"Today's

fiction is
increasingly
populated by
multilingual
urban
societies in all

their rich cultural variety," contends Bernard Botes Krüger, making a persuasive case that "readers need to 'hear' authentic sounding dialogue from the mouths of foreign-language characters- something which mere translations into standard English can never adequately accomplish." The concept of foreign-language dialogue in fiction is not new; many

accomplished authors of the past have used a variety of subtle techniques to help their readers understand instances of 'foreign' dialogue. However, those techniques have never been thoroughly isolated and examined- until now. Using Britain's 'Colonial Era' literature as a starting point in this work, the author discusses and systematically categorizes every type of 'device' used

in the past, assembling in the process a veritable toolbox of techniques which aspiring writers can implement to enrich their multilingual dialogue. *The Heroism and Tragedy of the Zulu War of 1879* Stanford University Press This book tells the story of one of the largest and most influential African churches in South Africa. *Zulu* Penguin UK Examines indigenous

oral traditions and histories in order to explain the factors propelling sociopolitical consolidation and the emergence of chiefdoms and kingdoms in nineteenth-century southeastern Africa.

In August

2004, South

Africa officially

legalized the

practice of

traditional

healers.

Largely in

response to

the HIV/AIDS

pandemic, and limited both by the number of practitioners and by patients' access to treatment, biomedical practitioners looked toward the country's traditional healers as important agents in the development of medical education and treatment.

This collaboration has not been easy. The two medical cultures embrace different ideas about the body and the origin of

illness, but they do share a history of commercial and ideological competition and different relations to state power.

Healing Traditions: African Medicine, Cultural Exchange, and Competition in South Africa, 1820-1948 provides a long-overdue historical perspective to these interactions and an understanding that is vital for the development of medical strategies to

effectively deal with South Africa's healthcare challenges. Between 1820 and 1948 traditional healers in Natal, South Africa, transformed themselves from politically powerful men and women who challenged colonial rule and law into successful entrepreneurs who competed for turf and patients with white biomedical doctors and pharmacists. To understand what is "traditional"

about traditional medicine, Flint argues that we must consider the cultural actors not commonly associated with African therapeutics: white biomedical practitioners, Indian healers, and the implementing of white rule. Carefully crafted, well written, and powerfully argued, Flint's analysis of the ways that indigenous medical knowledge and therapeutic practices were forged,

contested, and transformed over two centuries is highly illuminating, as is her demonstration that many "traditional" practices changed over time. Her discussion of African and Indian medical encounters opens up a whole new way of thinking about the social basis of health and healing in South Africa. This important book will be core reading for classes and future scholarship on

health and healing in South Africa. Things Fall Apart Clarendon Press In the mid-1970s, the Cold War had frozen into a nuclear stalemate in Europe and retreated from the headlines in Asia. As Gerald Ford and Jimmy Carter fought for the presidency in late 1976, the superpower struggle overseas seemed to take a backseat to more contentious domestic

issues of race relations and rising unemployment. There was one continent, however, where the Cold War was on the point of flaring hot: Africa. Jimmy Carter in Africa opens just after Henry Kissinger's failed 1975 plot in Angola, as Carter launches his presidential campaign. The Civil Rights Act was only a decade old, and issues of racial justice remained contentious. Racism at home

undermined Americans' efforts to "win hearts and minds" abroad and provided potent propaganda to the Kremlin. As President Carter confronted Africa, the essence of American foreign policy—stopping Soviet expansion—slammed up against the most explosive and raw aspect of American domestic politics—racism. Drawing on candid interviews with Carter, as well as key

U.S. and foreign diplomats, and on a dazzling array of international archival sources, Nancy Mitchell offers a timely reevaluation of the Carter administration and of the man himself. In the face of two major tests, in Rhodesia and the Horn of Africa, Carter grappled with questions of Cold War competition, domestic politics, personal loyalty, and decision-making style.

Mitchell reveals an administration not beset by weakness and indecision, as is too commonly assumed, but rather constrained by Cold War dynamics and by the president's own temperament as he wrestled with a divided public and his own human failings. Jimmy Carter in Africa presents a stark portrait of how deeply Cold War politics and racial justice were intertwined.

The Secret Cambridge University Press
In 1914, Haggard, the author of colonialist novels *King Solomon's Mines* and *She* returned to a South Africa which had greatly changed since the first visits of his youth. This account of his journey as a member of the British Empire's Dominions Royal Commission offers observations on the changed nature of the country after

the Anglo-Boer wars and details a number of aspects of the political landscape, including a description of his interview with the founder of the African National Congress, John Dube. c. Book News Inc.

Poole's Index to Periodical Literature

Healing Traditions African Medicine, Cultural Exchange, and Competition in South Africa, 1820-1948
This book compares the

nineteenth-century settler literatures of Australia, Canada, South Africa, and the United States in order to examine how they enable readers to manage guilt accompanying European settlement. Reading canonical texts such as Last of the Mohicans and Backwoods of Canada against underanalyzed texts such as Adventures in Canada and George Linton or the First Years of a British Colony, it

demonstrates how tropes like the settler hero and his indigenous servant, the animal hunt, the indigenous attack, and the lost child cross national boundaries. Settlers similarly responded to the stressors of taking another's land through the stories they told about themselves, which functioned to defend against uncomfortable feelings of guilt and ambivalence by creating new versions

of reality. This book traces parallels in 20th and 21st century texts to ultimately argue that contemporary settlers continue to fight similar psychological and cultural battles since settlement is never complete.

