VIA Rail,

Canada's national passenger train service, makes visiting this breathtaking country a truly memorable journey. Canada by Train is the complete guidebook to train travel with VIA Rail. Full of useful facts and vivid photographs, this guide provides current, comprehensive details on train services and safety measures. The guide features over 500 full-color illustrations and

photographs; updated information on schedules, fares and pass options; mile-by-mile route guides; practical suggestions on traveling light, settling in sleepers and coaches; and more.-- From publisher description. *They Came for the Children* Routledge This book is based on the acknowledgment that climate change is a multifaceted challenge that requires action on the part of all

stakeholders, including civil society, and the notion that climate change is at a tipping point with urgent measures needed in the next decade. Against this background, civil society is turning its attention to the courts as a means to directly influence climate action, partly because of the global scepticism towards the progress of global climate action, despite the ongoing implementation of the Paris Agreement.

Focusing on the individual, broadly representing civil society, the book offers fresh perspectives on climate change litigation. While most of the literature on climate change litigation examines the same specific jurisdictions, mostly common law countries (US and Australia in particular), this book also considers specific countries in Asia, Africa and Latin America with little or no

climate change litigation. It explores the reasons for the lack of litigation and discusses what measures should or could be taken to change this situation and push forward climate action. Unlike other literature on the subject, this book analyses climate change litigation using a scenario-based methodology. Combining rigorous academic analysis with a practical

policy-oriented focus, the book provides valuable insights for a wide range of stakeholders interested in climate change litigation. It appeals to civil society organisations around the world, international organisations and law firms interested in climate change litigation. *Acoustic Praise for the Growing Choir* Bill Soroka Enjoy a (slow) spin around the old rink in the only

history of the world-famous Zamboni ice resurfacer...now available in an updated edition to celebrate the 70th birthday of these iconic machines! Until 1949, resurfacing an ice rink required an ungainly tractor-pulled shaver followed by three or four workers scooping away the shavings and then spraying and squeegeeing water. The process—including the refreezing—took more than an hour, as

skaters or hockey players waited patiently. That all changed when a tireless inventor by the name of Frank J. Zamboni—who also happened to own a skating rink in Southern California—put his mind to creating a quality sheet of ice in a shorter time. The story of the machines the Zamboni Company has produced—now as beloved among sports enthusiasts as ice skates and hockey

pucks—is fully told in this fun-filled history of machine-age ingenuity and entrepreneurial spirit that forever changed the nature of ice sports. Inside this official illustrated story, created with the cooperation of the Zamboni Company, you'll be greeted by a wealth of visual material from their archives. Explore: The early development of Zamboni ice-resurfacing machines How

they work and have evolved over the years. The story behind figure-skating legend Sonja Henie's personal Zamboni ice resurfacers. Anecdotes from drivers. Stories behind paint schemes. Colorful tales about Zamboni ice resurfacer drivers. And much more. Witness the design and workings of the latest models, such as the world's first OEM lithium-ion-powered ice resurfacer, and read fun new Zamboni

tales and milestones, like the 12,000th machine delivered and the 2018 formation of Zamboni Europe in Sweden. Entertaining sidebars explore the appeal of Zamboni machines, take you inside Zamboni facilities, examine the company's other less-well-known machines, and highlight Zamboni machines' television and film "roles." The only book

on the subject not geared for young kids, **Zamboni: The Coolest Machines on Ice** offers sports enthusiasts a fun-filled and informative look at one of the most beloved machines on four wheels! **Steal This Book** Seal Books Exposing the stakes and consequences of the enormous bureaucracy behind the administrative surveillance of alcohol consumption, this critical study takes a

closer look at the Liquor Control Board of Ontario (LCBO). Beginning with its inception in 1927, this study documents how the LCBO subjected alcohol consumption to its disciplinary gaze and generated knowledge about the drinking population. The Board's exploitation of technological advances is also detailed, depicting their transition from paper permit books to the

first punched card computer systems. Revealing how they tracked any and all alcohol consumption, this investigation records how they created categories and profiles of individuals, especially of women, aboriginals, and the poor, so they could "control" drinking in the province. Examining the categorical treatment of populations such as First Nations, this analysis illustrates how this company

