ANTON RAY

[A Student's Introduction to English Grammar](#) Palgrave

Provides teachers and students alike with a modern, inviting and structured way to sustain interest and excellence in Latin. Based on the reading of original texts, the course is structured around a narrative detailing the life of the poet Horace, which helps students to develop an understanding of the times of Cicero and Augustus.

Rules for Compositors and Readers ... at the University Press, Oxford OUP Oxford

From Sanskrit to Scouse, this book provides a single-volume source of information about the English language. The guide is intended both for reference and and for browsing. The international perspective takes in language from Cockney to Creole, Aboriginal English to Zummerzset, Estuary English to Caribbean English and a historical range from Beowulf to Ebonics, Chaucer to Chomsky, Latin to the World Wide Web. There is coverage of a wide range of topics from abbreviation to

Zeugma, Shakespeare to split infinitive and substantial entries on key subjects such as African English, etymology, imperialism, pidgin, poetry, psycholinguistics and slang. Box features include pieces on place-names, the evolution of the alphabet, the story of OK, borrowings into English, and the Internet. Invaluable reference for English Language students, and fascinating reading for the general reader with an interest in language.

Oxford Guide To English Gramma Cambridge University Press

Written by a team led by a world authority in English grammar, English Grammar for Today has established itself as a rich educational experience for both native- and non-native-speaking students. This engaging and stimulating coursebook enables students to learn grammar not just for its own sake, but also for the pleasure of exploring, appreciating and understanding the way language communicates in written text and spoken discourse. Throughout, the emphasis is on using grammar in present-day English. After an introduction placing grammar in its educational and cultural context, the authors present a 'toolkit' for analysing sentences. The second part of the book demonstrates how to apply this toolkit to spoken and written language, using a wide range of

real textual materials. Each chapter ends with a set of carefully-designed exercises and tasks to aid understanding, with answers provided at the end of the volume. Now thoroughly revised and updated to meet the needs of today's students, this new edition features: - a new Foreword by the English Association - an additional introductory chapter, 'Getting Started with Grammar', which introduces the subject for those with no prior knowledge - improved and extended diagrams, exercises and answers - up-to-date textual passages and examples Lively and approachable, this indispensable guide is ideal for both students and teachers who are looking for their first serious engagement with - or wishing to rediscover- English grammar.

Oxford Practice Grammar Intermediate Taylor & Francis

Offers elementary teachers advice and strategies to help them teach, apply, and understand English grammar while still adhering to state and school standards.

English Grammar Univ of Chicago+ORM

A new edition of a successful undergraduate textbook on contemporary international Standard English grammar, based on Huddleston and Pullum's earlier award-winning work, The Cambridge

Grammar of the English Language (2002). The analyses defended there are outlined here more briefly, in an engagingly accessible and informal style. Errors of the older tradition of English grammar are noted and corrected, and the excesses of prescriptive usage manuals are firmly rebutted in specially highlighted notes that explain what older authorities have called 'incorrect' and show why those authorities are mistaken. Intended for students in colleges or universities who have little or no background in grammar or linguistics, this teaching resource contains numerous exercises and online resources suitable for any course on the structure of English in either linguistics or English departments. A thoroughly modern undergraduate textbook, rewritten in an easy-to-read conversational style with a minimum of technical and theoretical terminology.

The Oxford English Grammar Oxford : Clarendon Press

Terttu Nevalainen helps students to place the language of the period 1500-1700 in its historical context, whilst showing its regional and social variations. He focuses on the structure of the 'general dialect' and its spelling, vocabulary, grammar and pronunciation, as well as its dialectal origins.

[English as a Global Language](#) Oxford University

The authoritative guide to using the English language effectively, from "the greatest writer on grammar and usage that this country has ever produced" (David Yerkes, Columbia University). The author of The Chicago Manual of Style's popular "Grammar and Usage" chapter, Bryan A. Garner is renowned for explaining the vagaries of English with absolute precision and utmost clarity. With The Chicago Guide to Grammar, Usage, and Punctuation, he has written the definitive guide for writers who want their prose to be both memorable and correct. Garner describes standard literary English—the forms that mark writers and speakers as educated users of the language. He also offers historical context for understanding the development of these forms. The section on grammar explains how the canonical parts of speech came to be identified, while the section on syntax covers the nuances of sentence patterns as well as both traditional sentence diagramming and transformational grammar. The usage section provides an unprecedented trove of empirical evidence in the form of Google Ngrams, diagrams that illustrate the changing prevalence of specific terms over decades and even centuries of English literature. Garner also treats punctuation and word formation, and concludes the book with an exhaustive glossary of grammatical terms and a bibliography of suggested further reading and references. The Chicago Guide to Grammar, Usage, and Punctuation is a magisterial work, the culmination of Garner's lifelong study of the English language. The result is a landmark resource that will offer clear guidelines to students, writers, and editors alike. "[A manual] for those of us laboring to produce expository prose: nonfiction books, journalistic articles, memorandums, business letters. The conservatism of his advice pushes you to consider audience and occasion, so that you will understand when to follow convention and when you can safely break it."—John E. McIntyre, Baltimore Sun

A Dictionary of Modern English Usage Oxford University Press, USA

Unlike other textbooks, it helps students to understand grammar rather than see it as a set of facts and rules.

[Concise English Grammar](#) Oxford University Press, USA

This handbook provides an authoritative, critical survey of current research and knowledge in the grammar of the English language. Following an introduction from the editors, the volume's expert contributors explore a range of core topics in English grammar, beginning with issues in grammar writing and methodology. Chapters in part II then examine the various theoretical approaches to grammar, such as cognitive, constructional, and generative approaches, followed by the chapters in part III, which comprehensively cover the different subdomains of grammar, including compounds, phrase structure, clause types, tense and aspect, and information structure. Part IV offers coverage of the relationship between grammar and other fields - lexis, phonology, meaning, and discourse - while the concluding part of the book investigates grammatical change over time, regional variation, and genre and literary variation. The handbook's wide-ranging coverage will appeal to researchers and students of English language and linguistics from undergraduate level upwards.

