Once again proving its indestructible, eternal appeal, metal is in yet another renaissance, be it the aggressive marriage of rap and metal or the expansive soundscapes of "stoner rock." From the nightmarish theatrics and irresistible hooks of the 9-member band Slipknot to the buzz saw aggression of Korn to the anarchic party vibe of Limp Bizkit, metal continues to change with the times, picking up seemingly disparate styles and making them new again. Guitar World has never failed to offer the best coverage of

this enduring and explosive scene, and the collected pieces here are a must for every metal fan.

The year is 1983, and Chuck Klosterman just wants to rock. But he's got problems. For one, he's in the fifth grade. For another, he lives in rural North Dakota. Worst of all, his parents aren't exactly down with the long hairstyle which rocking

requires. Luckily, his brother saves the day when he brings home a bit of manna from metal heaven, SHOUT AT THE DEVIL, Motley Crue's seminal paean to hair-band excess. And so Klosterman's twisted odyssey begins, a journey spent worshipping at the heavy metal altar of Poison, Lita Ford and Guns N' Roses. In the hilarious, young-man-growing-up-with-a-soundtrack-tradition, FARGO ROCK CITY chronicles Klosterman's formative years through the lens of heavy metal, the irony-deficient genre that, for better or worse, dominated the pop charts throughout the 1980s. For readers of Dave Eggers, Lester Bangs, and Nick Hornby, Klosterman delivers all the goods: from his first dance (with a girl) and his eye-opening trip to Mandan with the debate team; to his list of 'essential' albums; and his thoughtful analysis of the similarities between Guns 'n' Roses' 'Lies' and the gospels of the New Testament.

After eighteen years of teaching guitar, Alexander Sanchez has now created the first book in his series on the fundamentals of the guitar! This guide takes the established vertical chart system and turns it sideways to make it easier to understand, AND it also shows how certain scales fit together harmoniously across various areas of the guitar neck! This is one of the easiest ways to understand how to improvise on the guitar, as this color-coded system was created through a neuro-linguistic approach for fast learning! Through his many years of practice and education, Alex has created a guide perfect for beginners or anyone looking to brush up on their guitar-playing capabilities in an easy-to-read style. About the Author Alexander Sanchez is a multi-instrumentalist who has taught guitar, bass, drums, and piano professionally for the better part of two decades, and currently teaches at the School of Rock in Lubbock, Texas. He is also a music producer, audio engineer, and session musician at Mount Vernon Studios, and plays with many different groups around town. At home, Alex is getting into videography, photography, and graphic

design; live-streaming musical improvisations and concert performances from his living room.
