How did intentionally

killing human beings in
the womb become "health
care"? When did
sacrificing the innocent
become the path to
"freedom"? Planned
Parenthood and their
allies are normalizing
abortion and selling a lie.
In Contenders, Dr. Marc
Newman shows you the

spiritual underpinnings of
the abortion industry and
how its advocates "argue
in retreat." With every
shift in the conversation,
you will learn how to
winsomely respond to
abortion-choice
supporters and help them
to see that their view of
the unborn is not only

scientifically insupportable, but morally disfiguring, placing all human beings at risk. Drawing on decades as a nationally-recognized pro-life communication trainer, apologist, professor, and director of intercollegiate speech and debate, Newman equips readers to: Strip the mask off of abortion? Understand why the church has remained so silent? Recognize and defeat abortion advocate's Five Big Shifts? Give you confidence to speak up for

the unborn? Become powerfully persuasive while remaining winsome? Combat a culture of death by creating tangible, life-affirming alternatives? Empower Christians to change the world

 . Renewal of Life by Transmission. The most notable distinction between living and inanimate things is that the former maintain

themselves by renewal. A stone when struck resists. If its resistance is greater than the force of the blow struck, it remains outwardly unchanged. Otherwise, it is shattered into smaller bits. Never does the stone attempt to react in such a way that it may maintain itself against the blow, much less so as to render the blow a contributing factor to its own continued action. While the living thing may easily be crushed by superior force, it none the less tries to turn the energies which

act upon it into means of its own further existence. If it cannot do so, it does not just split into smaller pieces (at least in the higher forms of life), but loses its identity as a living thing. As long as it endures, it struggles to use surrounding energies in its own behalf. It uses light, air, moisture, and the material of soil. To say that it uses them is to say that it turns them into means of its own conservation. As long as it is growing, the energy it expends in thus turning the environment to

account is more than compensated for by the return it gets: it grows. Understanding the word "control" in this sense, it may be said that a living being is one that subjugates and controls for its own continued activity the energies that would otherwise use it up. Life is a self-renewing process through action upon the environment. *How to Study the Bible with Both Our Hearts and Our Minds* Crossway Not a book on social issues per se, nor a book on missions, Innocent

Blood integrates the two and calls us to courageously challenge the powers of death with the gospel of life. It does this by exploring the striking relationships between the scandal of the gospel and the tragedy of abortion.

Right Convergent Books The little known story of these female reservists and the role they played in WWII, packed with photos. When US Marine Commandant Maj. Gen. Thomas Holcomb announced the formation

of what became the US Marine Corps' Women's Reserve, legend has it, the portrait of one of his predecessors fell off the wall and crashed to the floor—in disbelief. The women were called “Lady Leathernecks,” among other nicknames—some less than flattering. This branch of the US Marines had been authorized by the US Congress and signed into law by President Franklin D. Roosevelt on July 30, 1942. The law allowed for the acceptance of women into the reserve as

commissioned officers and at the enlisted level—effective for the duration of the war plus six months. The purpose of the law was to release officers and men for combat and to replace them with women in shore stations. The result was that between 1943 and 1945 the women of America enlisted in the thousands to “Free a Marine to Fight.” This book, the first of its kind, explores in detail the role of female Marines, or WRs as they were known at the time. It also presents a

detailed study of the uniforms of the WRs supported by numerous photographs. This book has been written with the full support of the US Marine Corps Histories Division, the Women Marine Association, and surviving WR veterans. *Democracy and Education* Focus on the Family Pub Popular Author, Speaker, and Founder of the Josh McDowell Ministry Speaks Out on the Popular, Culturally Relevant Topic of Right vs. Wrong Directed to parents and gatekeepers of today's

youth, renowned speaker and author Josh McDowell focuses on the how-to's of teaching teens and pre-teens to make right moral choices. Set Free to Choose Right will help you come to understand: why today's kids feel they have the right to determine what is "right" or "wrong" for themselves how culture reinforces that there are no universal truths and. . . where this misconception historically originated how to motivate kids to make good choices it is God's character and nature that

makes right, right and wrong, wrong Engaging stories and helpful illustration are provided to model how a person (of any age) can distinguish between right and wrong and make the right choice—every time! *Faith for People Who Don't Like Religion (or Atheism)* Hendrickson Publishers More than 500,000 of the abortions performed annual in the U.S. are performed on college-aged women. This book is specifically geared for use by young advocates in the

pro-life cause. The authors help you educate other young people about the physical, emotional, psychological and spiritual effects that abortion has on women.

