When Gabby Duran is

recruited to babysit
aliens secretly residing
in her hometown, the
unapologetically bold
tween receives an
Intergalactic Babysitter
Orientation Guide from
her school principal,
who also happens to
be an extra-terrestrial.

Though not a by-the-book kind of girl, Gabby refers to this information-packed guide for what she needs to know to successfully babysit kids from another planet, including a dossier of potential clients, a rundown of otherworldly gadget, and tips and tricks for dealing with her unusual charges. As the best babysitter in the galaxy, Gabby even shares a few tricks of her own!

The People's Pharmacy Guide to Home and Herbal Remedies Del Rey

Brave is Pixar's thirteenth feature film, but it marks two big firsts for the award-winning animation studio. It's Pixar's first feature film driven by a female lead and its first set in an ancient

historical period. Against a backdrop of castles, forests, and highlands, Brave follows the fiery Merida as she clashes with the duty of her royal life and embarks on a journey through the rugged landscape of the dark ages of Scotland. At once epic and intimate, the latest Pixar masterpiece weaves a story of magic, danger, and adventure and the fierce bonds of family. Featuring behind-the-scenes interviews with the film's many artists and filmmakers, The Art of Brave showcases the gorgeous concept art that went into the making of this movie, including color scripts, storyboards, character studies, environment art, sculpts, and more. A Foreword by Brenda Chapman and Mark

Andrews, the film's directors, and a preface by Chief Creative Officer John Lasseter shed light on the creation of this landmark film.

 Now celebrating the
 42nd anniversary of
 The Hitchhiker's Guide
 to the Galaxy, soon to

be a Hulu original
 series! "Hitchhiker fans
 rejoice! . . . [Here's]
 more of the same zany
 nonsensical
 mayhem."—The New
 York Times Book
 Review It's easy to get
 disheartened when
 your planet has been
 blown up and the
 woman you love has
 vanished due to a
 misunderstanding
 about space/time.
 However, instead of
 being disheartened,
 Arthur Dent makes the
 terrible mistake of
 starting to enjoy life a
 bit—and immediately
 all hell breaks loose.
 Hell takes a number of
 forms: there's the
 standard Ford Prefect
 version, in the shape of
 an all-new edition of
 The Hitchhiker's Guide
 to the Galaxy, and a
 totally unexpected
 manifestation in the
 form of a teenage girl

who startles Arthur Dent by being his daughter when he didn't even know he had one. Can Arthur save the Earth from total multidimensional obliteration? Can he save the Guide from a hostile alien takeover? Can he save his daughter, Random, from herself? Of course not. He never works out exactly what is going on. Will you? "Douglas Adams is a terrific satirist. . . . He is anything but harmless."—The Washington Post Book World

Come with the Mob Squad on an amazing adventure through the Overworld in this official Minecraft novel! The village of Cornucopia is practically perfect in every way. Plenty of food, cozy homes, and a huge wall to keep everyone safe from the scary world outside. What more could a kid possibly need? Well, a lot, actually. Mal, a fearless girl, needs adventure, and her friends are right there with her: Lenna, a dreamer whose family underestimates her every day. Tok and Chug, brothers who love to build stuff (Tok) and smash stuff (Chug). They're best friends, and in a town whose grown-ups value safety over bravery and fitting in over standing out, they're

the bad apples. But when a mysterious mob sneaks past Cornucopia's defenses, the village is in huge trouble. And nobody knows what to do. Finally faced with the adventure she's always wanted, Mal and her friends defy the rules their elders have always followed and set out beyond the wall for the first time. On their journey across the Overworld, they discover wonders they've never dreamed of and dangers they've never imagined. To save the day, they'll have to prove they're more than bad apples. They're the Mob Squad!

