of Our Past
 Bedford/st
 Martins

"...presents an overview of the American experience.... [shows] students not only what happened but why" - Back cover.

African Americans
 Pearson College Division Concise History of Western Music combines Grout and

Palisca's uncompromising reliability, scope, and respect for the narrative, while offering many more pedagogical aids, such as chapter preludes and postludes; "Etudes," excursions that explore the material more deeply than the main text; and "Windows," boxed discussions of special topics.

The American Revolution

Rowman & Littlefield Publishers
A thematic anthology of

primary sources for Latin American social and cultural history, the Second Edition reader complements the table of contents of *Born in Blood and Fire*, Fourth Edition, and draws on newspapers, novels, magazines, and journals--many translated by Chasteen himself--to present compelling narrative accounts of life and society across Latin American

history. *African Americans*
The Lawbook Exchange, Ltd.
Korean Americans: A Concise History tells the untold stories of the pioneering immigrants, the newly discovered tale of the first Koreatown USA, and about the first Korean aviator. The textbook conveys the Korean American experience by highlighting important moments, people, and incidents that defines this

small community. The book takes readers on a journey starting with the beginning of Korean immigration to the United States, to present day issues, trends, and identity. *These United States* Bedford/st Martins Published by OpenStax College, U.S. History covers the breadth of the chronological history of the United States and also provides the necessary depth to ensure the

course is manageable for instructors and students alike. U.S. History is designed to meet the scope and sequence requirements of most courses. The authors introduce key forces and major developments that together form the American experience, with particular attention paid to considering issues of race, class and gender. The text provides a balanced approach to U.S. history,

considering the people, events and ideas that have shaped the United States from both the top down (politics, economics, diplomacy) and bottom up (eyewitness accounts, lived experience). [America a Concise History 2nd Edition](#) [Volume 1+ Documents to Accompany](#) Macmillan Higher Education With fresh interpretations from two new authors, wholly reconceived

themes, and a wealth of cutting-edge scholarship, the Fifth Edition of *America: A Concise History* is designed to work perfectly with the way you teach the survey today. Building on the book's hallmark strengths—balance, explanatory power, and a brief-yet-comprehensive narrative—as well as its outstanding full-color visuals and built-in primary sources, authors James Henretta, Rebecca Edwards, and Robert Self have shaped America into the ideal brief book for the modern survey course, at a value that can't be beat. *A Concise History* Bedford/St. Martin's A Washington Post and BookPage Best Nonfiction Book of 2021 From a Pulitzer Prize-winning historian, the powerful story of a fragile nation as it expands across a contested continent. In this beautifully written history of America's formative period, a preeminent historian upends the traditional story of a young nation confidently marching to its continent-spanning destiny. The newly constituted United States actually emerged as a fragile, internally divided union of states contending still with European empires and other

independent republics on the North American continent. Native peoples sought to defend their homelands from the flood of American settlers through strategic alliances with the other continental powers. The system of American slavery grew increasingly powerful and expansive, its vigorous internal trade in Black Americans separating parents and children,

husbands and wives. Bitter party divisions pitted elites favoring strong government against those, like Andrew Jackson, espousing a democratic populism for white men. Violence was both routine and organized: the United States invaded Canada, Florida, Texas, and much of Mexico, and forcibly removed most of the Native peoples living east of the Mississippi. At the end of the period the

United States, its conquered territory reaching the Pacific, remained internally divided, with sectional animosities over slavery growing more intense. Taylor's elegant history of this tumultuous period offers indelible miniatures of key characters from Frederick Douglass and Sojourner Truth to Elizabeth Cady Stanton and Margaret Fuller. It captures the high-stakes political

drama as Jackson and Adams, Clay, Calhoun, and Webster contend over slavery, the economy, Indian removal, and national expansion. A ground-level account of American industrialization conveys the everyday lives of factory workers and immigrant families. And the immersive narrative puts us on the streets of Port-au-Prince, Mexico City, Quebec, and the Cherokee capital, New Echota.

Absorbing and chilling, *American Republics* illuminates the continuities between our own social and political divisions and the events of this formative period.

