This work traces the development of Austrian-born poet Erich Fried (1921-1988) from his childhood, when he was forced to flee from his native country after the annexation of Austria in 1938, to his status as one of the most productive modern German poets. Particular attention is paid to Fried's early years in London during the war, his relationship with the political exile

organizations in London, and his literary development from 1938-1945. Annotation copyright by Book News, Inc., Portland, OR [A Cumulative Author List Representing Library of Congress Printed Cards and Titles Reported by Other American Libraries](#) Walter de Gruyter
A magisterial history of the artists and writers who left Weimar when the Nazis came to power In 1933 thousands of intellectuals, artists, writers, militants and other opponents of the Nazi regime fled Germany. They were, in the words of Heinrich Mann, "the best of Germany," refusing to remain citizens in this new state that legalized terror and brutality.

Exiled across the world, they expressed the fight against Nazism in prose, poetry, painting, architecture, film and theater. Weimar in Exile follows these lives, from the rise of national socialism to the return to their ruined homeland, retracing their stories, struggles, setbacks and rare victories. The dignity in exile of Walter Benjamin, Ernst Bloch, Bertolt Brecht, Alfred Doblin, Hans Eisler, Heinrich Mann, Thomas Mann, Anna Seghers, Ernst Toller, Stefan Zweig and many others provides counterpoint to the story of Germany under the Nazis.

Los artículos que conforman este libro son una muestra de la reflexión científica acerca de la descripción y transmisión adecuadas de la lengua alemana y de la Filología Alemana en el más amplio sentido de la palabra. Todos ellos tienen como hilo conductor común el tema de las fronteras y las barreras lingüísticas, la norma y el purismo lingüístico, la evolución de la lengua y la inserción de elementos “extraños” y, en particular, la didáctica del alemán como lengua extranjera. Este volumen aporta la novedad de contraponer la visión desde dentro de los países de habla alemana con la de los estudios sobre dicha lengua que se desarrollan en otros países no germanoparlantes. Un objetivo prioritario es presentar puntos de coincidencia entre la mirada “interior” y la “exterior” y de este modo poder ampliar el estado de la investigación sobre la cultura y la lengua alemana mediante nuevos puntos de vista. Dado que toda lengua es una mediación entre diferentes culturas, sujeta a los avatares históricos, la perspectiva sobre el estado actual se proyecta incluso sobre el futuro de los estudios

universitarios como tales en los años venideros. Así pues, este libro abre el debate sobre la futura orientación de esta disciplina y aboga por que las Filologías Alemanas de dentro y de fuera de los países germanófonos dejen ya de caminar por vías separadas.

Antifascism is usually described as either a political ideology of activists and intellectuals confronting the dictatorships of Hitler and Mussolini, or as a cynical tool that justified the Stalinist expansion of communism in Europe. Andreas Agocs widens our understanding of antifascism by placing it in the context of twentieth-century movements of 'cultural renewal'. He explores the concept of 'antifascist humanism', the attempt by communist and liberal intellectuals and artists to heal

the divisions of Nazism by reviving the 'other Germany' of classical Weimar. This project took intellectual shape in German exile communities in Europe and Latin America during World War II and found its institutional embodiment in the Cultural League for Democratic Renewal in Soviet-occupied Berlin in 1945. During the emerging Cold War, antifascist humanism's uneasy blend of twentieth-century mass politics and cultural nationalism became the focal point of new divisions in occupied Germany and the early German Democratic Republic. This study traces German traditions of cultural renewal from their beginnings in antifascist activism to their failure in the emerging Cold War.
