SEALs Tor Books

By 1979, we knew all that we know now about the science of climate change - what was happening, why it was happening, and how to stop it. Over the next ten years, we had the very real opportunity to stop it. Obviously, we failed. Nathaniel Rich's groundbreaking account of that failure - and how tantalizingly close we came to signing binding treaties that would have saved us all before the fossil fuels industry and politicians committed to anti-scientific denialism - is already a journalistic blockbuster, a full issue of the New York Times Magazine that has earned favorable comparisons to Rachel Carson's Silent Spring and John

Hersey's Hiroshima. Rich has become an instant, in-demand expert and speaker. A major movie deal is already in place. It is the story, perhaps, that can shift the conversation. In the book *Losing Earth*, Rich is able to provide more of the context for what did - and didn't - happen in the 1980s and, more important, is able to carry the story fully into the present day and wrestle with what those past failures mean for us in 2019. It is not just an agonizing revelation of historical missed opportunities, but a clear-eyed and eloquent assessment of how we got to now, and what we can and must do before it's truly too late.

Starship Victory is on its loneliest mission yet. Captain Maddox and his crew are thousands of light-years from Earth, searching for the dreaded Swarm Imperium. But there are androids among them seeking to use the starship for hidden purposes. Maddox and the crew are on their own, facing perils inside the ship and

terrifying alien dangers outside in one of the remotest regions of the Orion Arm. Then they stumble upon the darkest secret of all. Unless the A.I. Galyan, Meta, Sergeant Riker and the others can help their beleaguered captain, Victory is doomed and Earth will never learn of the terrible threat gathering in the stellar darkness. THE LOST PATROL is the fifth book in the LOST STARSHIP SERIES.

The High Crusade Crown

-The New York Times bestselling author of The Lost Fleet series returns to the -strong saga-* of a rebellion against a totalitarian regime, and the determination of two people to create a better future in the farthest reaches of the colonized galaxy... The Syndicate Worlds continues to splinter as more star systems pledge allegiance to President Gwen Icen, General Artur Drakon, and the new government they're establishing at Midway. But the toxic legacy of Syndicate rule undermines their efforts as the rebels encounter difficulty trusting one another and believing their new leaders' promises of freedom from tyranny. Before Icen and Drakon can put their house in order, they must deal with another threat. An enigma warship has appeared and vanished near a Syndic colony. If the aliens are capable of jumping into other human-occupied star systems, then billions of people could be vulnerable to a hostile invasion fleet anywhere it chooses to strike. But an even greater liability lies with Icen and Drakon as a once-trusted adviser turned saboteur plans revenge.---

Earth needs a miracle. Out of the Beyond invade the New Men,

stronger, faster and smarter than the old. Star Watch sends a massed battle fleet to stop them. It's a disaster. Admiral Fletcher barely escapes annihilation by heading at sub-light speed for a nearby star system. His battered ships are running out of food, fuel and missiles. He knows the New Men will use jump gates, waiting for him six months from now at his destination. Star Watch Command frantically searches for a way to rescue the vessels. Earth has an ancient alien starship in the Oort cloud, with a suspicious AI refusing to cooperate with the scientists. The vessel has powerful weapons-if anyone could figure out how to make them work after ten thousand years. Star Watch summons Captain Maddox, an unorthodox Intelligence officer who makes things happen. He is given command of Victory and told to fix the ancient weapons, rescue Fletcher's ships and help them battle home again.

Windows On A Lost World While Captain Kirk and a landing party from the Starship Enterprise™ explore the ruins of an ancient civilization on the uninhabited planet Careta IV, they discover strange devices that appear to be windows. But the mysterious windows prove to be more than they seem when Kirk, Chekov, and two security guards enter them and disappear. Suddenly, Kirk and his team find themselves trapped in a strange alien environment and must fight with all their strength to survive and keep their sanity. Now Spock must locate his missing comrades and solve the window's ancient mysteries before his captain and crewmates are lost forever....

Inside the World of an Epic Adventure Createspace Independent Publishing Platform

Humanity put all its fading hopes in New Eden, a pristine star system 230 light-years from the ravaged Earth. But upon arrival, the would-be colonists encountered the Kresh--a diabolical alien race who quickly captured the human starship and tortured its inhabitants in hopes of learning the coordinates of Earth. Street-smart Cyrus Gant managed to escape, crashing to the surface of a nearby moon terraformed by the Kresh and inhabited by primitive humans. Now Cyrus pursues a desperate hope bound up in a single boy, a prophesized psionic named Klane--already in the clutches of the Kresh. Soon Cyrus finds himself torn between tracking down this so-called savior and escaping back into space before it's too late. Yet as he gathers allies and firepower, he's desperate to find a way back to Earth and warn them of this alien menace...only to discover an even greater danger to the future existence of the human race. The electric interstellar action that began in *Alien Honor* continues in *Alien Shores*.

