The study of string instruments should include ensemble playing at the earliest possible stage. There is much to be gained from the playing of duets. Each player learns how to listen to the other,

and in a short time develops an awareness of balance, musical phrasing, intonation, and tone quality. This type of training is excellent preparation for participation in large groups. These four volumes of duets for two violins will help fill the need for early ensemble experience in the public schools. They should be used in string classes as a supplement to any of the standard string methods. They will also encourage music making outside of the school, with parents or with other students. These duets are ideal for recitals in the public schools and in public school festivals. They may be played by two performers, or by multiple performers on each part, with or without piano accompaniment. *Elton John (Songbook)* Mel Bay Publications

Irish Tunes Hal Leonard Corporation This book/CD set is the first method ever for learning Gypsy Jazz Violin in the style of Stéphane Grappelli. Have you, too, often listened to Grappelli's solos thinking "I wish I could do that, but it is way over my head?" Here is the answer. Simple theory, licks and stylistic lessons point you towards your first authentic Gypsy Jazz improvisations, which you can try out with the swinging guitar-bass

playalong CD rhythm section. Then prepare to tackle six classic Stéphane Grappelli solos, annotated and analyzed for your understanding. To grasp the finesses of sound and timing, there are many sample licks and solos by Tim Kliphuis on the CD as well. It is assumed the student reads music and has a basic command of the instrument. •

101 Hit Songs Hal Leonard Corporation Jazz Viola Wizard Junior 2 is a continuation of Jazz Viola Wizard Junior (Mel Bay, 2002) and is designed for upper middle school and high school string students. JWJr 2 uses the same basic approach as JWJr; students learn mainly through imitation, the same way

we learn to speak our native tongue. It also introduces very easy optional chord theory but only AFTER the student has experienced improvising with chords aurally. the books come in three versions—violin, viola, and cello/bass—designed to be used together in studio and classroom situations. This volume introduces three basic concepts that are prerequisites to advanced jazz improvising: solo development, modes, and inner melodies - the single most potent technique to get students to improvise on advanced progressions immediately.