[Equipping Churches to Experience Sustained Health](#) Thomas Nelson

Our principal concern in this book is to understand three important ideas: learning, technology and innovation, and to examine these ideas and the relationships between them in situ; that is, we examine a number of cases of learning

technologies in action in two countries, England and Brazil. The purpose of our study is to provide an explanation of the means to, and constraints on, improvements to educational policies and practices, with particular reference to innovation. We have a plethora of theoretical models that in attempting to deal with causal relations usually come to the conclusion that there are socio-economic-cultural constraints, but these observations largely remain at an abstract

level and/or come to very general conclusions that are not of particular help to practitioners in the field. These issues can only be properly addressed after examining the empirical reality and having a spectrum of cases to analyze. By combining the theoretical and the practical, our aim is to explain how and under what conditions new modes of learning can be put into practice successfully and sustainably, in order for the learner to develop

innovatory skills and dispositions for work and in the life course.

 Raw, intimate, and timely, Nadia Bolz-Weber's latest book offers a full-blown overhaul of our harmful and antiquated ideas about sex, gender, and our bodies. Christians are obsessed with sex. But not in a good way. For generations countless people have suffered pain, guilt, and judgment as a result of this toxic fixation on sex, the body,

and physical pleasure. In the follow-up to her celebrated New York Times bestseller *Accidental Saints*, Bolz-Weber unleashes her critical eye, her sharp pen, and her vulnerable but hopeful soul on the caustic, fear-riddled, and religiously inspired messages about sex that have fed our shame. In turn, Bolz-Weber offers no simple amendments or polite compromises, because the stakes are too high--and our souls and our bodies are worth too much. Instead, this

tattooed, swearing, modern-day pastor calls for a new reformation. She urges us to take antiquated, sexist ideas about sex, gender, and our bodies and "burn them the f*ck down and start all over." This is a journey of holy resistance. Along the way, as antidotes to shame, heresy, and all-too-familiar injustice, Bolz-Weber dispenses grace, freedom, and courage. She shares stories, poetry, and scripture, cultivating resilient hope and audacious love rooted

in good news that is "powerful enough, transgressive enough, and beautiful enough to heal not only the ones who have been hurt but also those who have done the hurting." In Bolz-Weber's most personal, bracingly honest book yet, she shares intimately about her life, with her trademark blend of vulnerability, humor, and candor. If you've been mistreated, confused, angered, and/or wounded by the shaming sexual messages so prevalent in religion, this one is for

you.

Pro-life Christians, take heart: the pro-life message can compete in the marketplace of ideas—provided Christians properly understand and articulate that message. Too many Christians do not understand the essential truths of the pro-life position, making it difficult for them to articulate a biblical worldview on issues like abortion, cloning, and embryo research. The Case for Life provides

intellectual grounding for the pro-life convictions that most evangelicals hold. Author Scott Klusendorf first simplifies the debate: the sanctity of life is not a morally complex issue. It's not about choice, privacy, or scientific progress. To the contrary, the debate turns on one key question: What is the unborn? From there readers learn how to engage the great bio-tech debate of the twenty-first century, how to answer objections persuasively, and what the role of the pro-life

pastor should be. and the Case for Life

As politicians, citizens, and families continue the raging national debate on whether it's proper to end human life in the womb, resources like Randy Alcorn's Prolife Answers to Prochoice Arguments have proven invaluable. With over 75,000 copies in print, this revised and updated guide offers timely information and inspiration from a "sanctity of life" perspective. Real answers to real questions about

abortion appear in logical and concise form. The final chapter -- "Fifty Ways to Help Unborn Babies and Their Mothers"-- is worth the price of this book alone!

