An Investigation of Christological Data in the Synoptic Gospels

Excerpt from The Consciousness of Jesus Christ that the evangel was uttered, but, rather, that men should receive Christ and live into his conscious being, as he in the house of his humanity lived into the conscious life of the Father. A too great exhibit of the detail of the earthly walk of Jesus would have defeated the exclusive ends of that which was written that, reading, we might believe, and that, believing, we might be saved. A strictly scientific study of the consciousness of Jesus would fall short of the ends at which we aim. Every thoughtful student of modern-day theological literature has noted the too frequent absence of both the spirit and the letter of subjective inquiry from the methods of criticism. The critics have contented themselves with examining the aspects of the Old and New Testament Scriptures rather than looking deeply into the spirit and purpose of their writers. Stress is laid upon historical accidents, textual peculiarities and difficulties, rather than upon the tremendous facts symbolized by, and latent in, the writings, whose peculiarities and difficulties are. The Rebirth of Religion Lulu.com

The scientific world appears highly evolved. But in the absence of some vital facts and Truth, the very Purpose of Science is being defeated. The world is endangered, physically, and spiritually. Physically we see energy in the environment peaking and falling violently bringing huge destructions and upsetting the climatic cycles. We see ecologies and the biosphere collapsing. In the spiritual realm, in the last century, the world experienced an awakening. This has empowered religions and they are emerging as a great threat. Religious fanatics in the absence of Truth of oneness are taking control. In ignorance, they are pushing society into commotion and a possible Great War where all weapons of mass destruction would come into play. Jesus Christ and the Spirit of God that He released is at the center of the New Spiritual Awakening. Religious/spiritual institutions are very powerful. Unless they are illuminated with Truth, the Earth and Humanity are doomed. There is a necessity to discover Calvary as a Science beyond Religions, such that humanity as a whole comes out of the bondage to religions and know Life or God Force within and know their Oneness. Classical science assumed the universe is material and built a machine view. It kept aside God. There was no place for life. Max Planck and Einstein, called attention to the role of the mind and thus brought life into science. Since then the world has shifted to visualize the universe as a living one. Physicists today even tell us that the universe could be a giant mind. Research on consciousness in the modern west is mind centered and is aimed at developing intelligent supercomputers. Consciousness in the spiritual east is understood as a base field that creates and sustains the material world. Here the mind is not given importance. However, how creation happens is not explained. Creation according to science comes from Big Bang from the black hole from a Seed Atom and Particle. A black hole is known

to destroy space-time, matter, and even energy, leaving the question of what banged at Big Bang? Time and death are a throne in the flesh of both scientists and spiritualists. Explaining the conquering of time and death and eternal existence in simplicity and sensibly has become Inevitable for both scientists and spiritualists. Both seem to fail. Life is known to be a conscious and intelligent system. It has parallel worlds [Male and female] and it has mechanisms by which it conquers time and death. Here the dominant male conceives in the recessive female to develop a New Physical Body and emerges to start a New Time Cycle. The east visualizes Universe as a Living Being [Lord Shiva] in whom both Masculine and feminine exist as one. He is understood as Lord of Meditation and source of Knowledge of Rishis. One can find many parallels between Lord Shiva and Jesus Christ. India has a Unique and profound knowledge of Life and Nature. The God of the East seems to be incarnated as God of the West [Jesus Christ] and is striving to bring back the memory of the lost knowledge. But some forces are resisting this leading the world into the destructive path. The Spirit of God or Creator that Jesus released is leading humanity into New Life and the illumination of his Mind such that we humans gain the lost Knowledge and Wisdom and emerge from darkness to light, from death to life. A Divine Plan is unfolding from Calvary for the Restoration of we humans back into the Golden Age. Calvary is a science of Conscious Creation. It is well in line with the First and Second law of Energy. The Physical reality remains largely the same but the Spiritual Backbone of the Universe shrinks to conceive and manifest in the physical as a UNIQUE PERSON [Jesus]. As he sacrifices His, Life, New Template is exposed into a creative state with free will to all souls- What Banged at Big Bang is the Consciousness and Intelligence of the Creator. We are Called to Transform and Translate into it.