helped to develop and foster stereotypes around addiction that persist to this day. **Community Perspectives on Water, Responsibility, and Hope** John Wiley & Sons This is a comprehensive training guide on how to start and grow a mobile notary and loan signing business from scratch, in all 50 states. Establish a flexible schedule, earn unlimited income, and work a

business that you can be proud of. The High Cost of Discount Culture W. W. Norton & Company
 When was the last time you visited a shoemaker? A watchmaker? A tailor? Have you met a sign painter, a typewriter mechanic or a shirt factory worker? Do camera stores and independent department stores still exist in this day and age? What exactly are the principal responsibilities of a town

clock keeper? As automation and modernization bring to the brink of extinction many twentieth-century ways of making a living, we find ourselves in danger of losing the accumulated skill of generations of Canadians. Through the compelling photographs and moving interviews in *Overtime*, Karl Kessler and Sunshine Chen give voice to fifty proud workers based in the heart of

Southwestern Ontario, preserving their stories for generations to come.

 This report describes the Act and states the reasons for our

conclusion that the Act should be repealed. It also contains the text of the Act, describes the survey conducted of members of the legal profession regarding their views on the Act, and summarizes the most frequently expressed reasons for retaining the Act, and states why it was concluded that those reasons were overborne by those in favour of repeal. Finally, it describes some

approaches that could be taken to reforming rather than repealing the Act.

Learning How to Work My Control Panel CRC Press (Glory Sound Simply Sacred). The increasing treasury of modern hymns and sacred songs by Keith and Kristyn Getty and collaborator Stuart Townend are explored in this new resource designed for choirs of any level. Many of

this writing team's biggest successes are included, all lovingly adapted by some of our most gifted arrangers. Music for the entire church year is contained in this collection. Transcending stylistic boundaries, the music and message are home in both contemporary-styled worship venues and traditional programs. Creative instrumental adornments offer additional options for performance

<p>while sensitive arranging make this compilation accessible to choirs of any size. Available separately: SAB, Listening CD, Preview Pack (Book/CD Combo), 10- Pack Listening CDs, Instrumental CD-ROM (Score & parts for flute, penny whistle, oboe, acoustic guitar, electric bass, drum set, percussion, violin 1 & 2, viola, cello *Note, instrumentatio n varies on each song), StudioTrax CD (Accompanim</p>	<p>ent Only), SplitTrax CD. <u>The Dionne</u> <u>Years Pickle</u> Partners Publishing This book explores the challenges facing food security, sustainability, sovereignty, and supply chains in the Arctic, with a specific focus on Indigenous Peoples. Offering multidisciplina ry insights and with a particular focus on populations in the European High North region, the book highlights the importance of</p>	<p>accessible and sustainable traditional foods for the dietary needs of local and Indigenous Peoples. It focuses on foods and natural products that are unique to this region and considers how they play a significant role towards food security and sovereignty. The book captures the tremendous complexity facing populations here as they strive to maintain sustainable food systems</p>
---	---	--

- both subsistent and commercial - and regain sovereignty over traditional food production policies. A range of issues are explored including food contamination risks, due to increasing human activities in the region, such as mining, to changing livelihoods and gender roles in the maintenance of traditional food security and sovereignty. The book also considers processing methods that combine indigenous and traditional knowledge to convert the traditional foods, that are harvested and hunted, into local foods. This book offers a broader understanding of food security and sovereignty and will be of interest to academics, scholars and policy makers working in food studies; geography and environmental studies; agricultural studies; sociology; anthropology; political science; health studies and biology. *The Bulk Sales Act* Motorbooks Published in 2001: Abbreviations, nicknames, jargon, and other short forms save time, space, and effort - provided they are understood. Thousands of new and potentially confusing terms become part of the international vocabulary each year, while our

communications are relayed to one another with increasing speed. PDAs link to PCs. The Net has grown into data central, shopping mall, and grocery store all rolled into one. E-mail is faster than snail mail, cell phones are faster yet - and it is all done 24/7. Longtime and widespread use of certain abbreviations, such as R.S.V.P., has made them better understood standing alone than spelled

out. Certainly we are more comfortable saying DNA than deoxyribonucleic acid - but how many people today really remember what the initials stand for? The Abbreviations Dictionary, Tenth Edition gives you this and other information from Airlines of the World to the Zodiacal Signs. Patterns, Principles, and Potholes Rizzoli International Publications This product

