\*\*\* The Great Pyramid in  
the Himalaya \*\*\* In  
'Thoth, Architect of the

Universe' Ralf discovered  
evidence for megalithic  
maps. But if these  
megalithic maps are to be  
of any use in a quest for  
the mythical Hall of  
Records, then they need  
to be a little more detailed  
than a simple  
representation of  
continents. Luckily, the  
shaft angles inside the  
Great Pyramid can refine  
these maps down to just a

few tens of meters. And  
so Ralf embarked on a  
long trek into the high  
Himalaya, to see what lay  
at the heart of the Giza  
map. Strangely enough,  
what he found there was  
a giant snow-white  
pyramid, aligned with the  
cardinal points, with a  
causeway aligned at 14°  
from its base - exactly the  
same as the Great  
Pyramid itself. Sequel to

"Thoth, Architect of the Universe". v3.6

 Humans have been chasing immortality since the beginning of history, seeking answers to sickness and aging, death and the afterlife, and questioning the human condition. Analyzing ideas from ancient Sumer, Egypt, Greece and India, as well as the Abrahamic religions of Judaism, Christianity and Islam, this study explores how early religious models influenced later beliefs about immortality, the

afterlife, the human soul, resurrection, and reward and punishment. The author highlights shared teachings among the most influential religions and philosophies, concluding that humankind has not substantially changed its conceptions of immortality in 6,000 years. This continuity of belief may be due to chromosomal memory and cultural inheritance, or may represent a fundamental way of conceptualizing the afterlife to cope with

mortality. Instructors considering this book for use in a course may request an examination copy here.

Thoth, Architect of the Universe

From beneath the windswept sands of ancient Mesopotamia comes the documented legacy of the creation chamber of the heavenly Anunnaki. Here is the story of the clinical cloning of Adam and Eve, which predates Bible scripture by more than 2,000 years. From

cuneiform texts, cylinder seals, and suppressed archives, best-selling historian and distinguished genealogist Laurence Gardner tells the ultimate story of the alchemical bloodline of the Holy Grail, including: - Hidden secrets of the Tables of Testimony -Anti-gravitational science of the pyramid pharaohs -A history of God and the lords of eternity - Disclosures of the Phoenix and the Philosophers' Stone -The superconductive powers of monatomic gold -A

genetic key to the evolutionary Missing Link - Active longevity and the Star Fire magic of Eden *Thoth, Architect of the Universe* Princeton University Press This is the book that the Catholic Church has been dreading for the last 1700 years. This is the book that will end Christianity as we know it. And this is not advertising hyperbole, this really is the end of the Christian fairytale. We now know who Jesus was. Visit his city, see the ruins of his citadel, gaze upon his statue, handle his

coins. In reality, Jesus was a son of King Abgarus of Edessa, a king with a small realm, a large treasury, and even bigger ambitions. Thus Jesus' true history undermines much of the biblical fairystory that the gospel authors crafted, and so Christianity will never be the same again. The jacket image shows Jesus wearing his Crown of Thorns, the ceremonial crown of the Edessan monarchy. We suggest that readers start with 'Cleopatra to Christ' and then 'King Jesus'. The wait

before arriving at the last episode in the trilogy will be worthwhile, for if a book could be valued on its 'eureka moments' then this final book would be priceless.  What was the purpose of all the megalithic architecture that was created all around the world during the Stone-Age? Ralf has developed a theory that each of these structures represents a map of the world, a map that may have been designed to pinpoint the location of the mythical Hall of Records. There is no difficulty in seeing these maps, at Stonehenge and Giza, one just needs a little lateral

thinking. In fact, a six-year old is more likely to spot them than an adult. Ralph also demonstrates how important the metrology of Giza was to the ancients. In fact we still use these units today, for the Great Pyramid measures 1760 cubits around the base and the Imperial Mile measures 1760 yards. Thus America in particular is still using Egyptian metrology. The Megalithic Map series Latest version v5.4 Stonehenge, Avebury, Silbury, Henge, Great Pyramid, Giza, Meidum,