African Medicine, Cultural Exchange, and Competition in South Africa, 1820-1948
Frontline Books
Robert J. Houle examines the history of faith among colonial Zulu

Christians (known as amaKholwa,) in what would become South Africa, arguing that Africans successfully naturalized Christianity. Houle believes that before the religion could take hold, several aspects of Christianity needed to be "translated" to fill critical gaps between existing African beliefs and Christian tradition. This dual identity was difficult to reconcile through much of Zulu Christian history, but

ultimately transformed both the Zulu Christians and their adopted faith

My Seditious Heart NYU Press
This 1913 work by an expert on Zulu customs and history describes the 1906 revolt in Natal against British rule.

Stories from a South African Childhood NYU Press
#1 NEW YORK TIMES BESTSELLER • More than one million copies sold! A "brilliant" (Lupita Nyong'o, Time),

“poignant” (Entertainment Weekly), “soul-nourishing” (USA Today) memoir about coming of age during the twilight of apartheid “Noah’s childhood stories are told with all the hilarity and intellect that characterizes his comedy, while illuminating a dark and brutal period in South Africa’s history that must never be forgotten.”—Esquire Winner of the Thurber Prize for

American Humor and an NAACP Image Award • Named one of the best books of the year by The New York Times, USA Today, San Francisco Chronicle, NPR, Esquire, Newsday, and Booklist Trevor Noah’s unlikely path from apartheid South Africa to the desk of The Daily Show began with a criminal act: his birth. Trevor was born to a white Swiss father and a black Xhosa mother at a time when

such a union was punishable by five years in prison. Living proof of his parents’ indiscretion, Trevor was kept mostly indoors for the earliest years of his life, bound by the extreme and often absurd measures his mother took to hide him from a government that could, at any moment, steal him away. Finally liberated by the end of South Africa’s tyrannical white rule, Trevor and his mother set

forth on a grand adventure, living openly and freely and embracing the opportunities won by a centuries-long struggle. Born a Crime is the story of a mischievous young boy who grows into a restless young man as he struggles to find himself in a world where he was never supposed to exist. It is also the story of that young man's relationship with his fearless, rebellious, and fervently

religious mother—his teammate, a woman determined to save her son from the cycle of poverty, violence, and abuse that would ultimately threaten her own life. The stories collected here are by turns hilarious, dramatic, and deeply affecting. Whether subsisting on caterpillars for dinner during hard times, being thrown from a moving car during an attempted kidnapping, or just trying to

survive the life-and-death pitfalls of dating in high school, Trevor illuminates his curious world with an incisive wit and unflinching honesty. His stories weave together to form a moving and searingly funny portrait of a boy making his way through a damaged world in a dangerous time, armed only with a keen sense of humor and a mother's unconventional, unconditional love.

British Imperialism and South African Resistance in Haggard, Schreiner, and Plaatje

Ohio

University

Press

In the winter of 1922-23 archaeologist Howard Carter and his wealthy patron George Herbert, the Fifth Earl of Carnarvon, sensationally opened the tomb of Tutenkhamen. Six weeks later Herbert, the sponsor of the expedition, died in Egypt.

The popular press went wild with rumours of a curse on those who disturbed the Pharaoh's rest and for years followed every twist and turn of the fate of the men who had been involved in the historic discovery.

Long dismissed by Egyptologists, the mummy's curse remains a part of popular supernatural belief. Roger Luckhurst explores why the myth has captured the British imagination across the

centuries, and how it has impacted on popular culture. Tutankhamen was not the first curse story to emerge in British popular culture. This book uncovers the 'true' stories of two extraordinary Victorian gentlemen widely believed at the time to have been cursed by the artefacts they brought home from Egypt in the nineteenth century. These are weird and wonderful stories that

weave together a cast of famous writers, painters, feted soldiers, lowly smugglers, respected men of science, disreputable society dames, and spooky spiritualists. Focusing on tales of the curse myth, Roger Luckhurst leads us through Victorian museums, international exhibitions, private collections, the battlefields of Egypt and Sudan, and

the writings of figures like Arthur Conan Doyle, Rider Haggard and Algernon Blackwood. Written in an open and accessible style, this volume is the product of over ten years research in London's most curious archives. It explores how we became fascinated with Egypt and how this fascination was fuelled by myth, mystery, and rumour. Moreover, it provides a new and startling path

through the cultural history of Victorian England and its colonial possessions. *Mfecane Aftermath* Africa Book Centre (Miscellaneous Titles) Okonkwo is the greatest warrior alive, famous throughout West Africa. But when he accidentally kills a clansman, things begin to fall apart. Then Okonkwo returns from exile to find missionaries and colonial governors have arrived

in the village. With his world thrown radically off-balance he can only hurtle towards tragedy. Chinua Achebe's stark novel reshaped both African and world literature. This arresting parable of a proud but powerless man witnessing the ruin of his people begins Achebe's landmark trilogy of works chronicling the fate of one African community, continued in

Arrow of God and No Longer at Ease.