We live in a world characterized by intolerance, war, environmental degradation and economic collapse. In contrast, might it be possible to build a society in which tolerance, love and peace are the abiding principles? In this positive and inspiring book Danielle van Dijk shows how, beginning with our personal development, we can contribute to such a new, transformed world. She describes how we can develop a universal spiritual consciousness - what she refers to as 'Christ Consciousness'. Van Dijk emphasizes that the Christian mysteries took place on the physical plane, and distinguishes with great clarity between Jesus as a human being, the incarnation of Christ on earth, and the cosmic Christ. She builds bridges between the spiritual research of Rudolf Steiner, the Nag Hammadi writings and the gospels of Mary Magdalene and Judas, culminating in a comprehensive and wide-ranging picture of Christ. By gaining insight into the nature of Christ's being, and undertaking practical exercises described here, each of us can achieve the new Christ Consciousness. In ancient times, selected individuals underwent rites of initiation within secret mystery schools. Disclosing the knowledge obtained there was punishable by death. In our time, however, the spiritual mysteries have become open and available to all. Initiation, says the author, involves 'walking the inner path to all-embracing love, which is known in gnostic and esoteric lore as Christ, the highest divine Being', leading to 'a sublime cosmic-orientated consciousness, which comes into existence when the higher self wholly exists within the individual human being.

The Self-interpretation of Jesus Christ Hardpress Publishing

The self-consciousness and human knowledge of Christ is a contemporary christological issue which seeks to understand the awareness that the God-man, Jesus Christ, possessed of himself during his life on earth. The present question primarily concerns itself with exploring how the Son knows that he is the Son in his human mind. Traditionally this question has been asked and answered that, through the beatific vision, the Son knew himself as divine in his human mind. However, recent theories advanced by scholars seem to preclude any notion of beatific knowledge in the Incarnate Son. This book explores the perspectives of three

main authors, Jacques Maritain, Karl Rahner, and Thomas Weinandy, in relation to the present question, and attempts to provide an answer for how the Incarnate Son apprehended his divine identity through his human operations. Considered also is the scope of Christ's human knowledge with regard to two specific objects of knowledge. These concern whether the Son as man had an awareness of those for whom he gave his life (Gal 2:20) and whether the Son was really ignorant of the eschatological final "day and hour" (Mark 13:32; Matt 24:36).

Jesus still exists and is and has always been available to those who are open to him. In this channeled book, Jesus speaks to us from another dimension to awaken Christ Consciousness within us. Christ Consciousness refers to enlightenment or the realization of our oneness with all and our inherent divinity, exemplified by Jesus Christ. Jesus lived what he taught, and he taught from a higher consciousness, one free of ego. Jesus was an example of what we all can be, a model of what is possible for every human being, and the messages in this book show us how we can become more Christ-like and live as he did. These messages are also intended to give you the experience of having a relationship with Jesus, as he speaks to you as if you were sitting in his presence. The channeled messages from Jesus, which this book is based on, were part of weekly online video meetings, where Gina Lake and her husband, who is also a nondual spiritual teacher, give what they call Christ Consciousness energy transmissions. The channeled messages from Jesus were given before the transmission to prepare, teach, and inspire those who are there to receive the transmission. Many report feeling a transmission come through these channeled messages as well.

How Did Jesus Know He Was God? NKBs Publishing, India

Yeshua is the real name of Jesus... so what does Yeshua mean? We call Yeshua Jesus due to Greek translations and an replacement of Y with J. Yeshua is the original Hebrew name of Jesus Christ who originally taught that mystic christianity is the way to Christ Consciousness Yeshua is the more common spelling of Yehoshuah which means God is Salvation. Aramaic was the language spoken by the original Jews and Jesus the Christ was a title meaning the anointed. More importantly, Jesus taught that Christ Consciousness was a mystic path to Truth attainable by all when he stated "The Kingdom Of God Is Within You " This book, inspired by William Walker Atkinson, begs the question: "Will the REAL Jesus Please Stand Up?" Most know Jesus Christ's true name is Yeshua and no historical figure has been more studied, scrutinized and examined. Yet most of what we have learned has been told strictly through the written works of the Bible. Many Christians today take this book to be the written word of God. However, anyone who has truly studied history and the Bible know that much has been altered and misinterpreted over time through language translations and the intentional "revisions" of church priests, Caesars and councilmen with less than best intentions. This book about Jesus is an effort to tell the most accurate depiction possible from an eastern mystic point of view. Unfortunately, the Orthodox church has attempted to make sense of and elaborate on metaphysical matters they hardly understood. Some call this occultism, gnosticism or secret esoteric doctrine but the yogis state this is ancient wisdom that has always been available to the sincere Truth Seeker This work

was written in an honest effort to expound on the mystical interpretation of Jesus' teachings. To remain as authentic as possible we've made an effort to present Jesus in a way that is most likely accurate to the culture and climate of his times. Firstly, we've decided to address Jesus by his Aramaic birth name of Yesoshuah in which the more common alternative spelling is Yeshua. Yeshua of course means "God is Salvation." Yeshua known as the Son of God proclaimed ""not to throw pearls before swine"" because those that don't understand and appreciate the True meaning will merely "trample" on the message. He often spoke in parable and this presentation will seek to shine the Light on the Eternal Truth of man's spiritual Being ""Many rivers... One Ocean; many branches... One Tree; many paths... One Destination; many stories... One Truth "" 1 S.O.U.L. Publishing"