 Academic disinformation  
 appears to be reaching a  
 peak. Was it always this  
 way, and only now with  
 increased connectivity  
 can we see their  
 duplicity? Or are we living  
 in a new era of deception?  
 The new age is not the  
 Anthropocene, it is  
 actually the Deceptocene.  
 Thus we see: Clerics only  
 telling their flocks half of  
 the gospel story. Medics

refusing to investigate  
 alternative therapeutics.  
 Climate scientists  
 amending and cherry-  
 picking data. The media  
 not investigating alternate  
 facts and data. Academics  
 jumping on bandwagons  
 for grant funding.  
 Politicians using cherry-  
 picked data to their  
 advantage. Are these  
 academic deceptions the  
 result of intentional deceit  
 or sheer incompetence?  
 To be sure there are any  
 number of incompetent  
 scientists, historians and  
 clerics, but I get the  
 impression that much of

this is due to deliberate falsification and fraud. The world is awash with duplicity and deceit, and it is time to break through the deception. V1.2 Colour.

Bestselling author Barbara Hand Clow shows how the Mayan Calendar is a bridge to galactic wisdom that fosters personal growth and human evolution • Unearths the meaning behind the calendar, its message for modern civilization, and

what will happen when the calendar ends • Reveals how time acceleration is a manifestation of the acceleration of consciousness • By the author of The Pleiadian Agenda The Mayan Code is a deep exploration of how, as we approach the end of the Mayan Calendar, time and consciousness are accelerating, giving us a new understanding of the universe. Using Carl Johan Calleman's research, as well as the ideas of other Mayan Calendar scholars,

Barbara Hand Clow examines 16.4 billion years of evolution to decode the creative patterns of Earth--the World Mind. These great patterns culminate in 2011, and then during 2012 major astrological influences will inspire us to attain oneness and enlightenment. The Mayan Code shows how the time cycles of the Calendar match important periods in the evolutionary data banks of Earth and the Milky Way Galaxy. These stages of evolution are

converging during the final stage of the Calendar, the period between 1999 and 2011. War and territoriality, resource management and separation from nature, are all part of daily events we must process during these few short years: evidence of the tightening spiral of time that we experience as time speeding up. Barbara Hand Clow counsels that our own personal healing is the most important factor as we prepare to make this critical leap in human

evolution--now referred to as the awakening of the World Mind.

While researching the metrology of the megalithic monuments of Britain and Egypt, Ellis made an important and previously unnoticed observation. Many of the megalithic monuments of the world, including Stonehenge and the Great Pyramid, can be viewed as being maps of the earth. These maps are

verifiable as being designed in this fashion because they include within their structure the latitudes of specific topographical features on the surface of the earth. The architect of these monuments was making maps, the only thing now to be found is where the X marks the spot was placed... The ancient monument builders were constructing technical messages for the future, messages like the mathematical constant pi above. Thoth, Architect of the Universe has gone

beyond this simple observation and found evidence of maps carved into the very fabric and design of these great megalithic monuments. Structures like the great henge of Avebury are quite obvious in their cartographical design, others, like the Great Pyramid of Giza, are less obvious. Nevertheless, all of these monuments can be seen to be maps of our Earth, maps that date from the Neolithic age.

When we think we learned

something new, we are quite proud of it. But it wears off quickly for an unknown reason. So, what is wrong with what we do? When you start to think about the things you learn, and what the reason or purpose actually is, then you have to wonder sometimes is it really something new we just learned. Because having in mind to learn something new can be quite exhausting at times. Maybe we have to start to think about this in a different way, and take a different approach in

discovering new things. It is like a treasure hunt, imagine that we are all pirates looking for an adventure or treasures. Obviously our life is about searching for something, but most of the time we dont even know what we are looking for. We do this quite instinctively, maybe we are preprogrammed in a way and we are not aware of it. But when you find out who we are, then everything seems to make sense. Our entire world (Universe) stands on myth and mythology (including our history),

making us wonder if it is real. Lets look at life in a different way. Learn more about our history, maybe we can learn from old things our ancestors already new, and then set that aside and try to find your own way. You most certainly will see things with different eyes. This is what our life is all about, it is a soul search where the experience we have along the way is the reward (treasure). In Australia the Aboriginal people are most likely a candidate for such an idea. They go on a regular

