The Art of Ballet Cornell University Press
FOOD ETHICS, 2E explores the ethical

choices we make each time we eat. With twenty-six readings that bring together a diverse group of voices, this textbook dives into issues such as genetically modified foods, animal rights, population and consumption, the food industry's impact on pollution, centralized versus localized production, and more. In addition, this edition includes new introduction, new readings, a comprehensive index, and study questions that frame these significant issues for discussion and reflection. Important

America's History Sheba Blake Publishing
"There is a plethora of policy books on the market, but none illustrate the steps in the policy process better than this one. The high caliber editors and contributors, all of whom have been involved in policy work, bring years of experience to illustrate the

key points... This publication is timely as the shift in healthcare requires input from all health professionals, but especially nurses who are at the frontline of healthcare change and delivery. This outstanding resource will help motivate many more nurses to get involved in the policy process... Weighted Numerical Score: 93 - 4 Stars!"--Doody's Medical Reviews Written by those in the know--exceptional nurse leaders in practice, education, and politics--this is a practical, "how-to" book written to help advanced students and nurse leaders develop health policy skills to advocate for patients from the bedside to the larger political arena. Co-published with the American Nurses Association (ANA), the book examines the pivotal role of nurses' involvement in health policy and describes the requisite steps for facilitating policy change--from understanding the political system through activating a plan and beyond. It features the voices of a wide variety of nurse leaders who discuss policy work both locally and nationally through descriptive case histories. The book discusses those qualities and skill sets that are needed for advocacy at the bedside

and other arenas where health policy is determined. It examines the political system and opportunities for nurse involvement, and clarifies the process of identifying issues that need a policy solution. Because citing research is an integral component of health policy solutions, the book describes how research can be used to strengthen policy initiatives. The book guides the reader step by step through the process of creating a work plan and describes the resources needed to accomplish policy change. Activating an action plan and strategies for working with the media are covered, along with the process of taking a leadership role, evaluating outcomes, using policy to eliminate health inequities, and maintaining and expanding momentum. Woven throughout the book are the major themes of ethics, leadership, safety, and the quest for quality of care. The text provides information and perspectives relevant to the American Association of Colleges of Nursing (AACN) doctor of nursing practice (DNP) Essentials, and includes multimedia electronic links to resources (podcasts, online articles, social network resources,

and key political websites) that promote policy research and leadership development. KEY FEATURES: Delineates the steps to becoming a policy advocate in organizational, educational, and political settings Written by noted nurse leaders who describe policy work locally and nationally Presents competencies for nursing policy work derived from the AACN DNP Essentials Focuses throughout on themes of ethics, leadership, quality, and safety Facilitates web use for policy research and development Ancillary materials from the editors are available *Nurses Making Policy* Routledge This book examines the peculiar new worlds of the Five Nations of the Iroquois, the Dutch, and the French, who shared cultural frontiers in seventeenth-century America. Viewing early America from the different perspectives of the diverse peoples who coexisted uneasily during the colonial encounter between Europeans and Indians, he explains a long-standing paradox: the apparent belligerence of the Five Nations, a people who saw themselves as promoters of universal peace. In a radically new interpretation of the Iroquois, Dennis argues that the Five

Nations sought to incorporate their new European neighbors as kinspeople into their Longhouse, the physical symbolic embodiment of Iroquois domesticity and peace. He offers a close, original reading of the fundamental political myth of the Five Nations, the Deganawidah Epic, and situates it historically and ideologically in Iroquois life. Detailing the particular nature of Iroquois peace, he describes the Five Nations' diligent efforts to establish peace on their own terms and the frustrations and hostilities that stemmed from the fundamental contrast between Iroquois and European goals, expectations, and perceptions of human relationships.

[A Traveller's Observations on Cotton and Slavery in the American Slave States. Based Upon Three Former Volumes of Journeys and Investigations ...](#) Oxford University Press

It was a contest of titans: John Adams and Thomas Jefferson, two heroes of the Revolutionary era, once intimate friends, now icy antagonists locked in a fierce battle for the future of the United States. The election of 1800 was a thunderous clash of a campaign that climaxed in a deadlock in the Electoral College and led

to a crisis in which the young republic teetered on the edge of collapse. Adams vs. Jefferson is the gripping account of a turning point in American history, a dramatic struggle between two parties with profoundly different visions of how the nation should be governed. The Federalists, led by Adams, were conservatives who favored a strong central government. The Republicans, led by Jefferson, were more egalitarian and believed that the Federalists had betrayed the Revolution of 1776 and were backsliding toward monarchy. The campaign itself was a barroom brawl every bit as ruthless as any modern contest, with mud-slinging, scare tactics, and backstabbing. The low point came when Alexander Hamilton printed a devastating attack on Adams, the head of his own party, in "fifty-four pages of unremitting vilification." The stalemate in the Electoral College dragged on through dozens of ballots. Tensions ran so high that the Republicans threatened civil war if the Federalists denied Jefferson the presidency. Finally a secret deal that changed a single vote gave Jefferson the White House. A devastated Adams left

Washington before dawn on Inauguration Day, too embittered even to shake his rival's hand. With magisterial command, Ferling brings to life both the outsize personalities and the hotly contested political questions at stake. He shows not just why this moment was a milestone in U.S. history, but how strongly the issues--and the passions--of 1800 resonate with our own time.

