Narrative of the Most
Extraordinary and
Distressing Shipwreck
of the Whale-ship
Essex is an account by
first mate Owen Chase
of the Essex, a whale

ship from Nantucket,
Massachusetts, that
was sunk by a sperm
whale in the Pacific
Ocean near South
American in 1820. Of
the twenty-man crew,
only eight survived the
horrific ordeal; some
men were stranded on
an island, all remaining
crew were forced to
eat food tainted by
seawater and drink

their own urine, and finally, when members of the crew started dying, those still alive resorted to cannibalism until they were rescued. Narrative of the Whale-ship Essex inspired Herman Melville to write his enduring classic *Moby-Dick* in 1851; it also inspired the 2015 movie *In the Heart of the Sea*, based on the 2000 best-selling book of the same name. *Stories from the jungle book* Simon and Schuster

Suicide Squad: King Shark (2021-) #2

Harper Collins

Since the beginning of human history Mars has been an alluring dream—the stuff of legends, gods, and mystery. The planet most like ours, it has still been thought impossible to reach, let alone explore and

inhabit. Now with the advent of a revolutionary new plan, all this has changed. Leading space exploration authority Robert Zubrin has crafted a daring new blueprint, Mars Direct, presented here with illustrations, photographs, and engaging anecdotes. The Case for Mars is not a vision for the far future or one that will cost us impossible billions. It explains step-by-step how we can use present-day technology to send humans to Mars within ten years; actually produce fuel and oxygen on the planet's surface with Martian natural resources; how we can build bases and settlements; and how we can one day "terraform" Mars—a process that can alter

the atmosphere of planets and pave the way for sustainable life.

Cry Macho HarperFestival
Now a major motion picture directed by and starring Clint

Eastwood, a riveting novel of an aging rodeo star's last ride. Mike's best years are behind him. There was a time when he was the best rider in the circuit, but a divorce and years of hard living have worn his body down. After an accident, his career comes to an abrupt end, but his boss gives him one last job: he must cross the border into Mexico, kidnap his boss's son, Rafo, from his boss's ex-wife, to be used as leverage in their ongoing divorce. Mike arrives to find the boy has already run away, and his plan is immediately exposed to the local police. When he finds Rafo living on the streets of Mexico city, supporting himself through petty crime and winnings from the occasional

cockfight, Mike convinces the boy to come back to Texas. Still running from the law, the two set out on a journey northward that forges an unlikely friendship and forces both to reckon with the choices they've made in pursuit of being "macho." Originally published in 1976, N. Richard Nash's novel of friendship and the search for identity is now being adapted for the big screen.

X-Men Samuel French, Inc.

Rudyard Kipling's eternal classics, *The Jungle Book* and *The Second Jungle Book* are most loved for the stories of Mowgli, the boy who grew up in a wolf pack. This book brings together all the stories of Mowgli. It begins with Father Wolf rescuing an abandoned

baby boy from the tiger Shere Khan, terror of the jungle. The child grows up among the animals, befriending Bagheera the Panther, Balu the Bear, and making mortal enemies with Shere Khan the Tiger. He is kidnapped by monkeys, exiled by the wolf pack, disowned by humans, till he finally vanquishes Shere Khan and returns to the forest. But the call of his own kind grows stronger, and he eventually finds his own, tenuous place among men and animals. Kipling's creations from the two Jungle Books—human and animal— have remained alive in literature and celluloid for nearly a century. They have mesmerized, entertained and

educated generations of children. In this special Puffin Classics edition, Mowgli comes alive once more, accompanied by illustrations rendered by Gond artist Durga Bai, and an affectionate, heartwarming introduction by that other favourite children's writer, Ruskin Bond. *Sharkey The Bounty Hunter* Harper Collins This new edition has been completely updated and revised along with the addition of several new chapters. Currently, this title remains the best selling university text book on writing short film screenplays. God Loves, Man Kills Marvel Told with P. D. James's trademark suspense, insightful

characterization, and riveting storytelling, *The Children of Men* is a story of a world with no children and no future. The human race has become infertile, and the last generation to be born is now adult. Civilization itself is crumbling as suicide and despair become commonplace. Oxford historian Theodore Faron, apathetic toward a future without a future, spends most of his time reminiscing. Then he is approached by Julian, a bright, attractive woman who wants him to help get her an audience with his cousin, the powerful Warden of England. She and her band of unlikely revolutionaries may just awaken his desire to live . . . and they may also hold the key to survival for the

human race.