Walkabout, which literately means looking for something. They might find something which can be worth bringing home as an idea for which the whole community can benefit from. This is what a walkabout is all about, looking for something which is useful, and has a value in the community. After all we are constantly occupied by making a living or providing for our needs. The westerners actually practice the same thing, we call them the Backpackers. People who go and see other parts of

the world, enjoy the diversity and beauty of nature, as well as other cultures and traditions. Yes, we can learn something old, have a lot of fun and it can be quite rewarding. This book was taking shape, based on an ironic thought; How much knowledge there is, and we know so little. How come we know so little? We know all the most complicated things there can be, but we know very little of what life is about. What is the cause for all things? How does it all work? What is the reason?

And last but not least; How do we fit into everything? Is it possible that we have taken valuable information from ancient Greek knowledge, but ignored one of their most important practices the philosophy of all things. Has everything to us become scientific or important because sciences can explain the real world. Have we forgotten that this real world we live in comes from a mystical source (something unseen). Something we call a different dimension

because we cant possibly explain it. It is such an exotic source, that it would take a lot of ancient knowledge to discover the truth. Do you want to discover the truth? This book might have some answers.

Everyone in the world is familiar with the Great Pyramid in Egypt, but only a few realize it was ordained by the hand of God. The prophet Isaiah tells us it's an altar and a witness for the one true God. Josephus, the Jewish

historian, says it was built by the children of Seth before the great flood. Egyptian legend calls it the "Pillar of Enoch" after the Patriarch who walked with God. Early Jewish writings, Egyptian hieroglyphs, and ancient historians provide clues to the secrets within the Great Pyramid. But first you must ask yourself, what is Truth? Are you willing to set aside your preconceptions to understand the Truth? The Middle of the Earth: Genesis in Egypt reveals astonishing truths that

can transform our world and beckon all who read it to the call of Christ.

Western civilization has pushed God out of the picture and filled us with false ideas. Author Allen Austin urges you to reject the false absurdities and embrace our true history. It lies in the middle of the earth.

It is a little-known fact that the exodus of the Hyksos pharaohs from Egypt to Jerusalem is an incredibly similar event to the exodus of the Israelites from Egypt to Jerusalem. Classical historians and theologians will not entertain any connection between the two, because this infers that the Israelite leaders were actually pharaohs of Egypt. However, Ralph Ellis has taken this obvious comparison and demonstrated the royal

Egyptian ancestry of the Judaic patriarchs and also of Jesus. Ralph has also uncovered evidence for the New Testament Saul (St Paul) in the historical record, a discovery that brings with it several new accounts of the life of Jesus. Saul, the inventor of Christianity, was actually Josephus Flavius, a well-known historian. Jesus was the governor of Tiberias and owned a castle there; and he may have died during the siege of Jerusalem in about AD70, rather than AD 33 - crucified along

with two of his compatriots. Followed by "Tempest & Exodus" and "Eden to Egypt". Latest version v5.6 Hyksos, Shepherd Kings, Jacob, Sea People, Jesus, Saul, Jerusalem, Egyptian False Prophet, historical Jesus. Thrice-Greatest Hermes Springer  
The Acambaro collection comprises hundreds of clay figurines that are apparently thousands of years old; however, they depict such bizarre animals and scenes that most archaeologists dismiss them as an

elaborate hoax. The collection shows humans interacting with dinosaurs and various other 'monsters' such as horned men. Both Hapgood and Earl Stanley Gardner were convinced that the figurines from Acambaro were authentic ancient artifacts that indicated that men and dinosaurs had cohabited together in the recent past, and that dinosaurs had not become extinct many millions of years ago as commonly thought. David Hatcher Childress writes a lengthy introduction concerning

Acambaro, the latest testing, and other evidence of 'living' dinosaurs.
