For use in schools and libraries only. A totalitarian regime has ordered all books to be destroyed, but one of the book burners suddenly realizes their merit, in a chilling novel of a

frightening near-future world.

Literature into Film Oscar Ink

A science fiction book that narrates the story of a futuristic society where all books are banished and firefighters are assigned the job of burning the books and the house or building that contains the books rather than putting out fires.

Hunter Simon and

Schuster

A Graphic Adaptation An HBO Original Movie starring Michael B. Jordan (Black Panther), Sofia Boutella (Star Trek: Beyond), and Michael Shannon (The Shape of Water). An Eisner Award Nominee "Monday burn Millay, Wednesday Whitman, Friday Faulkner, burn 'em to ashes, then burn the ashes." For Guy Montag, a career fireman

for whom kerosene is perfume, this is not just an official slogan. It is a mantra, a duty, a way of life in a tightly monitored world where thinking is dangerous and books are forbidden. In 1953, Ray Bradbury envisioned one of the world's most unforgettable dystopian futures, and in Ray Bradbury's *Fahrenheit 451*, the artist Tim Hamilton translates this frightening modern masterpiece into a gorgeously imagined graphic novel. As could only occur with Bradbury's

full cooperation in this authorized adaptation, Hamilton has created a striking work of art that uniquely captures Montag's awakening to the evil of government-controlled thought and the inestimable value of philosophy, theology, and literature. Including an original foreword by Ray Bradbury and fully depicting the brilliance and force of his canonic and beloved masterwork, Ray Bradbury's *Fahrenheit 451* is an exceptional, haunting work of graphic literature.

Fahrenheit 451 ofrece la historia de un sombrío y horroroso futuro. Montag, el protagonista, pertenece a una extraña brigada de bomberos cuya misión, paradójicamente, no es la de sofocar incendios sino

la de provocarlos para quemar libros. Porque en el país de Montag está terminantemente prohibido leer. Porque leer obliga a pensar, y en el país de Montag está prohibido pensar. Porque leer impide ser ingenuamente feliz, y en el país de Montag hay que ser feliz a la fuerza... brilliant than the first." —Buzzfeed An Instant New York Times Bestseller and NPR Best Book of 2022 pick From Marlon James, author of the bestselling National Book Award finalist *Black Leopard, Red Wolf*, the second book in the *Dark Star* trilogy. In *Black Leopard, Red Wolf*, Sogolon the Moon Witch proved a worthy adversary to Tracker as they clashed across a mythical African landscape in search of a mysterious boy who disappeared. In *Moon*

Witch, Spider King, Sogolon takes center stage and gives her own account of what happened to the boy, and how she plotted and fought, triumphed and failed as she looked for him. It's also the story of a century-long feud—seen through the eyes of a 177-year-old witch—that Sogolon had with the Aesi, chancellor to the king. It is said that Aesi works so closely with the king that together they are like the eight limbs of one spider. Aesi's power is considerable—and deadly.

It takes brains and courage to challenge him, which Sogolon does for reasons of her own. Both a brilliant narrative device—seeing the story told in Black Leopard, Red Wolf from the perspective of an adversary and a woman—as well as a fascinating battle between different versions of empire, Moon Witch, Spider King delves into Sogolon’s world as she fights to tell her own story. Part adventure tale, part chronicle of an indomitable woman who bows to no man, it is a

fascinating novel that explores power, personality, and the places where they overlap. A totalitarian regime has ordered all books to be destroyed, but one of the book burners, Guy Montag, suddenly realizes their merit.

Fahrenheit 451 Hill and Wang

The hauntingly prophetic

classic novel set in a not-too-distant future where books are burned by a special task force of firemen. Guy Montag is a fireman. His job is to burn books, which are forbidden, being the source of all discord and unhappiness. Even so, Montag is unhappy; there is discord in his marriage. Are books hidden in his house? The Mechanical Hound of the Fire Department, armed with a lethal hypodermic, escorted by helicopters, is ready to track down those dissidents who defy

society to preserve and read books. The classic novel of a post-literate future, 'Fahrenheit 451' stands alongside Orwell's '1984' and Huxley's 'Brave New World' as a prophetic account of Western civilization's enslavement by the media, drugs and conformity. Bradbury's powerful and poetic prose combines with uncanny insight into the potential of technology to create a novel which over fifty years from first publication, still has the power to dazzle and