American Pageant Simon and Schuster
Featuring detailed illustrations, *The Art of Ballet* teaches readers about the history of ballet in Italy. While most think of Russia when they think of ballet, Italy has a long history with the art. It is actually believed that the earliest predecessor of classical ballet was practiced in the courts of Italy during the Renaissance before the performances became popular in France. This ballet was very different from the dancing we see today. Tutus, ballet slippers and dancing en pointe was not yet popular. Instead, the dance steps were altered from those practiced in traditional ballroom settings.

Brinkley's American History, a comprehensive U.S. History program,

transforms the learning experience through proven, adaptive technology helping students better grasp the issues of the past while providing instructors greater insight on student performance. Known for its clear, single voice and balanced scholarship, Brinkley asks students to think historically about the many forces shaping and re-shaping our dynamic history. Connect is the only integrated learning system that empowers students by continuously adapting to deliver precisely what they need, when they need it, and how they need it, so that your class time is more engaging and effective.

Teaching to Learn, Learning to Teach Arms & Armour

Includes the "AP Advantage 3-Step Solution, 1 Platform" formula for learning. Present at the Creation Perfection Learning

This is one of the most significant military books of the twentieth century. By an outstanding soldier of independent mind, it pushed forward the evolution of land warfare and was directly responsible for German armoured supremacy in the early years of the Second World War. Published

in 1937, the result of 15 years of careful study since his days on the German General Staff in the First World War, Guderian's book argued, quite clearly, how vital the proper use of tanks and supporting armoured vehicles would be in the conduct of a future war. When that war came, just two years later, he proved it, leading his Panzers with distinction in the Polish, French and Russian campaigns. Panzer warfare had come of age, exactly as he had forecast. This first English translation of Heinz Guderian's classic book - used as a textbook by Panzer officers in the war - has an introduction and extensive background notes by the modern English historian Paul Harris.

War, and Other Essays Cengage Learning

For twenty years in the eighteenth century, Georgia--the last British colony in what became the United States--enjoyed a brief period of free labor, where workers were not enslaved and were paid. The Trustees for the Establishment of the Colony of Georgia created a "Georgia experiment" of philanthropic enterprise and moral reform for poor white workers, though rebellious settlers were more

interested in shaking off the British social system of deference to the upper class. Only a few elites in the colony actually desired the slave system, but those men, backed by expansionist South Carolina planters, used the laborers' demands for high wages as examples of societal unrest. Through a campaign of disinformation in London, they argued for slavery, eventually convincing the Trustees to abandon their experiment. In *The Short Life of Free Georgia*, Noeleen McIlvenna chronicles the years between 1732 and 1752 and challenges the conventional view that Georgia's colonial purpose was based on unworkable assumptions and utopian ideals. Rather, Georgia largely succeeded in its goals--until self-interested parties convinced England that Georgia had failed, leading to the colony's transformation into a replica of slaveholding South Carolina.

The Tumultuous Election of 1800 UNC Press Books

THE AMERICAN PAGEANT enjoys a reputation as one of the most popular, effective, and entertaining texts on American history. The colorful anecdotes, first-person quotations, and trademark wit

bring American history to life. The 16th edition includes a major revision of Part Six (the period from 1945 to the present), reflecting recent scholarship and providing greater thematic coherence. The authors also condensed and consolidated material on the Wilson presidency and World War I (formerly Chapters 29 and 30) into a new single chapter. A new feature, "Contending Voices," offers paired quotes from original historical sources, accompanied by questions that prompt students to think about conflicting perspectives on controversial subjects. Additional pedagogical aids make THE AMERICAN PAGEANT accessible to students: part openers and chapter-ending chronologies provide a context for the major periods in American history, while other features present additional primary

sources, scholarly debates, and key historical figures for analysis. Available in the following options: THE AMERICAN PAGEANT, Sixteenth Edition (Chapters 1–41); Volume 1: To 1877 (Chapters 1–22); Volume 2: Since 1865 (Chapters 22–41). Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

American History: Connecting with the Past The American Pageant

USAs historie indtil 1996

Class and Slavery in the Colonial South W. Norton & Company

This hugely influential work marked a turning point in US history and culture, arguing that the nation's expansion into the Great West was directly linked to its unique spirit: a rugged individualism forged at the juncture between civilization

and wilderness, which – for better or worse – lies at the heart of American identity today. Throughout history, some books have changed the world. They have transformed the way we see ourselves – and each other. They have inspired debate, dissent, war and revolution. They have enlightened, outraged, provoked and comforted. They have enriched lives – and destroyed them. Now Penguin brings you the works of the great thinkers, pioneers, radicals and visionaries whose ideas shook civilization and helped make us who we are.

The Significance of the Frontier in American History Cengage Learning

Discusses the rise of American conservatism, the role of the Christian Right, and its agenda for transforming the nation
