Biocentrism (from Greek βίος bios, "life" and κέντρον kentron, "center"), in a political and ecological sense, as well as literally, is an ethical point of view that extends inherent value to all living things. It is an understanding of how the earth works, particularly as it relates to its biosphere or biodiversity. Biocentrism (ethics) - Wikipedia Biocentrism, ethical perspective holding that all life deserves equal moral consideration or has equal moral standing. Although elements of biocentrism can be found in several religious traditions, it was not until the late decades of the 20th century that philosophical ethics in the Western tradition addressed the topic in a systematic manner. Biocentrism | ethics | Britannica Biocentrism, also referred to as the biocentric universe, is a theory proposed by renowned scientist, Robert Lanza. This theory explains that life and biology are the central pieces to being, reality and the cosmos. It explains how life creates the universe rather than the other way around. Biocentrism builds upon the

Biocentrism | Psychology Today Biocentrism (theory of everything) from Greek: βίος, bios, "life"; and κέντρον, kentron, "center" — also known as the biocentric universe — is a theory proposed in 2007 by American scientist Robert Lanza, which sees biology as the central driving science in the universe, and an understanding of the other sciences as reliant on a deeper understanding of biology. Robert Lanza, M.D. - BIOCENTRISM Biocentrism theory, or the Biocentric Universe is an attempt to understand consciousness and it's relationship to fundamental reality and the Universe. It's a TOE (Theory of Everything) which posits the theory that life, or consciousness, came first. What is the Biocentrism theory or the Biocentric Universe ... A solution is suggested that involves a new concept, biocentrism. Lanza goes beyond the individual human attribute calling for interconnectedness among all living creatures forming the fundamental basis for understanding

reality. Biocentrism: How Life and Consciousness are the Keys to ... Biocentrism is the first scientific model to consider consciousness as the source of life and not the reverse. In other words, the world is perfect for us not by some random spin of the universal roulette wheel, but because it was created by our collective awareness in the first place. Biocentrism / Robert Lanza's Theory of Everything Biocentrism offers an improvement on this interpretation providing the key to immortality. Start with the self-evident fact that consciousness isn't a tentative, on-and-off kind of thing ... The Impossibility of Being Dead | Psychology Today According to biocentrism, space and time are simply the tools our mind uses to weave information together into a coherent experience — they are the language of consciousness (in fact, in dreams your mind uses the same algorithms to create a spatio-temporal reality that is as real, 3-D and flesh-and-blood as the one you're experiencing now). What Is It Like After You Die? - BIOCENTRISM The final option is biocentrism, which holds that the universe is created by life and not the other way
