This book offers the tools teachers need to get started with a more thoughtful and compelling approach to teaching history, one that develops literacy and higher-order thinking skills, connects the past to students' lives today, and meets social studies 3C standards and most state standards (grades 6-12). The author provides over 90 primary sources organized into seven thematic units, each structured around an essential question from world history. As students analyze carefully excerpted documents—including speeches by queens and rebels, ancient artifacts, and social media posts—they build an understanding of how diverse historical figures have approached key issues. At the same time, students learn to participate in civic debates and develop their own views on what it means to be a 21st-century citizen of the world. Each unit connects to current events with dynamic classroom activities that make history come alive. In addition to the documents themselves, this teaching manual provides strategies to assess student learning; mini-lectures designed to introduce documents; activities and reproducibles to help students process, display, and integrate their learning; guidance to help teachers create their own units; guidelines for respectful student debate and discussion; and more. Book Features: A timely aid for secondary school teachers tasked with meeting standards and other state-level quality requirements. An approach that promotes student engagement and critical thinking to replace or augment a traditional textbook. Challenges to the "master narrative" of world history from figures like Queen Nzinga and Huda Sha'arawi, as well as traditionally recognized historical figures such as Pericles and Napoleon. Essential questions to help students explore seven of the most important recurring themes in world history. Role-plays and debates to promote interaction among students. Printable copies of the documents included in the book can be downloaded at [tcpress.com](http://tcpress.com).

True or false? In selling high-value products or services: 'closing' increases your chance of success; it is essential to describe the benefits of your product or service to the customer; objection handling is an important skill; open questions are more effective than closed questions. Using the Document-Based Questions Technique for Literature: Ray Bradbury's Fahrenheit 451 takes a new look at a classic you teach every year. Primary source documents related to the theme and subject of Fahrenheit 451 are arranged under an overarching unit question, followed by questions that help a student make connections between literature and their own experiences. Writing and discussion prompts encourage analysis and synthesis. Writing prompts can be used for each document but also are building blocks to a longer, final essay. Includes an author biography, historical context, a synopsis of the novel, and a character chart. The Answer Key includes context and extra information about each document so you can enrich your lesson. Nonfiction, diary entries, poetry, and artwork add historical perspective and create contemporary connections with a class, which encourage: Comprehension and Analysis: Students relate varied genres to the literature, therefore deepening their knowledge of the subject and theme. Reading: Timely and relevant themes engage student interest. Integration of Knowledge and Ideas: Evaluation activities involve students in analysis of subject and theme. Engagement: Analytical and creative research and activities. Writing: Questions and writing prompts, and a final essay synthesizes learning and activities. Application: Individual and group activities allow students to use their knowledge of the novel in new and exciting ways." -- Publisher's website