Ender's Game Macmillan

Ten thousand years ago, a single alien super-ship survived a desperate battle. The vessel's dying crew set the AI on automatic to defend the smashed rubble of their planet. Legend has it the faithful ship continues to patrol the empty battlefield, obeying its last order throughout the lonely centuries. In the here and now, Earth needs a miracle. Out of the Beyond invade the New Men, stronger, faster and smarter than the old. Their superior warships and advanced technology destroy every fleet sent to stop them. Their spies have infiltrated the government and traitors plague Earth's military. Captain Maddox of Star Watch Intelligence wonders if the ancient legend could be true. Would such an old starship be able to face the technology of the New Men? On the

run from killers, Maddox searches for a group of talented misfits. He seeks Keith Maker, a drunken ex-strikefighter ace, Doctor Dana Rich the clone thief stuck on a prison planet and Lieutenant Valerie Noonan, the only person to have faced the New Men in battle and survived to tell about it. Maddox has to find a place hidden in the Beyond and bring back a ship no one can enter. If he fails, the New Men will replace the old. If he succeeds, humanity might just have a fighting chance...

Alien Wars DIANE Publishing

We barely recovered from the first Swarm invasion. Now, the bugs have become methodical, sending science fleets to study us. Back home, the Hive Masters are gathering hundreds of thousands of starships to hit us with an avalanche invasion. This time, not even exploding stars will stop them. The egocentric but brilliant Professor Ludendorff, who has a bitter grudge against Captain Maddox, claims he has a plan to outmaneuver the Swarm. But he's not going to tell Star Watch unless Brigadier Mary O'Hara--one of Maddox's closest friends--comes alone to listen in person. In desperation and knowing that Methuselah Man Ludendorff often has fantastic plans, O'Hara goes, and thus begins a chain-reaction of events that will embroil Maddox and the crew of *Victory* in a harrowing mission into the Great Beyond. They must risk everything at a Builder star gate if they hope to stave off the annihilating Swarm fleets from reaching Human Space and killing everyone. *THE LOST STAR GATE* is the ninth and longest book, so far, in the *LOST STARSHIP SERIES*.

Recovery Simon and Schuster

Last voyage, Captain Maddox entered a distant star system with a Swarm fleet. The sheer numbers were staggering, a 100-1

advantage against all human spacecraft. If the highly aggressive, racist insects gained hyper-spatial tube technology-allowing them to cross a thousand light-years in seconds-it would mean Armageddon for Earth. Star Watch desperately needs something powerful to offset the annihilating Swarm numbers. As if on cue, Professor Ludendorff declares he has discovered the whereabouts of ancient Builder technology, a tech so potent it could defeat the Swarm. Star Watch takes the bait, ordering Captain Maddox to find the lost planet holding the ancient technology. Ludendorff has a plan involving androids to lure his arch rival-Methuselah Man Strand-to his doom. The crew of Starship Victory knows nothing of this and thus blindly enters a web of intrigue and danger. The captain will need the AI Galyan, Valerie and Riker like never before. Humanity's hope against the coming Swarm holocaust rests on the outcome. THE LOST PLANET is the sixth book in the LOST STARSHIP SERIES.

A Military Sci-Fi Series Authortoriharris.com

Androids used to mingle among us, pretending to be human. Then an alien puppet-master altered their programming. Unknown to us, androids began leaving human society, burning their clothes and peeling off their skin to reveal the chrome-colored bodies underneath. They gathered in a system where a star had exploded, blowing away the atmosphere of a Jupiter-like planet. The supernova had hurled heavy metals against the remaining core. The androids are mining supermetals that can turn ordinary ship weapons and shields into invincible armaments. The altered programming includes human genocide, which will start with a murderous attack on Earth. Luckily, Captain Maddox finds the enemy system. But during a space battle,

something happens to hurl Victory thousands of light-years away into the Scutum-Centaurus Spiral Arm. The crippled starship will take years to reach home again. Long before that, Earth will be a radioactive ruin. Now begins a desperate journey in hostile space that will stretch everyone as Maddox strains to reach the Lord High Admiral in time with knowledge about the coming android attack. THE LOST SUPERNOVA is the tenth book in the LOST STARSHIP SERIES.

The Lost Artifact 47North

In a futuristic military adventure a recruit goes through the roughest boot camp in the universe and into battle with the Terran Mobile Infantry in what historians would come to call the First Interstellar War

Losing Earth Simon and Schuster

It's the year 2277. For fifty years, Earth has received mysterious data transmissions from random locations in deep space. The streams include advanced technology, allowing Humans to achieve faster-than-light travel virtually overnight. As we prepare to take our first, tentative steps into interstellar space, we know almost nothing about our alien benefactors, and their motivations remain unexplained. While completing their shakedown cruise, Captain Tom Prescott and the crew of the first Terran Fleet Command starship, TFS Ingenuity, stumble into a first contact situation. They learn that Earth is not the first civilization granted access to the stars before their time - and how this Faustian gift has inevitably led to centuries of interstellar war. Humanity's existence hangs in the balance as a powerful alliance assembles a preemptive military strike, believing it to be their only option to protect themselves ... from us. Prescott and his small, initially

unarmed starship must serve as our only line of defense. Ingenuity is our only hope. _____ TFS INGENUITY is the first book of the Terran Fleet Command Saga by author Tori Harris. The story is typically associated with the military science fiction, space exploration science fiction, colonization, first contact, genetic engineering, space opera technothriller, galactic empire, or alien invasion categories.

