Symbols of  
the Sacred

Princeton  
University  
Press  
A fascinating  
insight into  
the origins of

ancient signs and symbols and how to harness their power to benefit your life.

**Symbology**  
Turtleback Books  
From ancient hieroglyphs to modern-day graffiti, discover the secrets, origins and meanings of over 2,000 signs and symbols The world around us is filled with signs and symbols. Modern signs like alphabets and flags are universally recognisable, whereas many symbols of

ancient derivation are hard to decipher. Explore the fascinating origins and meanings of the signs and symbols people have used over the centuries and discover how they have been interpreted in myth, religion, folklore, art and contemporary culture. Find out why a flag at half-mast is a symbol of mourning, why a heart pierced by an arrow is a symbol of love and the ancient roots

of fertility symbols. Complete Dictionary of Symbols Princeton University Press  
Ancient Mesopotamia was a highly complex culture whose achievements included the invention of writing. This illustrated text offers a reference guide to Mesopotamian religion, mythology and magic between about 3000 BC and the advent of the Christian era. Gods, goddesses,

demons, monsters, magic, myths, religious symbolism, rituals and the spiritual world are all discussed in alphabetical entries ranging from short accounts to extended essays.

*Dictionary of Symbols, Myths & Legends*  
 Courier Corporation  
 Symbolic Mythology is the essential guide to understanding the myths of the classical world. Through the author's unique mix of

scholarly analysis and exciting storytelling, the divine, the heroic, and the monstrous become easily accessible to everyone from the casual reader to the serious student of myth.

Revelations abound in this original, entertaining, and enlightening study of the myths of ancient Greece and Rome.

**Dictionary of Symbols, Myths and Legends**  
 Harper Collins  
 This study

interprets for the Western mind the key motifs of India's legend, myth and folklore, taken directly from the Sanskrit. It seeks to make the profound Hindu and Buddhist intuitions on the riddles of life and death recognizable not merely as Oriental but as universal elements.  
*Myths and Symbols in Pagan Europe*  
 Syracuse University Press  
 Mircea Eliade--one of the most renowned expositors of

the psychology of religion, mythology, and magic-- shows that myth and symbol constitute a mode of thought that not only came before that of discursive and logical reasoning, but is still an essential function of human consciousness . He describes and analyzes some of the most powerful and ubiquitous symbols that have ruled the mythological thinking of East and West

in many times and at many levels of cultural development. Signs & Symbols Berghahn Books A timeless classic. **Myths & Symbols of Vedic Astrology** Hachette Illustrated UK Covering classical and other mythologies, biblical themes and the world of traditional symbols from cultures worldwide, this is a guide to more than 2000 major themes,

figures and symbols that have been most commonly encountered from ancient times to the present day. *Myths and symbols* Oxford, England ; Santa Barbara, Calif. : ABC-CLIO This classic study remains the best single introduction to the Egyptian mythological world. The Egyptians lived apart from the rest of the ancient world, and it is this isolation that makes their ideas so difficult to

appreciate and interpret. Egyptian though was presented in terms of mythology: myth was used to convey insights into the workings of nature and the ultimately indescribable realities of the soul ...

*Myths and Symbols in Indian Art and Civilization*  
Cambridge, Mass. : Harvard University Press  
Describes the origins, history, and meaning of a variety of signs and

symbols that appear in art, literature, mythology, and religion, covering more than two thousand symbols, figures, and themes and drawing from classical myth, biblical text, and other t

Myth and Symbol

HarperCollins Publishers  
This new edition of Chiron's popular guide to the meaning of symbols in religion, archaeology, mythology, art, dreams, fairy tales, and literature

contains more than 1,000 entries from all over the world, revealing an abundance of the types of human symbolic thinking. Formerly titled *The Herder Symbol Dictionary*. Over 450 illustrations.

**The Myths of the New World: a Treatise on the Symbolism and Mythology of the Red Race of America**

Wm. B. Eerdmans Publishing  
Most people know of

Valhalla, the World-Tree and the gods of Norse mythology, or the strange hunts and voyages of the ancient Irish tales. Yet few people realise the significance of the similarities and contrasts between the religions of the pre-Christian people of north-western Europe. The Celts and Germans and Scandinavians had much in common in their religious practices and beliefs, and this is the first serious

attempt that has been made to compare them. There are striking resemblances in their ideas about battle-goddesses and protective spirits, holy places, sacrificial rituals, divination and ideas about the Other World; and Myths and Symbols in Pagan Europe poses questions like: do such parallels go back to early times or are they owing to late Viking contact? Hilda Ellis Davidson

has worked for many years on pre-Christian Scandinavian and Germanic religion and now compares them with the Celts from the background of previous studies, using evidence from archaeology, iconography, later literature and folklore, in a search for basic patterns which will add to our knowledge of the early peoples in Europe. Aimed at teachers and libraries but also accessible to students of history, religion and

Celtic, Norse and German languages and cultures.

*Symbolic and Mythological Animals*

iUniverse

"I am the rose of Sharon, and the lily of the valley. As the lily among thorns, so is my love among the daughters," declares Solomon in the Song of Songs.