The Art of Monster, Inc. Greg Egan

Once upon a time, science fiction was only in the future. It was the stuff of drive-ins and

cheap double-bills. Then, with the ever-increasing rush of new, society-altering technologies, science fiction pushed its way to the present, and it busted out of the ghetto of science fiction and barged its way into the mainstream. What used to be mere fantasy (trips to the moon? Wristwatch radios? Supercomputers capable of learning?) are now everyday reality. Whether nostalgic for the future or fast-forwarding to the present, *The Sci-Fi Movie Guide: The Universe of Film from Alien to Zardoz* covers the broad and widening range of science-fiction movies. From the trashy to the epic, from the classics to today's

blockbusters, this cinefile's guidebook reviews nearly 1,000 of the biggest, baddest, and brightest from every age and genre of cinematic and TV science fiction. You'll find more than just Star Wars, Star Trek, and Transformers, with reviews on many overlooked and under-appreciated gems and genres, such as ... • Monsters! Pacific Rim, Godzilla, The Thing, Creature from the Black Lagoon • Superheroes: Thor, Iron Man, X-Men, The Amazing Spider-man, Superman • Avant-garde masterpieces: Solaris, 2001, Brazil • and many, many more categories and movies!!

Intergalactic Guide

A different kind of politics for a new kind of society--beyond work, scarcity and capitalism In the twenty-first century, new technologies should liberate us from work. Automation, rather than undermining an economy built on full employment, is instead the path to a world of liberty, luxury and happiness—for everyone.

Technological advance will reduce the value of commodities—food, healthcare and housing—towards zero. Improvements in renewable energies will make fossil fuels a thing of the past.

Asteroids will be mined for essential minerals. Genetic editing and synthetic biology will prolong life, virtually eliminate disease and provide meat without animals. New horizons beckon. In *Fully Automated Luxury Communism*, Aaron Bastani conjures a vision of extraordinary hope, showing how we move to energy abundance, feed a world of 9 billion, overcome work, transcend the limits of biology, and establish meaningful freedom for everyone. Rather than a final destination, such a society merely heralds the real beginning of history. *The Illustrated Hitchhiker's Guide to the Galaxy* Visible Ink Press
Mike and Sully, Buzz and Woody, Lightning

and Mater-relive their thrilling stories and more in this giant-sized graphic novel treasury featuring all of your favorite Disney-Pixar friends. Every classic film from the legendary animation studio is retold here in vibrant comics that jump off the page, drawn by Disney's own master artists. This is the most comprehensive guide ever published, covering all things Masters of the Universe and Princess of Power from 1982 through today! The universe of He-Man and She-Ra is full of

mystery. And thanks to over four thousand individual entries covering characters, beasts, vehicles, locations, weapons and magic, you can learn the secrets of this entire universe! Earthseed Anchor
NEW YORK TIMES BESTSELLER • Bill Bryson, bestselling author of *A Short History of Nearly Everything*, takes us on a head-to-toe tour of the marvel that is the human body—with a new afterword for this edition. Bill Bryson once again proves himself to be an incomparable companion as he guides us through the human body—how it functions, its remarkable ability to heal itself, and (unfortunately) the ways it can fail. Full of

extraordinary facts (your body made a million red blood cells since you started reading this) and irresistible Brysonesque anecdotes, *The Body* will lead you to a deeper understanding of the miracle that is life in general and you in particular. As Bill Bryson writes, “We pass our existence within this wobble of flesh and yet take it almost entirely for granted.” *The Body* will cure that indifference with generous doses of wondrous, compulsively readable facts and information. As addictive as it is comprehensive, this is Bryson at his very best, a must-read owner’s manual for every body. Little Robot Del Rey
The Art of Monsters, Inc. opens the door

into Pixar's colorful archives of concept art and to the endearing story of Monsters, Inc. Since the very first bedtime, children around the world have known that once their parents tuck them into bed and shut off the light, monsters lie waiting behind closet doors, ready to emerge. But what they don't realize is that these monsters scare children because they have to. It's their job. This superb film from Pixar Studios, the people who brought you Toy Story, A Bug's Life, and Toy Story 2, reveals the truth about monsters with the brilliant techniques that have earned them their reputation as a ground-breaking animation studio. This incredible body of artwork was

commissioned from the top artists, illustrators, and animators in the industry and from it the ultimate visual approach of the film was defined. From sketches scribbled on napkins and quickly inked marker drawings, to finished oil paintings and fabulous pastel color scripts, this behind-the-scenes artwork reveals the elaborate creative process behind a blockbuster film.