The Terran Fleet Command Saga - Picador

An epic account of the Navy SEALs of Alpha platoon, the startling accusations against their chief, Eddie Gallagher, and the courtroom battle that exposed the dark underbelly of America's special forces—from a Pulitzer Prize-winning reporter "Meticulously assembled and brilliantly written . . . [a] remarkable and engrossing book."—The New York Times By official accounts, the Navy SEALs of Alpha platoon returned as heroes after their 2017 deployment to Mosul, following a vicious, bloody, and successful campaign to drive ISIS from the city. But within the platoon a different war raged. Even as Alpha's chief, Eddie Gallagher, was being honored by the Navy for his leadership, several of his men were preparing to report him for war crimes, alleging that he'd stabbed a prisoner in cold blood and taken lethal sniper shots at unarmed civilians. Many young SEALs regarded Gallagher as the ideal special operations commando. Trained as a sniper, a medic, and an explosives expert, he was considered a battle-tested leader. But in the heat of combat, some in his platoon saw a darker figure—a man who appeared to be coming unhinged after multiple deployments in America's forever wars. Their excitement to work with a tough, experienced chief soon gave way to a grim suspicion that his thirst for blood

seemed to know no bounds and a belief that his unpredictability was as dangerous as the enemy. In riveting detail, Pulitzer Prize-winning New York Times correspondent David Philipps reveals the story of a group of special operators caught in a moral crucible—should they uphold their oath and turn in their chief, or honor the SEALs' unwritten code of silence? It is also a larger story of how the SEAL Teams drifted off course after 9/11, and of the "pirate" subculture that festered within their ranks—a secret brotherhood that, in a time of endless war with few clear victories, made the act of killing itself the paramount goal. The investigation and trial following Alpha's deployment—and Gallagher's ultimate acquittal on the most serious charges—would pit SEAL against SEAL, set the Navy brass on a collision course with President Donald Trump, and turn Gallagher into a political litmus test in a hotly polarized America. A page-turning tale of battle, honor, and betrayal, Alpha is a remarkable exposé of the fault lines fracturing a country that has been at war for a generation and counting.

The Praetorian STARShip : the untold story of the Combat Talon 47North

It's survival of the fittest in a brutal war of extinction! Created in the gene labs as super soldiers, the Highborn decide to replace the obsolete Homo sapiens. They pirate the Doom Stars and capture the Sun Works Ring around Mercury. Now they rain asteroids, orbital fighters and nine-foot tall drop troops onto Earth in a relentless tide of conquest. Marten Kluge is on the receiving end. Hounded by Thought Police, he lives like an ant in a kilometer-deep city. The invasion frees him from a re-education camp but lands him in the military, fighting for the wrong side.

STAR SOLDIER is the story of techno hell in a merciless war, with too many surprises for any grunt's sanity. It is written by bestselling author Vaughn Heppner.

Star Watch defeated the Swarm Invasion Fleet, but at a terrible cost in destroyed star systems, smashed battleships and billions of dead. In the aftermath of the costly victory, chaos threatens as worlds leave the Commonwealth of Planets, face mass starvation or succumb to increased piracy. The war against the Swarm Imperium has just begun. Humanity needs unity or each planet will fall alone. Brigadier O'Hara of Star Watch Intelligence stumbles onto a secret conspiracy. Someone is trying to destroy the Commonwealth from within, and they have an alien artifact of incredible power. O'Hara summons Captain Maddox. Although she fears to lose him, she knows that Maddox and his crew have the best chance of finding the hidden enemy. If the captain fails, the Commonwealth will be powerless to stop its destruction. What O'Hara doesn't know—it would probably break her heart if she did—is that she has just sent Maddox into the most harrowing battle of his career. THE LOST ARTIFACT is the eighth book in the LOST STARSHIP SERIES.

Alpha Simon and Schuster

Admiral John "Black Jack" Geary was revived from cryogenic sleep to lead the Alliance against the Syndicate Worlds. But his superiors question his loyalty to the regime. Now in command of the First Fleet, he is tasked with exploring the frontier beyond Syndic space, a mission he fears deliberately puts the fleet—and himself—in harm's way... An encounter with the alien enigmas confirms Geary's fears. Attacked without warning, he orders the

fleet to jump star systems—only to enter the crosshairs of another hostile alien armada. Ignoring the First Fleet's peaceful communications, this species sends its ships into battle while it guards the exiting jump point with a fortress of incalculable power. Now Geary must find a way to reach the jump point without massive casualties—even though the enigmas could be waiting on the other side...
