Practical Grammar of Modern Chinese II Routledge

For most learners of the Chinese language, two kinds of tools are essential for them: one is a dictionary, and the other is a grammar book. If we think of the learning process as building a house, a dictionary represents the utilities and features of the raw materials for construction, while a grammar book shows the principles and methods for how to build a house with the materials. "Interesting," "practical," and "unique" are the right words for describing this grammar book. This book not only introduces the fundamental knowledge about the Chinese language but also, and more importantly, reveals the reasons behind the principles and rules, which helps learners to understand this language and apply the grammar rules well. This grammar book actually gets learners out of the boring elements, such as excessive memorizing and drilling, for learning a new language, and it helps learners to create the correct words and sentences similar to what they do in mathematical calculations. Only in this way can learners radically accelerate their learning process and get more fun from learning a new language. Easy and Plain There are almost no obscure linguistic concepts or professional terms included in this book, so readers do not need to have any special background knowledge. This book is written in the style of daily language, and readers will find it very user-friendly. Simple but Profound The content is developed from a totally new angle basing it on the common sense of people and extending not only the phenomena and basic grammar rules but also the reason and mechanism under the surface. Readers can easily understand the rules and then apply them much more freely. Vivid and Intuitive Many charts and diagrams are employed to show the concepts and mechanisms in a vivid and intuitive way. Additionally, most of the grammar rules are extended in a formula-like way so that readers can apply them effectively. Culture Connecting About two hundred photos are included in this book not only showing present daily life in China but also corresponding to the language instruction in this book. Readers can easily find the connection between the language and the culture. Best for Readers K7 - K12 students, who are beginners or in the intermediate level College students, who are beginners or in the intermediate level Self-learners, who are in the intermediate level Teachers for Mandarin Chinese Researchers of the Chinese language Content Chapter 01 Preparing to Start Chapter 02 Secrets of Combination Chapter 03 Detailed Types of Combining Processes Chapter 04 Multiple Combining Processes Chapter 05 Structures and Gradations Chapter 06 Words in Special Types Chapter 07 Quantities, Times, and Places Chapter 08 About Sentences Chapter 09 To Make Comments and Descriptions Chapter 10 To Describe Existence Chapter 11 To Describe Acts Chapter 12 To Raise Questions: Yes or No Chapter 13 To Raise Questions: Ask for Details Chapter 14 Past, Present, and Future Chapter 15 Start, End, and Span Chapter 16 Connection and Integration Mandarin Chinese Routledge

These are the basic 26 grammar points a beginner needs to master in order to start using and comprehending Mandarin Chinese. The AllSet Learning Grammar Wiki BOOK series brings to ebook format everything that made the online wiki the internet's #1 reference for Mandarin Chinese grammar: - Beginner's Guide introduction provided as a starting point - Each of 26 grammar points has been carefully selected for beginners - Each grammar point is explained in plain language, dropping technical grammatical terms whenever possible - At least 10 clear, useful example sentences for each grammar point, accompanied with pinyin and English translations - Common mistakes with corrections provided where relevant - Related grammar points are all interlinked, allowing learners to form connections between similar grammar points - The book's content was produced by the AllSet Learning staff in Shanghai, representing dozens of contributors (both native speakers of Chinese and learners of Chinese) - Foreword by linguist Dr. David Moser, author of the well-known "Why Chinese is So Damn Hard" - All content edited by John Pasden, seasoned expert in Chinese learning The 26 grammar points contained in this book are also contained in the longer "Elementary" book; this book is intended as a shorter introduction for beginners who are just looking for a taste in the Chinese Grammar Wiki's friendly format.

Chinese: A Comprehensive Grammar Routledge

Chinese Grammar Made Easy presents instructors with innovative and classroom-tested techniques for teaching Chinese grammar. Its communicative, meaning-based approach helps teachers to engage students by bringing grammar into a practical, real-life context. As a reference for daily teaching, this book discusses 150 of the most fundamental and frequently used grammar points that students need to learn in order to communicate successfully. Each grammar point is accompanied by various learning activities to engage students and provide structured practice.