America's History, Volume 1: To 1877 Prentice Hall
The American Promise: A Concise History is a brief, inexpensive narrative with a clear political, chronological narrative that makes teaching and

learning American history a snap. Streamlined by the authors themselves to create a truly concise book, the fifth edition is nearly 15 percent shorter than the fourth compact edition, yet it includes more primary sources than ever—including a new visual sources feature. It is also enhanced by LearningCurve, our easy-to-assign adaptive learning system that will ensure

<p>students come to class prepared.</p> <p>A Concise History</p> <p>Macmillan AmericaA Concise History, Combined VolumeMacmillan</p> <p><i>A Concise History of the Common Law</i></p> <p>Macmillan Higher Education Plucknett, Theodore F.T.</p> <p>A Concise History of the Common Law. grounding to the student of English legal history." Percy H. Winfield. *Harv. L. Rev.* 43:339-340. [A Concise History](#) Oxford University Press, USA With fresh interpretations from two new authors, wholly reconceived themes, and a wealth of cutting-edge scholarship, the Fifth Edition of [America: A Concise History](#) is designed to work perfectly with the way you teach the survey today. Building on the book's hallmark strengths — balance, explanatory power, and a brief-yet-comprehensive narrative — as well as its outstanding full-color visuals and built-in primary sources, authors James Henretta, Rebecca Edwards, and Robert Self have shaped America into the ideal brief book for the modern survey course, at a value that can't be beat. Read the [African Americans](#) Bedford/st Martins Born out of violence and the aspirations of its early settlers, the United States of America has become one of the world's most powerful nations, even as its past continues to inform its present and to mould its very identity as a nation. The search for nationhood and the ambiguities upon which the nation was founded are at the root of this intelligent and

forthright book. Taking a broadly chronological approach, it begins in colonial America as the first Europeans arrived, lured by the promise of financial profit, driven by religious piety, and accompanied by the diseases which would ravage and consume the native populations. It explores the tensions inherent in a country built on slave labor in the name of liberty, one

forced to assert its unity and reassess its ideals in the face of secession and civil war, and one that struggled to establish moral supremacy, military security, and economic stability during the financial crises and global conflicts of the twentieth century. Woven through this richly crafted study of America's shifting social and political landscapes are the multiple

voices of the nation's history: slaves and slave owners, revolutionaries and reformers, soldiers and statesmen, immigrants and refugees. It is their voices, together with those of today's multicultural America, that define the United States at the dawn of a new century.

Korean Americans: A Concise History
Oxford University Press
Using a

thematic approach, this concise survey explores the many and varied threads of American history-social, intellectual, cultural, political, diplomatic, economic, and military-from the arrival of the first native American inhabitants thousand of years ago through the crisis following the terrorist attacks on New York and Washington on September 11, 2001. Irwin Unger, a Pulitzer Prize winning author, wrote

this book after discovering from his own experiences teaching American History at the University of California at Davis and at NYU, that a thematic approach was much more interesting to students than a purely descriptive one. Concise History of Western Music Macmillan Here is a brisk, accessible, and vivid introduction to arguably the most important event in the

history of the United States-the American Revolution. Between 1760 and 1800, the American people cast off British rule to create a new nation and a radically new form of government based on the idea that people have the right to govern themselves. In this lively account, Robert Allison provides a cohesive synthesis of the military, diplomatic, political, social, and intellectual aspects of the

Revolution, paying special attention to the Revolution's causes and consequences . The book recreates the tumultuous events of the 1760s and 1770s that led to revolution, such as the Boston Massacre and the Boston Tea Party, as well as the role the Sons of Liberty played in turning resistance into full-scale revolt. Allison explains how and why Americans changed their ideas of

government and society so profoundly in these years and how the War for Independence was fought and won. He highlights the major battles and commanders on both sides--with a particular focus on George Washington and the extraordinary strategies he developed to defeat Britain's superior forces--as well as the impact of French military support on the American

cause. In the final chapter, Allison explores the aftermath of the American Revolution: how the newly independent states created governments based on the principles for which they had fought, and how those principles challenged their own institutions, such as slavery, in the new republic. He considers as well the Revolution's legacy, the many ways its essential ideals influenced other

struggles against oppressive power or colonial systems in France, Latin America, and Asia. Sharply written and highly readable, *The American Revolution* offers the perfect introduction to this seminal event in American history.

America's History

Macmillan [In this book, the author's] analysis of the effects and causes of capitalist underdevelopment in Latin

America present [an] account of ... Latin American history. [The author] shows how foreign companies reaped huge profits through their operations in Latin America. He explains the politics of the Latin American bourgeoisies and their subservience to foreign powers, and how they interacted to create increasingly unequal capitalist societies in Latin America.-Back

cover. America's History, Combined Volume Bedford/st Martins In The American South, William J. Cooper, Jr. and Thomas E. Terrill demonstrate their belief that it is impossible to divorce the history of the south from the history of the United States. Each volume includes a substantial biographical essay—completely updated for this edition—which provides the reader with a

guide to literature on the history of the South. Coverage now includes the devastation of Hurricane Katrina in 2005, up-to-date analysis of the persistent racial divisions in the region, and the South's unanticipated role in the 2008 presidential primaries.
