A feverish vision of McCarthy-era Hollywood...

Night Becomes Day Independently Published

- A highly coveted classic - Written by Frank Norman and abundantly illustrated with Jeffrey Bernard's photos - Candid shots of Soho legends like Muriel Belcher, Gaston Berlemont, Madame Floris and more - Embellished with an introduction by Barry Miles, and Jeffrey Bernard's moving obituary for Frank Norman - An authentic and very personal portrait of Soho in the 1960s "My London is Soho" - Frank Norman For as long as anyone can remember, Soho has been the fluttering heart of London. Its storied pubs, shops, trattorias, gambling dens and nightclubs are every bit as alive as the millions of tourists, locals and crosstown visitors who crowd the streets all year round. People from all walks of life are made and unmade in Soho, and few knew it better than Frank Norman and Jeffrey Bernard. Writers and raconteurs, the pair haunted Soho's establishments for much of their lives. While Bernard was renowned for his Low Life column in the Spectator, these pages collect his photos of the Soho he loved, with insightful commentary from Norman, an acclaimed novelist in his own right. Soho Night & Day is an authentic and very personal portrait of a special time and place, telling the tale of Soho in the '60s. This new edition is embellished with an introduction by Barry Miles, as well as Jeffrey Bernard's moving obituary for Frank Norman.

Is It Night Or Day? New York Review of Books

This deluxe, oversized monograph offers

the most comprehensive collection of Richard Learoyds color studio images to date mostly portraits, but also including a handful of exquisite still lifes. The color images are made with one of the most antiquarian of photographic processes: the camera obscura, literally translated from Latin as dark room. Learoyd has created a room-sized camera in which the Cibachrome photographic paper is exposed. The subject is in the adjacent room, separated by a lens. Light falling on the subject is directly focused onto the photographic paper without an interposing film negative. The result is an entirely grainless image. The overall sense of these larger-than-life images redefines the photographic illusion. Learoyds subjects, composed simply and directly, are described with the thinnest plane of focus, recreating and exaggerating the way that the human eye perceives not without a small acknowledgment to the paintings of the Dutch Masters. The 150 images in this volume have been reproduced with utmost care to capture the luminosity of the original materials. Includes an artist statement by Learoyd and curatorial statement by Martin Barnes, who is organizing the first solo exhibition of the artists work at the Victoria and Albert Museum, London.

In this curious tale, four children, accompanied by their faithful cat, stumble around in the dark and ask, "What's going on when the lights go out?" A lot of imagination and a little bit of science (cue a flashlight and an orange) inspire a creative conclusion. To these young minds, why we have day and night is a big question that can only be answered by one (very hungry) little bug.

The Night Before Valentine's Day

Bloomsbury Publishing

Never trust a faerie... No matter what we say. He hated me, and I hated him. I was perfectly fine with that until one night changed everything. His entire family was murdered before his very eyes--and despite how much I hated him, I couldn't let him die. Now, we're on a mission to hunt down one of the deadliest Elder fae creatures that ever existed. If we fail? All of Asteria could be in danger. If we win? I'll end up working for my enemy.

The moon is bored with his humdrum

nightly duties. He is always around the same old stars in the same old boring sky. Where's the fun in that? The sun could use a change of scenery, too, and so the moon comes up with a brilliant solution—they will swap jobs! When the moon goes to work during the day, he does his best to shine, but he just isn't as bright as the sun. It's too chilly for people to enjoy the beach, and everything is in chaos. The sun doesn't have it any better that night. His rays make it too hot to sleep, which makes people pretty angry. Maybe this trade isn't such a bright idea after all. From author/illustrator Jules Miller comes *When Night Became Day*—a pleasant reminder that we are all born with unique and special abilities. Children and parents alike will enjoy pointing out all the imaginative details in Miller's modern yet folksy illustrations. Day or night, this is a wonderful book to read aloud. How could we leave the only world we had ever known? Parents,