Practical Grammar of Modern Chinese IV John Wiley & Sons

Chinese grammar is characterized by its simple structure, lack of inflections, and wide use of monosyllabic morphemes. With the increasing popularity of learning Chinese as a second language, there is a demand for a guide to Chinese grammar that's targeted at second language learners. This four-volume set is one of the earliest and most influential works on Chinese grammar, with a special focus on teaching and learning Chinese as a second language. Utilizing their rich teaching experience, the authors analyze a myriad of authentic examples to describe the Chinese grammatical phenomenon and rules. This volume introduces the functional words in modern Chinese grammar, which include prepositions, conjunctions, auxiliary verbs, onomatopoeia, and interjections. Since the first edition came out in 1983, this set has been revised twice and remained one of the best sellers in this topic. Practitioners and scholars of teaching Chinese as a second language, as well as students with a basic knowledge of Chinese, will find it a handy reference.

Understanding and Using Chinese Grammar AuthorHouse

So get started today!

Essential Mandarin Chinese Phrasebook & Dictionary Routledge

Orig. pub. in 1986. A comprehensive course in reading and writing Chinese for beginners.

Basic Patterns of Chinese Grammar CreateSpace

This is intended as a practical, easy to use guide to the basic grammar of modern standard Chinese for learners from elementary level upwards. The main part consists of individual entries, arranged alphabetically according to pinyin romanisation, on the principal grammatical constructions, words and particles used in modern Chinese. The clearly arranged entries outline the basic patterns and main features and contain many example sentences, all with Chinese characters (simplified versions), pinyin romanisation and an English translation. An introduction offers an overview of the main grammatical features of modern Chinese, appendices cover topics like measure words, the numeral system, dates and times and there is a comprehensive index and bibliography.

Understanding and Using Chinese Grammar (Black and White Edition, an Easy-To-Use Guide with Clear Rules, Real-World Examples, and 200+ Pictures) UBC Press

Chinese grammar is characterized by its simple structure, lack of inflections, and wide use of monosyllabic morphemes. With the increased popularity of learning Chinese as a second language, there is a demand for a guide to Chinese grammar that's targeted at second language learners. This four-volume set is one of the earliest and most influential works of Chinese grammar, with a special focus on teaching and learning Chinese as a second language. Drawing on rich teaching experience, the authors analyze a myriad of real-world examples to describe Chinese grammatical phenomena

and rules while introducing the general grammar system of Chinese. This volume introduces several simple sentence and compound sentence structures of modern Chinese grammar. In addition, the authors examine discourse and other larger units of sentences in use. Since the first edition came out in 1983, this set has been revised twice and remained one of the best sellers in the field. Practitioners and scholars of teaching Chinese as a second language, as well as students with a basic knowledge of Chinese, will find it to be a handy reference.

HSK 1 Chinese Grammar Psychology Press

For students with some knowledge of the language, the Grammaris comprised of 25 units, all with a particular grammar point and associated exercises. All entries are presented in both pinyinromanization and Chinese characters.

Practical Grammar of Modern Chinese I Tuttle Publishing

Intermediate Chinese is the ideal reference and practice book for students with some knowledge of the language. Each of the 25 units deals with a particular grammatical point and provides associated exercises. Features include: clear, accessible format many useful language examples jargon-free grammar explanations sample drills and exercises with full answer key. All Chinese entries are presented in both pinyin romanisation and Chinese characters, and are accompanied, in most cases, by English translations to facilitate self-tuition in both the spoken and the written language. This new edition also includes a glossary of vocabulary and aglossary of grammatical terms. Intermediate Chinese reviews the principal elements presented in its sister volume, Basic Chinese, and introduces more complicated structures. The two books form a compendium of the essentials of Chinese grammar.

