Facility Coding Exam Review 2015 - E-Book Cengage Learning
 This is a great course for beginner, the experienced, and
 everyone in between This course teaches what we call 'Word
 Building', which is the knowledge of how all medical words are
 structured. It's a quick, efficient and amazingly easy way for
 anyone to learn medical terminology. You learn how to recognize
 the meaning of a medical term by dividing the word into its three
 basic component parts: the prefix, root and suffix. By knowing
 the meanings of the prefixes, suffixes, and root words, you can
 easily make sense of a medical term. This course is designed for
 the healthcare claims biller, the medical insurance claims
 adjuster, the medical office worker, or anyone wanting to learn
 medical terminology. The course takes the average person 3

weeks or less to complete based on a study time of 1-2 hours per
 day.