brothers, sisters, grandparents, aunts and uncles and cousins-all were holding hands, clinging to one another, as if they'd never let go. A story that is more relevant than ever, as parents in our war-torn world are forced to rip their families apart and send their children away to safety. It's 1938, and twelve-year-old Edith is about to move from the tiny German village she's lived in all her life to a place that seems as foreign as the moon: Chicago, Illinois. And she will be doing it alone. This dramatic and chilling novel about one girl's escape from Hitler's Germany was inspired by the experiences of the author's mother, one of fourteen-hundred children rescued by Americans as part of the One Thousand Children project. * "This book is an exceptional story of survival and devotion to homeland... This is a wonderful study of the Holocaust in a way that young readers will understand. Highly Recommended." -Library Media Connection "Chapman captures a plucky determination in Edith that readers will find endearing. There is no Cinderella ending for Edith, but the hope...and the honesty in her story make this historical fiction well worth reading." -Publishers Weekly - A Bank Street Best Children's Book of the Year - A YALSA Best Fiction Nominee - A Chicago Public Library Best of the Best - A Junior Library Guild Selection - Booklist's 1000 Best Young Adult Books since 2000 BONUS MATERIALS INSIDE! Why We Have Day and Night Inhabit Media

A major survey including new and celebrated works by Turner Prize-winning artist Chris Ofili. Set to accompany the first major museum show in the United States of contemporary British artist Chris Ofili, this richly illustrated volume surveys two decades of artworks that meld

figuration, abstraction, and decoration to yield hybrid juxtapositions of high and low culture. Best known for intricately constructed works featuring beadlike dots of paint, elephant dung, and images culled from popular media, Ofili's unique lexicon combines African culture, Western art history, and hip-hop music, spanning a wide variety of sources which include the Bible, Zimbabwean cave paintings, Blaxploitation films, and William Blake's poems. Animated by exotic characters, outlandish landscapes, and folkloric myths, Ofili's most recent work resonates with references to the paintings of Henri Matisse and Paul Gauguin. This compelling new book offers a fresh perspective on the artist's vital practice, which both celebrates and calls into question the power of images and their ability to address fundamental questions of representation.

Day for Night Random House

The acclaimed Korean author weaves a "disturbing, beautifully controlled" metaphysical detective story "of doubles, shadows, and parallel worlds" (Financial Times). It's Ayami's final day working the box-office at Seoul's only audio theater for the blind. Her last shift completed, she walks the streets with her former boss, searching for a missing friend. Their conversations take in art, love, food, and the inaccessible country to the north. The next day, Ayami acts as a guide for a detective novelist visiting from abroad. But as they contend with the summer heat, the edges of reality start to fray. Ayami enters a world of increasingly tangled threads, and the past intrudes upon the present as overlapping realities repeat, collide, change, and reassert themselves. Blisteringly original, *Untold Night and Day* upends the very structure

of narrative storytelling. By one of the boldest and most innovative voices in contemporary Korean literature, and masterfully realized in English by Man Booker International Prize-winning translator Deborah Smith, Bae Suah's hypnotic novel asks whether more than one version of ourselves can exist at once.

Day and Night Big and SMALL

"One can rarely read or hear commentary on art, popular culture, society, literature, or politics these days without being confronted by the mysterious term 'postmodern.' Unlike any other artistic, critical, or philosophical movement in history, postmodernism has come charging out of the ivory tower and into the minds and mouths of the public. The postmodern lens is now the one through which we all are expected to be able to view the world, but how many of us know what this really means? The tenets of postmodernism are much more than a trendy system of thought or an academic dialogue. Rather, they offer practical tools for coming to terms with a world composed of vast amounts of unsettling information, daily interactions with unfamiliar cultures and beliefs, and a continuous and overwhelming set of choices. [This book] is a stimulating and accessible exploration of the complexities of postmodern thought--

constructivism, deconstruction, irony, pluralism, multiculturalism--as diverse as the world it describes. Readers will discover the roots of postmodernism, what it does to cultural symbols and differences, and how it affects psychology, religion, and science in essays both profoundly serious and thoroughly entertaining. [The editor]

acts as a guide to this difficult terrain by leading readers through each essay, describing new and provocative ideas in detail, dispelling confusion, and, most important, showing what this thinking has to offer everyone. [This book] is an indispensable handbook for the new cultural literacy of our emerging postmodern world"--