[Oxford English Dictionary](#) VCTA

This textbook on English syntax aims to give students a thorough grounding in the basics of sentence structure, and at the same time strives to acquaint them with the essentials of syntactic argument. The text is written in a user-friendly style with many 'hands-on' in-text and chapter-final exercises. At the end of each chapter there is a section with suggested further reading material,

and there is a bibliography and list of recommended reference works at the end of the book.

Oxford Guide to Plain English Oxford University Press, USA

Presenting the linguistic basis for courses and projects on translation, contrastive linguistics, stylistics, reading and discourse studies, this book illustrates grammatical usage through authentic texts from a range of sources, both spoken and written. This new edition has been thoroughly rewritten and redesigned to include many new texts and examples of language in use. Key features include: chapters divided into modules of class-length materials; a wide variety of authentic texts and transcriptions to illustrate points of grammar and to contextualise structure; clear chapter and module summaries enabling efficient class preparation and student revision; exercises and topics for individual study; answer key for analytical exercises; comprehensive index; select biography; suggestions for further reading; and a companion website. This up-to-date descriptive grammar is a complete course for first degree and postgraduate students of English, and is particularly suited for those whose native language is not English.

Oxford Modern English Grammar Bloomsbury Publishing

[An Introduction to Early Modern English](#) Oxford University Press

Plain English is an essential tool for effective communication. Information transmitted in letters, documents, reports, contracts, and forms is clearer and more understandable when presented in straightforward terms. The Oxford Guide to Plain English provides authoritative guidance on how to write plain English using easy-to-follow guidelines which cover straightforward language, sentence length, active and passive verbs, punctuation, grammar, planning, and good organization. This handy guide will be invaluable to writers of all levels. It provides essential guidelines that will allow readers to develop their writing style, grammar, and punctuation. The book also offers help in understanding official jargon and legalese giving the plain English alternatives. This guide gives hundreds of real examples and shows 'before and after' versions of texts of different kinds which will help readers to look critically at their own writing. Helpfully organized into 21 short chapters, each covering a different aspect of writing. Clearly laid out, and easy to use, the Oxford Guide to Plain English is the best guide to writing clear and helpful documents.

[Basic English Usage](#) Oxford University Press

The Oxford Dictionary of English Grammar is a straightforward and accessible A-Z guide to the diverse and often complex terminology of English grammar. It contains over 1,600 entries with clear and concise definitions, enhanced by numerous example sentences, as well as relevant quotations from the scholarly literature of the field. This second edition is written and edited by Professor Bas Aarts of University College London, writer of the acclaimed Oxford Modern English Grammar. It has been fully revised and updated, with particular attention paid to refreshing the example sentences included within the text. There are over 150 new entries that cover current terminology which has arisen since the publication of the first edition, and there are also new entries on the most important English grammars published since the start of the 20th century. Hundreds of new cross-references enhance the user-friendly nature of the text, and the list of works cited has been thoroughly updated to reflect the current state of the field. A short appendix of web links has been added. All in all, this Dictionary is an invaluable guide to English grammar for all students and teachers of the subject, as well as all those with an informed interest in the English language.

Oxford Guide to English Grammar Cambridge University Press

English Grammar for Today Oxford University Press

This handy guide provides crystal-clear help with writing correctly and appropriately in everyday situations. Arranged alphabetically, the book contains concise entries with guidance on individual words and phrases, and longer entries on broader topics such as overused words, bullet points, and avoiding sexist language.

[The Oxford dictionary of English grammar](#) Macmillan Elt

You can use this book to design a house for yourself with your family; you can use it to work with your neighbors to improve your town and neighborhood; you can use it to design an office, or a workshop, or a public building. And you can use it to guide you in the actual process of construction. After a ten-year silence, Christopher Alexander and his colleagues at the Center for Environmental Structure are now publishing a major statement in the form of three books which will, in their words, "lay the basis for an entirely new approach to architecture, building and planning, which will we hope replace existing ideas and practices entirely." The three books are The Timeless Way of Building, The Oregon Experiment, and this book, A Pattern Language. At the core of these books is the idea that people should design for themselves their own houses, streets, and communities. This idea may be radical (it implies a radical transformation of the architectural profession) but it comes simply from the observation that most of the wonderful places of the world were not made by architects but by the people. At the core of the books, too, is the point that in designing their environments people always rely on certain "languages," which, like the languages we speak, allow them to articulate and communicate an infinite variety of designs within a forma system which gives them coherence. This book provides a language of this kind. It will enable a person to make a design for almost any kind of building, or any part of the built environment. "Patterns," the units of this language, are answers to design problems (How high should a window sill be? How many stories should a building have? How much space in a neighborhood should be devoted to grass and trees?). More than 250 of the patterns in this pattern language are given: each consists of a problem statement, a discussion of the problem with an illustration, and a solution. As the authors say in their introduction, many of the patterns are archetypal, so deeply rooted in the nature of things that it seems likely that they will be a part of human nature, and human action, as much in five hundred years as they are today.

[The Oxford Reference Grammar](#) OUP Oxford

The Oxford Guide to Effective Writing & Speaking is the essential guide for everyone who needs to communicate clearly and effectively. It combines practical advice on specific writing and speaking tasks with detailed self-help chapters covering grammar, spelling, and the writing process itself. *Grammar Alive!* National Council of Teachers of English (Ncte)

The Oxford English Dictionary is the internationally recognized authority on the evolution of the English language from 1150 to the present day.
