## **KASSANDRA CANTRELL**

### **Administrative Law** West Academic

This book provides a comprehensive overview of the Florida Constitution. After briefly describing the constitution's history (chapter 1), it organizes the constitution's numerous subjects into five discrete units: sovereignty (chapters 2-4); citizens' rights (chapters 5-12); government operations (chapters 13-19); public finances (chapters 20-22); and constitutional amendments (chapters 23-24). Specific sections of the constitution can be accessed quickly using the book's finding table. The text includes more than 1,000 case citations; extensive references to primary and secondary sources; and a select bibliography.

Public Health Law in a Nutshell, 2nd Edition (2016) provides a fascinating, informative, and concise assessment of the critical role of law in American society to protect the community's health. Updated to reflect modern developments through 2015 in this ever-developing field, the Nutshell's 10 chapters lay out definitive legal issues underlying core public health powers to prevent and control communicable and chronic conditions like influenza, obesity, cancer, and heart disease. The text also explores legal routes to address sources of other public health threats, including tobacco and alcohol use, guns, vehicles, defective products. Additional chapters focused on information surveillance, commercial speech regulation, the built

environment, and emergency preparedness provide concise clear assessments of difficult law and policy trade-offs. Understanding the field of public health law encompasses its constitutional sources and limits as well as historic and modern attempts to regulate in the interests of the community's health and safety. This Nutshell specifically explains and addresses these issues while also providing a modern framework supporting the role of law in this pivotal area of society. It is a "must read" for any legal or public health practitioner in the field, law- and policy-makers working to protect the public's health, as well as students in schools of law, public health, or medicine assessing these issues in prior or current coursework.

**Land Use in a Nutshell** West Group

This product provides a short and readable source for individuals interested in constitutional law, First Amendment law, and communications law. It is divided into four parts: the history, methodology, and philosophical foundations of the First Amendment; topics such as First Amendment issues that arise in cable television and in regulating children's access to the Internet; issues in First Amendment law such as the public forum doctrine, the compelled speech doctrine, and the free expression rights of government employees; and the text, history, and theory of the religion clauses, chronicling the ongoing battle in the Supreme Court between accommodationists and separationists.

[Historical and Comparative Perspectives](#) Routledge

This work is part of the Lecture Notes series, which is intended primarily for the undergraduate law degree or common professional examination

student. It is also intended to be useful to other students studying law as part of their course.

**Administrative Law for Public Managers** West Academic Publishing

This book examines the jurisprudence of the Supreme Court of Ireland since its creation in 1924. It sets out the origins of the Court, explains how it operated during the life of the Irish Free State (1922-1937), and considers how it has developed various fields of law under Ireland's 1937 Constitution, especially after the 're-creation' of the Court in 1961. As well as constitutional law, the book looks at the Court's views on the status and legal system of Northern Ireland, administrative law, criminal justice and personal and family law. There are also chapters on the Supreme Court's interaction with European Union law and with the European Convention on Human Rights. The argument throughout is that, while the Court has been well served by many of its judges, who on occasion have manifested a healthy degree of judicial activism, there are still several legal fields in which the Court has not developed its jurisprudence as clearly or as imaginatively as it might have done. It has often displayed undue conservatism and deference. For many years its performance was hampered by its extreme workload, generated by its inability to control the number of appeals brought to it. However, the creation of a new Court of Appeal in 2014 has freed up the Supreme Court to act in a manner more analogous to that adopted by supreme courts in other common law countries. The Court's future looks bright.

**Local Governing Power: General Aspects, Limitations, Resolution of Power Conflicts and Challenges; Formation of the Local Government, Alteration, Boundary Changes; Some Problems of Organization and Operation: Officers, Employees, Allocation and Delegation of Functions, Elections; Regulation of Conduct and the Use of Land: Acquisition, Limitations on Use and Disposition of Goods, Services and Property; Revenues; Considerations Pertinent to Citizen Litigation with Local Governments.**

**Constitutional and Administrative Law in a Nutshell** Oxford University Press

Nutshells are ideal as an introduction to an area of law or as a brush up in preparation for exams. Concise; Clear explanations; Key cases; Legislative provisions.

*Cases and Comments* West Academic

In the Fifth Edition of Administrative Law and Politics, authors Christine B. Harrington and Leif H. Carter show the scope and power of administrative government and demonstrate how the legal system shapes administrative procedure and practice. Using accessible language and examples, the casebook provides the foundation that students, public administrators and policy analysts need to interpret the rules and regulations that support our legal system.

*First Amendment Law in a Nutshell* West Academic Publishing

External controls on administrative agencies : the legislative branch -- External controls on administrative agencies : the executive branch -- The exercise of agency power -- Agency decision-making : the constitutional limitations -- Agency decision-making : choosing rule or order -- Rulemaking.

**State Constitutional Law in a Nutshell** LexisNexis

This book offers a concise, knowledgeable guide to the laws governing administrative agencies. In straightforward, readable prose, the authors not only summarize the dominant statutes and case law in the area, but also discuss informal administrative processes and the background realities of the regulatory state. Students can use the book as a complement to any major casebook, and practitioners will also find it an excellent brief introduction to this often confusing subject.

*Emanuel Law Outlines for Administrative Law* Routledge

Unlike most constitutional law books, this book does not assume that the students have any particular knowledge of American history, government, or law, so it begins with a rich introductory chapter to provide students with a necessary foundation for the rest of the material. Thereafter, it supplements the familiar cases with historical context and pictures and biographies of current and famous justices adjacent to their opinions. It makes the traditional canon accessible and enjoyable to the current generation. Easily covered over two semesters, the book manages through careful case selection to avoid drastic editing of all but the longest cases.

*Understanding Administrative Law* West Academic

This book draws upon the experiences of several jurisdictions to analyse the scope, development and future of administrative law.

*Introduction to American Constitutional Law: Structure and Rights* BRILL

This compact, comprehensive title offers an expert overview of the history, constitutional authority, statutory provisions, regulations, structure, procedure, administrative process, and ethical principles of immigration law and practice.

**Administrative Law and Process in a Nutshell** West Academic Publishing

Previously published as : Administrative law and process in a nutshell. 1972.

**Military Law in a Nutshell** Hart Publishing

The new edition adds dozens of recent decisions and key statutory changes. Virtually every principal case in the leading casebooks is cited or discussed, making this book an excellent aid for students in any water law course. The revised edition deals with changes in evolving areas like groundwater-surface water conflicts, public recreational uses, instream flow protection, federal water development, takings claims, and water access and equity.
