 Américas Award Winner "An achingly beautiful story."—Kirkus (starred review) "Eloquent."—Booklist (starred review) "Lovely and lyrical."—School Library Journal This powerful and resonant Américas Award-winning novel tells the story of a young girl's struggle to find her place in the world and to become a writer in a country where words are feared. Seamlessly interweaving both poetry and prose, Lynn Joseph's acclaimed debut is a lush and lyrical journey into a landscape and culture of the Dominican Republic. The Color of My Words explores the pain and poetry of discovering what it means to be part of a family, what it takes to find your voice and the means for it to be heard, and how it feels to write it all down.

She has two main goals -- to keep improving her Spanish and to learn to dance the tango. In the process, she makes friends, buys special tango shoes, meets a very handsome tango teacher and, most importantly, learns about Argentine culture."--Page 4 of cover.

In 1959, Fidel Castro assumed power in Cuba after overthrowing the government of Fulgencio Batista. In response, thousands of Cubans fled the island, mostly to the United States. This book tells the stories of these Cubans in exile, all of whom overcame great obstacles to escape the brutal Castro regime. Neither a history of Cuba nor of Castro, this book illuminates the underrepresented legacy of the Cuban Exile Community and celebrates their continued thriving in a new country.

While many professional translators believe the ability to translate is a gift that one either has or does not have, Allison Beeby Lonsdale questions this view. In her innovative book, she demonstrates how teachers can guide their students by showing them how insights from communication theory, discourse analysis, pragmatics, and semiotics illuminate the translation process. Challenging long-held assumptions, she establishes a fascinating framework on which to base the structure of a professional prose-translation class. Her original contributions to the question of directionality and to the specific strategies of translating are applicable to not only the teaching of translation from Spanish to English, but to other teaching situations and to other pairs of languages as well. She also reviews the latest attempts in translation theory to define and contextualize ideal translator competence, student translator competence, and general translation strategies. Beeby Lonsdale completes her book by applying her conclusions to selecting and organizing the content of teaching translation from Spanish to English. She illustrates one or more of the basic translation principles through 29 teaching units, which are prefaced by objectives, tasks, and commentaries for the teacher, and through 48 task sheets, which show how to present the material to students.

Although we have been successful in our careers, they have not turned out quite as we expected. We both have changed positions several times-for all the right reasons-but there are no pension plans vesting on our behalf. Our retirement funds are growing only through our individual contributions. Michael and I have a wonderful marriage with three great children. As I write this, two are in college and one is just beginning high school. We have spent a fortune making sure our children have received the best education available. One day in 1996, one of my children came home disillusioned with school. He was bored and tired of studying. "Why should I put time into studying subjects I will never use in real life?" he protested. Without thinking, I responded, "Because if you don't get good grades, you won't get into college." "Regardless of whether I go to college," he replied, "I'm going to be rich."

This is a dictionary of Cebuano Visayan, the language of the central part of the Philippines and much of Mindanao. Although the explanations are given in English, the aim of this work is not to provide English equivalents but to explain Cebuano forms in terms of themselves. It is meant as a reference work for Cebuano speakers and as a tool for students of the Cebuano language. There is a total of some 25,000 entries and an addenda of 700 forms which were prepared after the dictionary had been composed. This dictionary is the product of eleven years work by more than a hundred persons. The work was edited by John Wolff but the sources are entirely native, and all illustrations are composed by native speakers. To date, this work probably represents the most authoritative dictionary of the Cebuano Visayan language.

pubOne.info present you this new edition. It was with considerable reluctance that I abandoned in favour of the present undertaking what had long been a favourite project: that of a new edition of Shelton's "Don Quixote," which has now become a somewhat scarce book. There are some- and I confess myself to be one- for whom Shelton's racy old version, with all its defects, has a charm that no modern translation, however skilful or correct, could possess. Shelton had the inestimable advantage of belonging to the same generation as Cervantes; "Don Quixote" had to him a vitality that only a contemporary could feel; it cost him no dramatic effort to see things as Cervantes saw them; there is no anachronism in his language; he put the Spanish of Cervantes into the English of Shakespeare. Shakespeare himself most likely knew the book; he may have carried it home with him

in his saddle-bags to Stratford on one of his last journeys, and under the mulberry tree at New Place joined hands with a kindred genius in its pages.

As the discipline of anthropology continues to chart a course along various turns (ontological, ethical, and otherwise), in this pathbreaking volume Carlo Severi and William Hanks return to the question of knowledge and translation as a theoretical and ethnographic guide for twenty-first century anthropology. Translation has played an important but equivocal role in the history of anthropology and linguistics. At least since Ferdinand de Saussure and Franz Boas, languages have been seen as systems whose differences make precise translation exceedingly difficult, if not impossible. Others have argued that, in purely abstract terms, translation between languages is in principle indeterminate. This collected volume suggests that the challenge posed by the constant confrontation of incommensurable paradigms, or worlds, may be the most "fertile ground for state-of-the-art ethnographic theory and practice. With contributions on topics that range from the philosophical to the ethnographic (with reflections on themes as diverse as tourism in New Guinea, shamanism in the Amazon, the globally ubiquitous restaurant menu, and oral traditions in the Himalayas), this volume provides a new anthropological way to define translation, not only as a key technique for understanding ethnography, but also as a general epistemological principle. "
