Scores of talented and dedicated people serve the forensic science community, performing vitally important work. However, they are often constrained by lack of adequate resources, sound policies, and national support. It is clear that change and advancements, both systematic and scientific, are needed in a number of forensic science disciplines to ensure the reliability of work, establish enforceable standards, and promote best practices with consistent application. Strengthening Forensic Science in the United States: A Path Forward provides a detailed plan for addressing these needs and suggests the creation of a new government entity, the National Institute of Forensic Science, to establish and enforce standards within the forensic science community. The benefits of improving and regulating the forensic science disciplines are clear: assisting law enforcement officials, enhancing homeland security, and reducing the risk of wrongful conviction and exoneration. Strengthening Forensic Science in the United States gives a full account of what is needed to advance the forensic science disciplines, including upgrading of systems and organizational structures, better training, widespread adoption of uniform and enforceable best practices, and mandatory certification and accreditation programs. While this book provides an essential call-to-action for congress and policy makers, it also serves as a vital tool for law enforcement agencies, criminal prosecutors and attorneys, and forensic science educators.

165,321 corks 1 boat Most people have childhood dreams; few ever pursue them. At the age of 34, John Pollack quit a prestigious speechwriting job on Capitol Hill to pursue an idea he had harbored since the age of six: to build a boat out of wine corks and take it on an epic journey. In *Cork Boat*, Pollack tells the charming and uplifting story of this unlikely adventure. Overcoming one obstacle after another, he convinces skeptical bartenders to save corks, corrals a brilliant but disorganized partner, and cajoles more than a hundred volunteers to help build the boat, many until their fingers bleed. Hired as a speechwriter for President Clinton midway through construction, Pollack soon has the White House saving corks, too. Ultimately, he and his crew set sail down the Douro River in Portugal, where the boat becomes a national sensation. Written with unusual grace and disarming humor, *Cork Boat* is a buoyant tale of camaraderie, determination, and the power of imagination.