The Rise and Fall of the Zulu Kingdom in the Nineteenth Century

Simon and Schuster The Anglo-Zulu War of 1879 still intrigues both scholars and enthusiasts alike more than 130 years after it was fought. Its story contains tragedy, high drama and the heavy loss of human life; it involved five major battles and two lesser fights; and led to the snuffing

out of the direct male Napoleonic line of France. And all this in less than one year.??Reflecting on several years' research, Keith Smith presents a series of essays which explore hitherto unanswered questions and offer fresh insights into the key battles and protagonists of this epic conflict. He presents some surprising conclusions which differ, often radically, from more orthodox

views.??He also sets out to reveal the characters of the men □ of both sides □ who might otherwise have been simply names on a page. They are not: they lived, loved, fought and died. Some were heroes while others were less than that. Most were ordinary men who chose a military career and did their best as far as they were able. White or black, British or colonial, they are all brought to life and their

unique stories told. This is an important contribution to our understanding of this famous war and the men who fought in it. *British Books* Little, Brown Books for Young Readers This was the most controversial and brutal British imperial conflict of the nineteenth century. The real story of the Anglo-Zulu war was one of deception, dishonour, incompetence and dereliction of

duty by Lord Chelmsford who invaded Zululand without the knowledge of the British Government. But it did not go to plan and there were many political repercussions. Using new material from archives in Britain and South Africa, Saul David blows the lid on this most sordid of imperial wars and comes to a number of startling new conclusions. [Poole's Index to Periodical Literature](#) Rowman & Littlefield

Two decades of commentary by the New York Times–bestselling author: “An electrifying political essayist . . . uplifting . . . galvanizing.” —Booklist From the Booker Prize-winning author of such works as *The God of Small Things* and *The Ministry of Utmost Happiness*, My Seditious Heart collects nonfiction spanning over twenty years and chronicles a battle for justice, rights,

and freedoms in an increasingly hostile world. Taken together, these essays are told in a voice of unique spirit, marked by compassion, clarity, and courage. Radical and superbly readable, they speak always in defense of the collective, of the individual, and of the land, in the face of the destructive logic of financial, social, religious, military, and governmental elites. “Her

lucid and probing essays offer sharp insights on a range of matters, from crony capitalism and environmental depredation to the perils of nationalism and, in her most recent work, the insidiousness of the Hindu caste system. In an age of intellectual logrolling and mass-manufactured infotainment, she continues to offer bracing ways of seeing, thinking and feeling.”
—Pankaj Mishra, Time

Magazine
Praise for Arundhati Roy:
“Arundhati Roy combines her brilliant style as a novelist with her powerful commitment to social justice in producing these eloquent, penetrating essays.”
—Howard Zinn
“One of the most confident and original thinkers of our time.”
—Naomi Klein
“The scale of what Roy surveys is staggering. Her pointed indictment is

devastating.”
—The New York Times Book Review
Healing Traditions
One World
“Chrisman's book demonstrates how South Africa played an important if now overlooked role in British imperial culture, and shows the impact of capitalism itself in the making of racial, gender and national identities. This book makes an original contribution to studies of Victorian literature of

empire; South African literary history; African studies; black nationalism; and the literature of resistance."--
BOOK JACKET.

**Rereading
the Imperial
Romance**

OUP Oxford
Bestselling author Sherman Alexie tells the story of Junior, a budding cartoonist growing up on the Spokane Indian Reservation. Determined to take his future into his own hands, Junior leaves his troubled school on the

rez to attend an all-white farm town high school where the only other Indian is the school mascot. Heartbreaking, funny, and beautifully written, *The Absolutely True Diary of a Part-Time Indian*, which is based on the author's own experiences, coupled with poignant drawings by Ellen Forney that reflect the character's art, chronicles the contemporary adolescence

of one Native American boy as he attempts to break away from the life he was destined to live. With a forward by Markus Zusak, interviews with Sherman Alexie and Ellen Forney, and four-color interior art throughout, this edition is perfect for fans and collectors alike.

Oral Traditions and History, 1400-1830
Haymarket Books+ORM
Why did some central African peoples embrace gun

technology in the nineteenth century, and others turn their backs on it? In answering this question, *The Gun in Central Africa* offers a thorough reassessment of the history of firearms in central Africa. Marrying the insights of Africanist historiography with those of consumption and science and technology studies, Giacomo Macola approaches the subject from a culturally sensitive

perspective that encompasses both the practical and the symbolic attributes of firearms. Informed by the view that the power of objects extends beyond their immediate service functions, *The Gun in Central Africa* presents Africans as agents of technological re-innovation who understood guns in terms of their changing social structures and political

interests. By placing firearms at the heart of the analysis, this volume casts new light on processes of state formation and military revolution in the era of the long-distance trade, the workings of central African gender identities and honor cultures, and the politics of the colonial encounter. *Text and Authority in the South African Nazaretha Church* Walter de Gruyter
