examines six particularly fascinating episodes of scientific inquiry and dispute in sixteenth-century London, bringing to life the individuals involved and the challenges they faced.

These men and women experimented and invented, argued and competed, waged wars in the press, and struggled to understand the complexities of the natural world. Together their stories illuminate the blind alleys and surprising twists and turns taken as medieval philosophy gave way to the empirical, experimental culture that became a hallmark of the Scientific Revolution. “Elegant and erudite.” —Anthony Grafton, *American Scientist* “A truly wonderful book,

deeply researched, full of original material, and exhilarating to read.” —John Carey, *Sunday Times* “Widely accessible.” —Ian Archer, *Oxford University* “Vivid, compelling, and panoramic, this revelatory work will force us to revise everything we thought we knew about Renaissance science.” —Adrian Johns, author of *The Nature Book* [The Dream Weavers](#) Penguin The #1 *New York Times*-bestselling third installment of the All

But the real threat to their future has yet to be

revealed, and when it is, the search for Ashmole 782 and its missing pages takes on even more urgency. In the third volume of the All Souls series, Harkness deepens her themes of power and passion, family and caring, past deeds and their present consequences.