shock. Fahrenheit 451-Illustrated Plaza y Janes Fahrenheit 451 is a dystopian novel by American writer Ray Bradbury. Fahrenheit 451 is the temperature at which book paper spontaneously catches fire and burns. It is a futuristic novel describing a time when the government has ordered that all books be burned. This may seem to be ridiculous and could never be happening, but it is starting to happen in real life now, today. Now we

have a president who accuses everything in the press of being "fake news". He tells his followers who constitute a near majority never to believe the news media. He has ordered the arrest and criminal prosecution of the leading law enforcement officers including the Director of the FBI and the Director of the Central Intelligence Agency. He has accused most of his political opponents of corruption and crime. Nobody knows what is the truth and what is false any more. He says

that decisions of the highest courts of the United States are almost all fake. He openly attacks and criticizes the highest judges of the Supreme Court. He says the truth is false and the false is true. The result is we the people do not know who or what to believe. All the great scientists have found that climate change is real and our time on this earth may be limited, but he says climate change is a hoax and we should ignore the works of the scientists. This is not the first time this has

happened. In China, Chairman Mao declared his Cultural Revolution and the Great Leap Forwards. China has the oldest civilization in the world, going back to before Confucius in 551-479 BC. Yet, during the Cultural Revolution, Chairman Mao ordered all the old books burned and destroyed and even ordered the people to destroy their old household furniture. I found this out myself in 2011 when I toured China after the World Memory Championships in

Guangzhou China. As a book publisher, I wanted to reprint some old classical works. I was shocked to discover that no books were available dated before 1949 and few after that. Everything earlier than that had been destroyed. I am still hoping that some older Chinese books have been preserved in Taiwan. I consider a book dated 1949 to be a relatively new book. I usually do not bother with such recent books. The destruction of all books in China dated before 1949 is not

reported on any website that I have found but I saw with my own eyes that all such books were gone.

Fifty-five years ago Ray Bradbury, one of America's greatest writers, envisioned one of the world's most unforgettable dystopian futures. Thinking is dangerous; trust only the state; turn in your neighbors; and, most important, burn all books. Artist Tim Hamilton, with Bradbury, has turned this

modern masterpiece into a gorgeously imagined graphic novel. The world of Guy Montag, a career fireman for whom kerosene has become perfume, has been translated by Hamilton into unforgettable full-color art that uniquely captures Montag's awakening to the evil of government-controlled thought and the inestimable value of philosophy, theology, and literature. Slaughterhouse-Five

Simon and Schuster

Nearly seventy years after its original publication, Ray Bradbury's internationally acclaimed novel *Fahrenheit 451* stands as a classic of world literature set in a bleak, dystopian future. Today its message has grown more relevant than ever before. Guy Montag is a fireman. His job is to destroy the most illegal of commodities, the printed

book, along with the houses in which they are hidden. Montag never questions the destruction and ruin his actions produce, returning each day to his bland life and wife, Mildred, who spends all day with her television “family.” But when he meets an eccentric young neighbor, Clarisse, who introduces him to a past where people didn’t live in fear and to a present where one sees the world through the ideas in books instead of the mindless chatter of television, Montag begins

to question everything he has ever known.

Fahrenheit 451 is the temperature at which a book will burn. Montag is a fireman who works for a fire brigade whose purpose is not to put out fires but to burn books. The penalty for any fireman who tries to read or hide a book is death by

the fangs of a mechanical blood-hound. Montag has begun to doubt the wisdom of the all-powerful system.
Fahrenheit 451 Editions Gallimard
Ray Bradbury’s novel Fahrenheit 451 is an enduring masterwork of twentieth-century American literature—a chilling vision of a dystopian future built on the foundations of ignorance, censorship, and brutal repression. The origins and evolution of Bradbury’s darkly magnificent tale are

explored in *A Pleasure to Burn*, a collection of sixteen selected shorter works that prefigure the grand master's landmark novel. Classic, thematically interrelated stories alongside many crucial lesser-known ones—including, at the collection's heart, the novellas "Long After

Midnight" and "The Fireman"—*A Pleasure to Burn* is an indispensable companion to the most powerful work of America's preeminent storyteller, a wondrous confirmation of the inimitable Bradbury's brilliance, magic . . . and fire.
