Decisions, Values and Groups, Volume 1 contains the proceedings of the First Interdisciplinary Conference of the Behavioral Sciences Division of the Air Force Office of Scientific Research, held at the University of New Mexico in 1957. The papers explore the roles of decisions, values, and groups in the behavioral sciences and cover topics ranging from the use of mathematical

models in decision making to the contribution of the laboratory to the study of individual differences. Theoretical contributions to small group research are also discussed. This book is comprised of 22 chapters and begins with an overview of the merging of mathematical and statistical techniques with the empirical method in the study of behavior, as well as the place of decisions, values, and groups in behavioral science research. The reader is then introduced to the applications of mathematical models to decision processes, with particular reference to the automation of decision making. The following chapters focus on conceptualizations and designs for research in values and evaluative processes; theoretical aspects of small group research; and psychodynamic patterns of behavior; and special problems in the military. A non-introspective approach to the study of human motivation is described. This volume will be of interest to behavioral scientists and social scientists.

I have taken 30 credits worth of CLEP exams and I've passed them all by using your study guides. I actually purchased one of your study guides and failed my first test. I didn't fail because of your guide though, I failed because I didn't manage my time effectively and I ran short. I looked at your study guide after failing though, and a lot of the information on your study guide was very relevant to what was on the test. So, I tried again with a different test and a different study guide of yours. I passed. This pattern continues for 30 credits. I graduate on June 9th thanks to you guys, so I wanted to say thank you. The guides were worth every penny. Thanks, -John S.****I would like to thank

you for your study guides. I will be graduating in December with two bachelor degrees and CLEP helped me get there quickly. ABOUT THE REVIEW SECTIONS
The reviews in this book will teach you the skills and concepts needed to approach SAT II: French Subject Test questions. We cover sentence structure, grammar, verb conjugation, spelling, and capitalization. Systematic review will help you identify the kinds of errors that often appear in vocabulary-in-context and structure questions. By using the reviews in conjunction with the practice tests, you will be able to sharpen your skills and put yourself in the best possible position to succeed on the SAT II: French Subject Test.

STUDYING FOR THE SAT II: FRENCH SUBJECT TEST
It is vital that you choose the time and place for studying that works best for you. Some students may set aside a certain number of hours every morning, while others may study at night before going to sleep. Only you can determine when and where your study time will be most effective. Be consistent and use your time wisely. Work out a study routine and stick to it! When you take the practice tests, try to make your testing conditions as much like the actual test as possible. Turn your television and

radio off, and sit down at a quiet table free from distraction. Make sure to clock yourself with a timer. As you complete each practice test, score your test and thoroughly review the explanations to the questions you answered incorrectly; however, do not review too much at any one time. Concentrate on one problem area at a time by reviewing the questions and explanations, and by studying the review until you are confident you completely understand the material. Keep track of your scores. By doing so, you will be able to gauge your progress and discover general weaknesses in particular sections. You should carefully study the reviews that address your areas of difficulty; this will strengthen your skills and build your confidence.

TEST-TAKING TIPS
Although you may be unfamiliar with standardized tests such as the SAT II: French Subject Test, there are many ways to acquaint yourself with this type of examination and help alleviate your test-taking anxieties. Here are ways to help you become accustomed to the SAT II: French Subject Test, some of which may apply to other standardized tests as well. Become comfortable with the format of the SAT II: French Subject Test. When you are practicing to take the test, simulate the conditions under which you will be taking the actual test. Stay calm and pace yourself. After simulating the test only a couple of times, you will boost your chances of doing well, and you will be able to sit down for the actual exam much more confidently. Know the directions and format for each section of the test. Familiarizing yourself with the directions and format of the different test sections will not only save you time, but will also ensure that you are familiar enough with the SAT II: French Subject Test to avoid anxiety (and the mistakes caused by being anxious). Work on the easier questions

first. Within each group of questions, the easier ones are usually at the beginning. If you find yourself working too long on one question, make a mark next to it in your test booklet and continue to the next question. After you answer all the questions you can, go back to the ones you have skipped. If you are unsure of an answer, guess. However - if you do guess, guess wisely. Use the process of elimination by going through each answer to a question and eliminating as many of the answer choices as possible. By eliminating two answer choices, you give yourself a fifty-fifty chance of answering correctly, since there will only be two choices left from which to make your guess. Mark your answers in the appropriate spaces on the answer sheet. Each numbered row will contain four ovals corresponding to each answer choice for that question. Fill in the circle that corresponds to your answer darkly, completely, and neatly. You can change your answer, but remember to completely erase your old answer. Any stray lines or unnecessary marks may cause the machine to score your answer incorrectly. When you have finished working on a section, you may want to go back and check to make sure your answers correspond to the correct questions. Marking one answer in the wrong space will throw off the rest of your test, whether it is graded by machine or by hand. You don't have to answer every question. You are not penalized if you do not answer a question. The only penalty you receive is if you answer a question incorrectly. Try to use the guessing strategy, but if you are truly stumped by a question, you do not have to answer it. Work quickly and steadily. You have a limited amount of time to work on each section, so you need to work quickly and steadily. Avoid focusing on one problem for too long. Taking the practice

tests in this book will help you to learn how to budget your time. Before the Test Make sure you know exactly where your test center is well in advance of your test day so you do not get lost on the day of the test. On the night before the test, gather together the materials you will need the next day: - Your admission ticket - Two forms of identification (e.g., driver's license, student identification card, or current alien registration card) - Two No. 2 pencils with erasers - Directions to the test center - A watch, if you wish, but not one that makes noise, as it may disturb other test-takers On the day of the test, you should wake up early (we hope after a decent night's rest) and have a good breakfast. Dress comfortably, so that you are not distracted by being too hot or too cold while taking the test. Also, plan to arrive at the test center early. This will allow you to collect your thoughts and relax before the test, and will also spare you the stress of being late. If you arrive after the test begins, you will not be admitted or receive a refund. During the Test When you arrive at the test center, try to find a seat where you feel you will be comfortable. This report will include your scores, percentile ranks, and interpretive information. When you register for the test, you can also take advantage of two different reporting options: Score Choice and the Writing Sample Copy Service. Score Choice allows you to review your scores before instructing the College Board to send them to the colleges you have chosen. If you decide your scores are too low, you can take the test again. Only you and your high school will know your original scores. The Writing Sample Copy Service provides you with three copies of your graded essay, which you can send to colleges for admissions purposes. Additionally, if you plan to take the test again, a copy of your essay with graders' comments can be invaluable in assessing your strengths and weaknesses.