falsetheology? The Devil has been effectively targeting women from the beginning, so why are they often left to fend for themselves in so-called

women's ministries? Strengthening women in the church strengthens the whole church. Cultivating resolved, competent women equips them to fulfill their calling as Christ's disciples and men's essential allies. Acclaimed church leader, blogger, founder and chief strategic officer of The Unstuck Group, Tony Morgan unpacks the lifecycle of a typical

church, identifies characteristics of each phase, and provides practical next steps a church can take to move towards sustained health. Think about your church for a moment. Is it growing? Is it diminishing? Is it somewhere in between? Acclaimed church leader, blogger, and founder and chief strategic officer of The Unstuck Group, Tony Morgan has identified the seven stages of a church's lifecycle that range from the hopeful and optimistic days of launch, to the

stagnating last stages of life support. Regardless of the stage in which you find your church, it carries with it the world's greatest mission—to "go and make disciples of all the nations . . ." With eternity at stake the Church should be doing most everything within its power to see lives changed forever. The Church should strive for the pinnacle of the lifecycle, where they are continually making new disciples and experiencing what Morgan refers to as "sustained health." In The

Unstuck Church, Morgan unpacks each phase of the church lifecycle, and offers specific and strategic next steps the church leader can take to find it's way to sustained health . . . and finally become unstuck. The Unstuck Church is a call for honest an assessment of where your church sits on the lifecycle, and a challenge to move beyond it.

A Sexual Reformation
Cambridge University Press

The political philosopher Ryan T. Anderson,

bestselling author of *When Harry Became Sally: Responding to the Transgender Moment*, teams up with the pro-life journalist Alexandra DeSanctis to expose the catastrophic failure—social, political, legal, and personal—of legalized abortion. *Hope in the Ruins of Roe* With the Supreme Court poised to return abortion law to the democratic process, a powerful new book reframes the coming debate: Our fifty-year experiment with unlimited abortion has harmed

everyone—even its most passionate proponents. Women, men, families, the law, politics, medicine, the media—and, of course, children (born and unborn)—have all been brutalized by the culture of death fostered by *Roe v. Wade*. Abortion hollows out marriage and the family. It undermines the rule of law and corrupts our political system. It turns healers into executioners and “women’s health” into a euphemism for extermination. Ryan T.

Anderson, a compelling and reasoned voice in our most contentious cultural debates, and the pro-life journalist Alexandra DeSanctis expose the false promises of the abortion movement and explain why it has made everything worse. Five decades after *Roe*, everyone has an opinion about abortion. But after reading *Tearing Us Apart*, no one will think about it in the same way. [Women of the Word](#) Chosen Books Don't worry-almost everyone is. Either we

think the subject is too impolite, or we don't want to be branded an intolerant fanatic, or we worry that we won't represent the pro-life side well enough. You can overcome this fear, says Trent Horn in his new book, *Persuasive Pro-Life*. With a little knowledge and a few proven techniques, you can become a bold and effective apologist for the unborn. Drawing on over a decade as a pro-life activist Horn helps you cut through the diversions and obfuscations of the

"pro-choice" side in order to accurately frame the legal, historical, and medical issues. Using vivid real-life examples, he drives home the critical importance of charity-no matter how loud the debate gets. For we must be not just warriors for the pro-life cause, he says, but ambassadors for it. Then Horn leads you on a guided tour of the many types of pro-abortion opponent or inquirer ("the pragmatist" "the skeptic," "the conflicted"), along with more true stories

from the field. In each case he teaches you specific approaches-what to say, what not to say, and how to bear yourself-that are custom-tailored to every situation. The struggle over abortion has never been hotter, and the stakes could not be higher. Read *Persuasive Pro-Life* today and never again be afraid to speak up for the precious and fundamental right to life. Book jacket. [Deep Discipleship](#) Grub Street Publishers Just about everyone will face a difficult bioethics

decision at some point. In this book a theologian, ethicist, and lawyer equips Christians to make such decisions based on biblical truth, wisdom, and virtue. Though a relatively new discipline, bioethics has generated extraordinary interest due to a number of socially pressing issues. Bioethics and the Christian Life places bioethics within the holistic context of the Christian life, both developing a general Christian approach to making bioethics decisions and addressing

