In *Bloomsbury CPD Library: Mentoring and Coaching*, Marcella McCarthy draws on her experiences as a school leader to explain different theories of coaching and mentoring, examine research and demonstrate its advantages in various situations, so as to guide you step-by-step through practical methods of coaching and mentoring that can be easily implemented in your own school. There are example scenarios to tackle that will prepare you for a multitude of real-life situations and the easy-to-understand, concise methods of self-evaluation help ensure that mentors track their development and continuously improve their approach. The book provides a set of ready-to-use training plans to help you develop mentoring and coaching across your school and is accompanied by PowerPoint slides and resources available to download online for free. It offers 14 hours of CPD, equating to a cost of just £1.65 per hour of training!

Kevin Harrington, one of the original "sharks" of the TV hit *Shark Tank*, and serial entrepreneur Mark Timm take you on a journey that radically redefines what it means to truly succeed--at work, at home, and in every area of life. On one of the best days of his life as an entrepreneur, Mark Timm found himself sitting in his car at the end of his driveway. In just a minute he would go into the house and greet his wife and children. But as he basked in the success he'd just had, he also had to face a surprising realization: he didn't really want to go home. Mark knew that once he stepped into the happy chaos of his family, the euphoria of the day would evaporate. His work life and his home life might as well have been two different worlds. And at that moment, he acknowledged--as he puts it--that "my businesses were getting my first and my best, while my family got my last and my least." *Mentor to Millions* charts Mark's journey from that pivotal moment to a whole new understanding of how work, life, and relationships can coexist and thrive together. His guide through this journey: his accomplished mentor, Kevin Harrington, one of the original "sharks" from *Shark Tank*, who shares amazing stories and imparts invaluable wisdom about how to win in business and in every area of life. This deeply personal, easy-to-follow book invites you to join Mark and Kevin on the journey. Every page pulls back the curtain on entrepreneurship at the highest level, revealing priceless business lessons--which lead to the biggest lesson of all: combining the best of business, family, and personal life. If you're succeeding in business, struggling, or just starting out, and want your life at home to be what you've always dreamed it can be, this is the lesson you need to learn: the most valuable business you'll ever own, work for, or be a part of isn't the business you go to every day, it's the one you go home to.

When it comes to mentoring, women face more barriers than men. Here's how men can help change that. Increasingly, new employees and junior members of any profession are encouraged--sometimes stridently--to "find a mentor!" Four decades of research reveals that the effects of mentorship can be profound and enduring; strong mentoring relationships have the capacity to transform individuals and entire organizations. But the mentoring landscape is unequal. Evidence consistently shows that women face more barriers in securing mentorships than men, and when they do find a mentor, they may reap a narrow range of both professional and psychological benefits. Athena Rising is a book for men about how to eliminate this problem by mentoring women deliberately and effectively. Traditional notions of mentoring are modeled on male-to-male relationships, yet women often report a desire for mentoring that addresses their interpersonal needs. Women want mentors who not only understand this, but truly honor it. Coauthors W. Brad Johnson and David G. Smith present a straightforward, no-nonsense manual for men working in all types of institutions, organizations, and businesses to become excellent mentors to women, because as women succeed, lean in, and assume leading roles in any organization or work context, the culture will become more egalitarian, effective, and prone to retaining top talent.