of the Facility Guidelines Institute (FGI) provides minimum standards for design and construction of hospitals and outpatient facilities. The standards for long-term care facilities will appear in a new document for 2014; please see the entry for Guidelines for Design and Construction of Residential Health, Care, and Support Facilities. Included in the Guidelines for Hospitals and Outpatient Facilities is

information on the planning, design, construction, and commissioning process and facility requirements for both hospitals and outpatient facilities. Included are general hospitals, psychiatric hospitals, and rehabilitation facilities as well as new chapters on children's and critical access hospitals. Outpatient facilities covered include primary care facilities; outpatient

surgery facilities; birth centers; urgent care centers; mobile units; outpatient psychiatric and rehabilitation centers; facilities for endoscopy, dialysis, and cancer treatment; and a new chapter on dental facilities. In addition, the 2014 Guidelines includes new material on safety risk assessments and medication safety zones; increased requirements

for commissioning infrastructure systems; and updated requirements for surgery, imaging, endoscopy, and dialysis facilities as well as primary care facilities and freestanding emergency facilities.

Canada by Train

Springer Nature
A myth-shattering investigation of the true cost of America's passion for finding a better bargain
From the

shuttered factories of the Rust Belt to the strip malls of the Sun Belt-and almost everywhere in between-America has been transformed by its relentless fixation on low price. This pervasive yet little-examined obsession with bargains is arguably the most powerful and devastating market force of our time, having fueled an excess of consumerism that blights our land-

scapes, escalates personal debt, lowers our standard of living, and even skews of our concept of time. Spotlights the peculiar forces that drove Americans away from quality, durability, and craftsmanship and towards quantity, quantity, and more quantity, Ellen Ruppel Shell traces the rise of the bargain through our current big-box profusion to expose the astronomically high cost of

cheap.

Beyond the Trees Way of the Rail Pub Explores Old Kingdom art and antiquities

Micromusics of the West

Da Capo Press
A shake of the dark head, a shudder in the shoulders.

Another tiny splash on the linoleum floor. Husband murdered, and now her daughter too. The Inuit, it is said, have forty different words for snow. Never mind about snow, Cardinal mused, what people really need is forty

words for
sorrow. Grief.
Heartbreak.
Desolation.
There were
not enough,
not for this
childless
mother in her
empty house.
[Forty Words
for Sorrow,
page 42] The
mutilated
body of a
young girl has
been
discovered in
an abandoned
mine shaft on
the desolate
Lake Nipissing
island of
Windigo.
Missing since
September,
Katie Pine has
finally been
found,
encased in a
block of ice as
if preserved in

amber. The
intense police
investigation
when she first
disappeared
had gone
nowhere, and
Detective John
Cardinal went
from solving
murders to
investigating
burglaries and
petty crimes.
But now all
bets are off.
Cardinal is
back on the
case; this time
with a new
partner. Lise
Delorme, a
sexy and
passionate
former
internal
investigator,
makes
Cardinal
uneasy. With
a guilty
conscience to

fuel his
suspicion,
Cardinal
wonders if
Delorme isn't
there to
investigate
him. And his
suspicions are
well founded.
Delmore has
made a deal
with the devil:
in order to
leave SIU for
good, she
must gain
Cardinal's
trust and then
betray it.
There are
allegations of
corruption on
the force, and
Cardinal's
"extracurricular"
activities
during a
counterfeiting
investigation
are being
called into

question. Delorme is convinced that Cardinal is innocent of any wrongdoing and even when her investigation calls his integrity into question, she is reluctant to believe it. When Cardinal makes the gruesome discovery of the bodies of two more missing teenagers, he doesn't spend time worrying about his suspicions concerning Delorme. His focus is on a more sinister concern—a

serial killer hiding somewhere in this quiet northern town. That concern becomes laced with urgency when Karen Steen, a young woman from Guelph, arrives to speak to Cardinal about her missing boyfriend, Keith London. Cardinal begins to believe that Keith is the fourth young person to disappear in Algonquin Bay. But unlike the other victims, he believes that Keith may still be alive.

The question now becomes, what is the connection between the three dead and one missing teenager? Can Cardinal and Delorme find Keith London before it's too late?