Flowers have played a vital role as vehicles of expression since time immemorial. As a declaration of love or as a

gesture of thanks, as a means of expressing sympathy or of congratulating , flowers are often the most eloquent and direct means of communication. The fascinating history of the symbolism of flowers is presented and explained here in all its facets with entertaining texts and details of beautiful works of art." "The author outlines the mythology of flowers in the ancient and

early Christian worlds and explains their special significance for love and marriage, in customs and festivals and the use of flowers as status symbols, as symbols of seasons of the year or as metaphors of human qualities. Thirty-five beautiful depictions of flowers taken from the Renaissance and Baroque periods are reproduced as full-page illustrations accompanied by descriptive

texts which analyse their symbolism, mythological importance, use and meaning in our present times."--BOOK JACKET.Title Summary field provided by Blackwell North America, Inc. All Rights Reserved

Scarecrow Press  
Symbology: Decoding Symbols through History is the foundation for

many books, classes, and seminars by symbologist Michelle Snyder on the subject of symbols, myths, and folklore. Within the context of comprehensive historic time-lines, Michelle compares images from prehistory to those used in contemporary societies and decodes their meaning. Discovering their origins reveals much about our past that is not evident in more conventional

writings. Featuring translations of ice age language by Dr. Robert Duncan-Enzmann, Michelle connects contemporary, esoteric, and occult symbols to lost civilizations of millennia ago. Oral tradition has left us rich sources of history, preserved as folklore, myths, and legends, and Snyder uses the symbols of yesteryear to find treasures in the stories of our misty past and bring

them to light, adding much to our knowledge of the past while enlightening us about our present. Complete with index, footnotes, bibliography, charts, and illustrations, this academic work contains the resources and methods used by The Symbologist to uncover secrets of prehistory and the meanings of its mysterious images, and the purpose of megalithic structures still visible today around the

globe. Our vision for the future is influenced by our perception of today, and our perception of today is affected by our understanding of yesterday. Symbols tell us much that has been lost or destroyed through time, and reveal intelligent, resourceful ancestors who survived ice ages and left us a legacy of knowledge in oral tradition and symbols. Through these enigmatic images we can learn about our past

to build a better future. *The Complete Dictionary of Symbols* British museum Press This dictionary is a topical dictionary of Greek and Roman mythology. **Mythology and Symbols (Symbols of Goddess and Fertility).** Duncan Baird Publishers Symbolism is the most powerful and ancient means of communication available to humankind. For centuries people have expressed their

preoccupation  
s and  
concerns  
through  
symbolism in  
the form of  
myths, stories,  
religions, and  
dreams. The  
meaning of  
symbols has  
long been  
debated  
among  
philosophers,  
antiquarians,  
theologians,  
and, more  
recently,  
anthropologist  
s and  
psychologists.  
In Ariadne's  
Clue,  
distinguished  
analyst and  
psychiatrist  
Anthony  
Stevens  
explores the  
nature of  
symbols and

explains how  
and why we  
create the  
symbols we  
do. The book  
is divided into  
two parts: an  
interpretive  
section that  
concerns  
symbols in  
general and a  
"dictionary"  
that lists  
hundreds of  
symbols and  
explains their  
origins, their  
resemblances  
to other  
symbols, and  
the belief  
systems  
behind them.  
In the first  
section,  
Stevens takes  
the ideas of C.  
G. Jung a  
stage further,  
asserting not  
only that we

possess an  
innate  
symbol-  
forming  
propensity  
that exists as  
a creative and  
integral part  
of our psychic  
make-up, but  
also that the  
human mind  
evolved this  
capacity as a  
result of  
selection  
pressures  
encountered  
by our species  
in the course  
of its  
evolutionary  
history.  
Stevens  
argues that  
symbol  
formation has  
an adaptive  
function: it  
promotes our  
grasp on  
reality and in

dreams often corrects deficient modes of psychological functioning. In the second section, Stevens examines symbols under four headings: "The Physical Environment," "Culture and Psyche," "People, Animals, and Plants," and "The Body." Many of the symbols are illustrated in the book's rich variety of woodcuts. From the ancient symbol of the serpent to the archetypal masculine and

feminine, from the earth to the stars, from the primordial landscape of the savannah to the mysterious depths of the sea, Stevens traces a host of common symbols back through time to reveal their psychodynamic functioning and looks at their deep-rooted effects on the lives of modern men, women, and children.

Gods, Demons and Symbols of Ancient Mesopotamia  
Thames & Hudson  
Provides an inventory of

symbols from various cultures, including the symbolism in art, literature, dreams, and numbers.

### **Images and Symbols**

Prestel Publishing  
A system of myths, symbols, and rituals, dating back to the Paleolithic and Neolithic, survives in present-day imagery. In exploring this system, special attention is drawn to the linkage between ancient and contemporary civilizations of

Eurasia and Mesoamerica, as seen in their cosmology, and expressed in common mythological and iconographic themes. The author examines contemporary Middle American and eastern European textiles, especially women's garments, that contain an elaborated sacred code of symbols, and include remnants of the four horizontal directions, and the three

vertical worlds that portray the structure of the universe. The cosmology contained in patterns around the world denotes striking parallels that attest to internal connections between different cultures, beyond time and place.