Chinese Grammar Routledge

The Way of The Linguist, A language learning odyssey. It is now a cliché that the world is a smaller place. We think nothing of jumping on a plane to travel to another country or continent. The most exotic locations are now destinations for mass tourism. Small business people are dealing across frontiers and language barriers like never before. The Internet brings different languages and cultures to our finger-tips. English, the hybrid language of an island at the western extremity of Europe seems to have an unrivalled position as an international medium of communication. But historically periods of cultural and economic domination have never lasted forever. Do we not lose something by relying on the wide spread use of English rather than discovering other languages and cultures? As citizens of this shrunken world, would we not be better off if we were able to speak a few languages other than our own? The answer is obviously yes. Certainly Steve Kaufmann thinks so, and in his busy life as a diplomat and businessman he managed to learn to speak nine languages fluently and observe first hand some of the dominant cultures of Europe and Asia. Why do not more people do the same? In his book The Way of The Linguist, A language learning odyssey, Steve offers some answers. Steve feels anyone can learn a language if they want to. He points out some of the obstacles that hold people back. Drawing on his adventures in Europe and Asia, as a student and businessman, he describes the rewards that come from knowing languages. He relates his evolution as a language learner, abroad and back in his native Canada and explains the kind of attitude that

will enable others to achieve second language fluency. Many people have taken on the challenge of language learning but have been frustrated by their lack of success. This book offers detailed advice on the kind of study practices that will achieve language breakthroughs. Steve has developed a language learning system available online at: www.thelinguist.com.

Basic Chinese Grammar and Sentence Patterns Psychology Press

This handy, topic-based dictionary covers a broad range of vocabulary in romanized Mandarin Chinese (pinyin) and English that beginning students need to know. This handy, topic-based dictionary covers a broad range of vocabulary in romanized Mandarin Chinese (pinyin) and English that beginning students need to know.

Easy Way to Learn Chinese Through English in 30 days Taylor & Francis

Chinese: A Comprehensive Grammar is a complete reference guide to Chinese grammar which presents a fresh and accessible description of the language, concentrating on the real patterns of use in modern Chinese. The volume is organized to promote a thorough understanding of Chinese grammar. It offers a stimulating analysis of the complexities of the language and provides full and clear explanations. Throughout, the emphasis is on Chinese as used by present-day native speakers. An extensive index and numbered paragraphs provide readers with easy access to the information they require. The new edition features a revised and expanded chapter on prosody (Prosody and Syntax), as well as four completely new chapters: • Morphology and Syntax (I) looks at Chinese word formation • Morphology and Syntax (II) explores the interaction between words, expressions and sentences • Intralingual Transpositions reviews the possible conversions between sentential constructions • Interlingual Conversions examines the differences between Chinese and English. The

Grammar is an essential reference source for the adult learner and user of Chinese. It is ideal for independent study and for use in schools, colleges, universities and adult classes, up to an advanced level.

Modern Mandarin Chinese Grammar Paradigm Publications

Modern Mandarin Chinese Grammar: A Practical Guide, third edition, is an innovative reference guide to Mandarin Chinese, combining traditional and function-based grammar in a single volume. The Grammar is divided into two parts. Part A covers traditional grammar points such as phrase order, and the structure of noun phrases and verb phrases. Part B is carefully organized around language functions and situations such as: Asking questions Communication strategies Making comparisons Giving orders and making requests Expressing apologies, regrets, and sympathy The two parts of the Grammar are closely linked by extensive cross-references, providing a grammatical and functional perspective on many patterns. The Grammar is coordinated with the Workbook, which provides grammar-focused and situation-focused exercises to facilitate practice and reinforce language use. All grammar points and functions are richly illustrated with examples presented in simplified and traditional characters and Pinyin romanization, with a strong emphasis on contemporary usage. This third edition includes new sections on character structure, social media, speaker perspective, and more, as well as updated illustrative sentences and an expanded index. Modern Mandarin Chinese Grammar is ideal for all learners of Mandarin Chinese, from beginner to intermediate and advanced students.

Schaum's Outline of Chinese Grammar Yale University Press
