Learn to observe the world more deeply—with curiosity, empathy, and joy—as you sketch the stories unfolding all around you. In *Drawn on the Way*, Sarah Nisbett shares her techniques for

creating captivating line drawings that capture the moments and moods that you encounter on the train, in a café, outdoors, anywhere: a young woman lost in thought, a pair of hands clasped on a lap, a peppy beagle, a pair of jeans-clad crossed legs. Sarah invites you to see the people, animals, places, and objects you draw with compassionate curiosity—as more than a stranger or inanimate object, but as someone or something with a story worth knowing or imagining. Even if you are inexperienced at drawing or don't consider yourself an artist, you can learn how to create sketches from start to finish employing techniques such as contour drawing, using line work to add texture, and adding spot color—and discover how each sketch tells a story. You'll begin to focus on important details that reveal something about the subject you're drawing: the graceful drape of a hand over a purse, the shy way someone tucks their feet underneath them. As you unplug, set aside perfectionism, and explore the world through drawing, you'll learn: How to translate what you see into a compelling drawing How to silence your inner critic and find joy in drawing what captures your interest Techniques for drawing figures and creating quick portraits How to find the emotion in objects by asking questions How to draw scenes and backgrounds without becoming overwhelmed How to quickly and expressively render the natural world, including plants and animals How key details can take a sketch from plain to captivating Ways to find the extraordinary in the everyday How to transform mistakes into likeable elements Tips for becoming a visual storyteller Life lessons learned from years of live drawing We spend most of our lives on the way, rushing and running from place to place, task to task. When we have a spare minute, we usually reach for our phones and shut everything else out. The techniques, projects, and ideas in *Drawn on the Way* are designed to help you be more mindful about drawing, to capture the people, places, and things you encounter each day. By doing that, you'll connect with humanity in a deeper, more meaningful way—and discover a lot about yourself.

Everyday Sketching and Drawing offers an easy-to-follow, 5-step formula, which teaches beginner-friendly techniques for learning the skills necessary to make drawing and sketching an everyday habit. For those who have always wanted to or tried and failed to learn to draw it provides simple step-by-step instruction, plus easy-to-follow practice exercises, and provides the motivation and inspiration readers need to be successful. For those who already draw, *Everyday Sketching and Drawing* offers another technique to add to their drawing arsenal. Why do so many adults come to view drawing as difficult or fraught with anxiety? Traditional art instruction is often bogged down with jargon, rules, and admonishments that unintentionally stifle the joy of drawing for its own sake. Steven Reddy's new and easy approach to drawing instructs sketchers to document their unique and compelling lives in realistic yet playful sketches that record the places, spaces, and objects that help define them as individuals. He reminds artists to slow down, notice, and attend to the sketch-worthy scenes and subjects that are unstaged and always there in our everyday lives. He offers a versatile technique that can lead to a skill that fills sketchbooks with the visual details that differentiate one life from another. This approach is a meditative, relaxing alternative to academic concerns about perspective, proportion, and accuracy. Reddy encourages artists to capture in whimsical but detail-specific illustrations their unique, subjective interpretation of their visual surroundings. Steven Reddy's drawing method produces extremely detailed and realistic scenes of objects and scenes in everyday life in a relatively short period of time (60 minutes to 3 hours or more, depending on the sketcher's preference). Modifying a technique utilized by Old

Master oil painters, the drawings pass through 5 clearly articulated stages where each step focuses on one visual concept at a time.