The Self-consciousness of Jesus Independently Published

The Book of Consciousness by Dr. Bara H. Loveland Have you ever wondered what Consciousness is, or the mind, the unconscious or Archetypes and Symbols – how they work and how to define these? Without arriving at the reach of Consciousness, there are numerous books on "consciousness," there are conferences held, and groups searching for "consciousness," with dictionaries attempting to define it. Why have they not found the ultimate definition of Consciousness, to this day of the publication of The Book of Consciousness, in January 2011? Could Bara's new book, The Book of Consciousness, hold the answer? Can it deliver the ultimate in Consciousness? There are many other questions, which science has not positively answered yet. Why is it that our "brain" (cerebrum), seat of the mind, has to be calmed from 40+ Hertz to 8 Hertz or less (literally put to sleep), in order to reach highest states of awareness, although the cerebrum is supposed to be the seat of the world's highest intelligence? Why is this "seat of highest intelligence" polluting the earth to the brink of dying of life? Why is the unconscious called unconscious, when it is able to construct meaningful dreams; and is there a difference between an Archetype and a Symbol, appearing in dreams and myths? Could a neurosis not be a disease? And what is it the mind really knows? Profound contemplation of Consciousness must lead to further questions about the origins of Archetypes and Symbols, about wisdom and similarities of ancient Stone Age Symbols, East Indian and Egyptian scriptures, Runes, Mayan glyphs and biblical

Symbols, or world religions in general. One may wonder, why an Egyptian god is frequently named in Christian churches, and is mentioned in both, the Old and the New Testaments. Is God "He," and could "He" exist? Could there be a different world behind our visible one, and could we have "Bio*Modulators" to sense the other world? What can we learn from a Germanic "king?" Is it possible that we have more than five senses and how many diseases could naturally exist? Can the DNA communicate, and how many laws exist in the universe? What is the meaning of certain Bible verses, and what could have been the message, Jesus gave the world on the cross? Is New Age wisdom contained in the Bible, and could it be that common science limits itself, when excluding miracles it could perform with ease, protecting the animals from harm? Are there more levels of logic than one? How could we realize or activate them? What is the role, our belief plays in our life and in science? The Book of Consciousness begins where common science ends. Be surprised by the innovative answers, with some published about 30 years ago by this author! Be captivated by the author's authentic, new style; by the insights, humor and vivid experiences, enjoy the 40 figures and tables, as well as exercises, to reach altered states of awareness—naturally and at will. May The Book of Consciousness raise into Oneness the conscious of all those who read its 640 pages; may they be the "igniters," inspiring divine Oneness and Love in the perception of all! A Story of Enlightenment O Books

Why are we born? For what purpose are we here? The longer we remain unaware of what is taking place within us of what drives us and what can liberate us from the bonds of egocentric behavior the longer we allow what the Buddha called the sorrow of life to hold sway. The sorrow of life is the sum and consequence of our total identification with the world that is created by self. The word Consciousness means something more than what the mind of self thinks, imagines, or conceives. Awareness in Pure Consciousness is an awareness that is other than self and beyond thought. Contrary to traditional thinking, the so-called unseen, unknown world is nothing more than Consciousness of which we are unaware. Unawareness in Consciousness has been evolving into Awareness in Consciousness since before time began. The author of this work comprehensively sets forth a meaning of ancient scripture that

likely has not been advanced to you before. He demystifies ancient legends and myths so the essential truth of ancient teachings shines through. Using ancient scripture as a guide, he insightfully explores a growing conscious awareness that has been emerging within mankind over the last few thousand years. A must read for anyone looking to discover the deeper meaning of ancient scripture beyond a literal interpretation of the words.

Crystal Clear Christ Consciousness The Consciousness of Jesus
The Consciousness of Christ
Christianity is in crisis in the West. The Inkling friend of C.S. Lewis and J.R.R. Tolkien, Owen Barfield, analysed why. He developed an

account of our spiritual predicament that is radical and illuminating. Barfield realized that the human experience of life shifts fundamentally over periods of cultural time. Our perception of nature, the cosmos and the divine changes dramatically across history. Mark Vernon uses this startling insight to tell the inner story of 3000 years of Christianity, beginning from the earliest Biblical times. Drawing, too, on the latest scholarship and spiritual questions of our day, he presents a gripping account of how Christianity constellated a new perception of what it is to be human. For 1500 years, this sense of things informed many lives, though it fell into crisis with the Reformation, scientific revolution and Enlightenment. But the story does not stop there. Barfield realised that there is meaning in the disenchantment and alienation experienced by many people today. It is part of a process that is remaking our sense of participation in the life of nature, the cosmos and the divine. It's a new stage in the evolution of human consciousness.