The Intergalactic Guide Harmony

Now celebrating the 42nd anniversary of The Hitchhiker's Guide to the Galaxy, soon to be a Hulu original series! "Douglas Adams is a terrific satirist."—The Washington Post Book World Facing annihilation at the hands of the warlike

Vogons? Time for a cup of tea! Join the cosmically displaced Arthur Dent and his uncommon comrades in arms in their desperate search for a place to eat, as they hurtle across space powered by pure improbability. Among Arthur's motley shipmates are Ford Prefect, a longtime friend and expert contributor to *The Hitchhiker's Guide to the Galaxy*; Zaphod Beeblebrox, the three-armed, two-headed ex-president of the galaxy; Tricia McMillan, a fellow Earth refugee who's gone native (her name is Trillian now); and Marvin, the moody android. Their destination? The ultimate hot spot for an evening of apocalyptic entertainment and fine dining, where the food

speaks for itself (literally). Will they make it? The answer: hard to say. But bear in mind that *The Hitchhiker's Guide* deleted the term "Future Perfect" from its pages, since it was discovered not to be! "What's such fun is how amusing the galaxy looks through Adams's sardonically silly eyes."—Detroit Free Press

 Open Road Media
 In 2975, the orphan Yatima is grown from a randomly mutated digital mind seed in the

conceptory of Konishi polis. Yatima explores the Coalition of Polises, the network of computers where most life in the solar system now resides, and joins a friend, Inoshiro, to borrow an abandoned robot body and meet a thriving community of “fleshers” in the enclave of Atlanta. Twenty-one years later, news arrives from a lunar observatory: gravitational waves from Lac G-1, a nearby pair of neutron stars, show that the Earth is about to be bathed in a gamma-ray flash created by the stars’ collision — an event that was not expected to take place for seven million years. Yatima and Inoshiro return to Atlanta to try to warn the fleshers, but meet suspicion and disbelief.

Some lives are saved, but the Earth is ravaged. In the aftermath of the disaster, the survivors resolve to discover the cause of the neutron stars’ premature collision, and they launch a thousand polises into interstellar space in search of answers. This diaspora eventually reaches a planet subtly transformed to encode a message from an older group of travellers: a greater danger than Lac G-1 is imminent, and the only escape route leads beyond the visible universe.

Battlefield Earth

Feiwei & Friends
Sadistic Aliens... ..Man is an endangered species. Is it the end of the world or the rebirth of a new one? In the year A.D. 3000, Earth

is a dystopian wasteland. The great cities stand crumbling as a brutal reminder of what we once were. When the Psychlos invaded, all the world's armies mustered little resistance against the advanced alien weapons. Now, the man animals serve one purpose. Do the Psychlos' bidding or face extinction. One man, Jonnie Goodboy Tyler, has a plan. They must learn about the Psychlos and their weapons. He needs the other humans to follow him. And that may not be enough. Can he outwit his Psychlo captor, Terl? The fate of the Galaxy lies on the Battlefield of Earth. Get it now. "Pulse-pounding mile-a-minute sci-fi action-adventure that does not stop. It is a

masterpiece of popular adventure science fiction." —Brandon Sanderson "Battlefield Earth is like a 12-hour 'Indiana Jones' marathon. Non-stop and fast-paced. Every chapter has a big bang-up adventure."

—Kevin J. Anderson (co-author of the Dune Sagas) "Over 1,000 pages of thrills, spills, vicious aliens and noble humans. I found Battlefield Earth un-put-downable." —Neil Gaiman

An alien race calls on one woman to revive mankind after Earth's apocalypse in this science fiction classic from the award-winning author of *Parable of the Sower*. Lilith Iyapo has just lost her husband and son when atomic fire consumes Earth—the last stage of the planet's final war. Hundreds of years later Lilith awakes, deep in the hold of a massive alien spacecraft piloted by the Oankali—who arrived just in time to save humanity from extinction. They have kept Lilith and other survivors asleep for centuries, as they learned whatever they could about Earth. Now it is time for Lilith to lead them back to her home world, but life among the Oankali on the newly resettled

planet will be nothing like it was before. The Oankali survive by genetically merging with primitive civilizations—whether their new hosts like it or not. For the first time since the nuclear holocaust, Earth will be inhabited. Grass will grow, animals will run, and people will learn to survive the planet's untamed wilderness. But their children will not be human. Not exactly. Featuring strong and compelling characters and exploring complex themes of gender and species, *Octavia E. Butler presents a powerful, postapocalyptic interplanetary epic, as well as a ray of hope for humanity. This ebook features an illustrated biography of Octavia E. Butler*

including rare images from the author's estate.