[Guidelines for Design and Construction of Hospitals and Outpatient Facilities 2014](#)
Shawnee Press
Examines the lives of the Dionne quintuplets, five identical girls who were born in 1934 and spent the first nine

years of their lives separated from their parents and exploited by the media and the Canadian government. A Report of the Surgeon General University of Wisconsin Press Recommended by the New York Times Holiday Books Guide A quest to rediscover America's other border—the fascinating but little-known northern one. America's northern border is the world's

longest international boundary, yet it remains obscure even to Americans. The northern border was America's primary border for centuries—much of the early history of the United States took place there—and to the tens of millions who live and work near the line, the region even has its own name: the northland. Travel writer Porter Fox spent three years exploring 4,000 miles of the border

between Maine and Washington, traveling by canoe, freighter, car, and foot. In Northland, he blends a deeply reported and beautifully written story of the region's history with a riveting account of his travels. Setting out from the easternmost point in the mainland United States, Fox follows explorer Samuel de Champlain's adventures across the Northeast; recounts the

rise and fall of the timber, iron, and rail industries; crosses the Great Lakes on a freighter; tracks America's fur traders through the Boundary Waters; and traces the forty-ninth parallel from Minnesota to the Pacific Ocean. Fox, who grew up the son of a boat-builder in Maine's northland, packs his narrative with colorful characters (Captain Meriwether Lewis, railroad tycoon James

J. Hill, Chief Red Cloud of the Lakota Sioux) and extraordinary landscapes (Glacier National Park, the Northwest Angle, Washington's North Cascades). He weaves in his encounters with residents, border guards, Indian activists, and militia leaders to give a dynamic portrait of the northland today, wracked by climate change, water wars, oil booms, and border security.

The Coolest Machines on Ice W. W.

Norton
An overview of farm-to-fork safety in the preharvest realm
Foodborne outbreaks continue to take lives and harm economies, making controlling the entry of pathogens into the food supply a priority. Preharvest factors have been the cause of numerous outbreaks, including Listeria in melons, Salmonella

associated with tomatoes, and Shiga toxin-producing E.coli in beef products, yet most traditional control measures and regulations occur at the postharvest stage. Preharvest Food Safety covers a broad swath of knowledge surrounding topics of safety at the preharvest and harvest stages, focusing on problems for specific food sources and food pathogens, as well as new tools and potential solutions. Led by editors Siddhartha Thakur and Kalmia Kniel, a team of expert authors provides insights into critical themes surrounding preharvest food safety, including Challenges specific to meat, seafood, dairy, egg, produce, grain, and nut production Established and emerging foodborne and agriculture-related pathogens Influences of external factors such as climate change and the growing local-foods trend Regulatory issues from both US and EU perspectives Use of pre- and probiotics, molecular tools, mathematical modeling, and one health approaches Intended to encourage the scientific community and food industry stakeholders to advance their knowledge of the developments and

challenges associated with preharvest food safety, this book addresses the current state of the field and provides a diverse array of chapters focused on a variety of food commodities and microbiological hazards.

Northland: A 4,000-Mile Journey Along America's Forgotten Border

A handbook of survival and warfare for the citizens of Woodstock Nation A classic of counterculture

literature and one of the most influential-- and controversial-- documents of the twentieth century, Steal This Book is as valuable today as the day it was published. It has been in print continuously for more than four decades, and it has educated and inspired countless thousands of young activists.

Conceived as an instruction manual for radical social change, Steal This Book is

divided into three sections-- Survive! Fight! and Liberate!

Ever wonder how to start a guerilla radio station? Or maybe you want to brush up on your shoplifting techniques. Perhaps you're just looking for the best free entertainment in New York City. (The Frick Collection-- "Great when you're stoned.")

Packed with information, advice, and Abbie's unique outlaw wisdom

("Avoid all needle drugs-- the only dope worth shooting is Richard Nixon."), Steal This Book is a timeless reminder that, no matter what the struggle, freedom is always worth fighting for. "All Power to the Imagination was his credo. Abbie was the best."--Studs Terkel	<i>Canada, Aboriginal Peoples, and Residential Schools Brunswick Books This Surgeon General's report details the causes and the consequences of tobacco use among youth and young adults by focusing on the social, environmental , advertising, and marketing influences</i>	that encourage youth and young adults to initiate and sustain tobacco use. This is the first time tobacco data on young adults as a discrete population have been explored in detail. The report also highlights successful strategies to prevent young people from using tobacco.