a number of specific, controversial areas of bioethics. Clear, concise, and well-organized, the book is divided into three sections. The first lays the theological foundation for bioethics decision-making and discusses the importance of wisdom and virtue in working through these issues. The second section addresses beginning-of-life issues, such as abortion, stem-cell research, and infertility treatments. The third section covers end-of-life issues, such as living wills, accepting and

refusing medical treatment, and treatment of patients in permanent vegetative states. Faithfully Different Simon and Schuster
In "Equipping for Life", Andreas and Margaret Kostenberger seed to re-inspire and enthruse parents in a culture which has greatly diminished the role of parenting. Written with biblical, practical, and realistic wisdom -- and covering all stages of parenting -- this book shows that nothing can compare to nurturing a young life, by God's

grace into mature adulthood.

Why Abortion Harms

Everything and Solves

Nothing P & R Publishing

In *Roe v. Wade*, perhaps the most controversial United States Supreme Court decision, Norma McCorvey fought for and won the right to secure an abortion. Though she never had an abortion, under the pseudonym "Jane Roe," Norma reluctantly became the poster child for the pro-choice movement. Over the next two decades, Norma experienced the

grief and despair of millions of women who chose to abort their babies; she witnessed the destruction of thousands of human lives in abortion clinics where she worked; and the "champion" of the pro-choice movement was soon being crushed by the weight of so much pain, so much death, and so many ill-considered "choices." Finally, she began to break. She found out that the real choice she had been burdened with was not about abortion but about eternal life. It was a choice that

would shock the world and change Norma's life forever.

ABOUT THE AUTHORS

Steve Hammond, MD, FACOG, has been practicing Obstetrics and Gynecology in Jackson, Tennessee, for decades. He is board-certified by the American Board of Obstetricians and Gynecologists, is a Fellow of the American College of Obstetricians and Gynecologists, serves as Medical Director of Clinical Research at The

Jackson Clinic, and has served as the Principal Investigator for scores of clinical trials. During his residency at The Medical College of Georgia, Hammond performed more than 700 abortions. Emily LaBonte, FNP-BC, is a board-certified nurse practitioner working for a large healthcare company in Las Vegas, Nevada. There she serves as a lead on the committee in charge of mentoring new providers hired into the company. LaBonte also is a member of the American Association of

Pro-life Obstetricians and Gynecologists. MORE ADVANCE PRAISE "With grace and truth, the authors bring clarity to the Christian conundrum about abortion." --Lynn Cory is leader of Neighborhood Initiative and author of Neighborhood Initiative and the Love of God "In this challenging and timely book, Hammond and LaBonte point out that more than half of the abortions performed in the United States in a given year are obtained by those who identify

themselves as Christians." --Craig von Buseck, Author and Editor of Inspiration.org "Everyone has been told all we need is love, but what the world really needs is truth. This book forces us to see clearly the decision before all who claim to be followers of Jesus Christ." --Rick Burgess, co-host of The Rick and Bubba Show and New York Times bestselling author and speaker "Through this book, the authors show why the Church must get more involved. We may be able to give diverse

opinions on many issues, but abortion is not one of these issues." --Scott Dawson, former candidate for Governor of Alabama, founder of Strength to Stand Student Conferences, and CEO of Scott Dawson Evangelistic Association, Inc. those who seek to influence the faith of people outside the church. Pastors, Christian educators, life coaches, workplace mentors, college professors, and any Christian who considers their vocation to be one of discipleship will find nourishment in this book. Few resources are designed for personal disciplers—those who connect with other believers on a personal basis with a deep interest in their spiritual growth. This book fills the gap.

This one-of-a-kind resource shows how to disciple others in and for their work. Most “faith and work” books focus on pastors and church programs, or they speak directly to workers. But this resource comes to the aid of those who offer spiritual guidance to working Christians. This guide makes faith-and-work discipleship accessible to anyone who influences the faith of another. With short, readable chapters filled with case studies,

examples, and practical resources, readers will learn how to equip others to fulfill their kingdom purpose in their work. Sample topics include: Principles for Effectively Connecting with Adult Learners Structure for One-on-One Discipleship Meetings Research on Vocational Discipleship and Kingdom-Centered Spiritual Maturity Various Leadership Models Scripture Passages on Being an Image-Bearer Selected Scriptures for Faith and Work Principles
