women in the United States account for nearly half the workforce, they continue to encounter unique personal, social, and structural dynamics as leaders. Authors Lisa DeFrank Cole and Sherylle J. Tan explore these dynamics and more in *Women and Leadership: Journey Towards Equity*. Grounded in leadership theory and research, this text delves into the barriers and challenges women face on their

leadership journeys, including stereotypes, bias, inequality, discrimination, and domestic responsibilities. The text includes several chapters devoted to strategies and tools for overcoming obstacles, creating structural change, and moving towards greater equity.

The bestselling motivational guide that TheAtlantic.com calls "a rallying cry for women to get the money they deserve." Why are women so often overlooked and underpaid? What are the real reasons men get raises more often than women? How can women ask for -- and actually get--the money, the job, the recognition they deserve? Prompted by her own experience as cohost of Morning Joe, Mika Brzezinski asked a wide range of successful women to share the critical lessons they learned while moving up in their fields. Power players such as Facebook's Sheryl Sandberg, Senator Elizabeth Warren, Harvard's Victoria Budson, comedian Susie Essman, and many more shared their surprising personal stories. They spoke candidly about why women are paid less and the pitfalls women face -- and play into. Now expanded to address gender dynamics in the #MeToo era, *Know Your Value* blends compelling personal stories with the latest research on why many women don't negotiate their compensation, why negotiating aggressively usually backfires, and what

can be done about it. For any woman who has ever wondered if her desire to be liked can be a liability (yes), if there is a way to reclaim her contribution after it's been co-opted in a meeting (yes), and if there are strategies men use to get ahead that women should too (yes!), *Know Your Value* provides vital advice to help women be their own best advocates.

Vital Voices: 100 Women Using Their Power to Empower celebrates 100 global female leaders who are redefining power. Candid and compelling, each leader shares personal stories, insights and ideas, showing us that women lead differently and that this difference is sorely needed in our world today. While each woman is path-breaking in her own right, it's together that these 100 voices illustrate the transformative power of women's leadership across cultures, industries and generations. A celebration of women's suffrage and gender equality through the use of visual and anecdotal story-telling as told through the eyes of 100 global women leaders who are redefining power, and

using their power to strengthen female relationships across the globe. Some of the women featured in the book include Serena Williams, Hillary Clinton, Christine Legarde, Greta Thunberg, and Samar Minall Ah Khan.

Children in today's world are inundated with information about who to be, what to do and how to live. But what if there was a way to teach children how to manage priorities, focus on goals and be a positive influence on the world around them? The Leader in Me is that programme. It's based on a hugely successful initiative carried out at the A.B. Combs Elementary School in North Carolina. To hear the parents of A. B Combs talk about the school is to be amazed. In 1999, the school debuted a programme that taught The 7 Habits of Highly Effective People to a pilot group of students. The parents reported an incredible change in their children, who blossomed under the programme. By the end of the following year the average end-of-grade scores had leapt from 84 to 94. This book will launch the message onto a much larger platform. Stephen R. Covey takes the 7 Habits, that have already

changed the lives of millions of people, and shows how children can use them as they develop. Those habits -- be proactive, begin with the end in mind, put first things first, think win-win, seek to understand and then to be understood, synergize, and sharpen the saw -- are critical skills to learn at a young age and bring incredible results, proving that it's never too early to teach someone how to live well.

A thoughtful and "utterly mind-blowing" exploration of fatherhood and masculinity in the 21st century (New York Times).

There are hundreds of books on parenting, and with good reason—becoming a parent is scary, difficult, and life-changing. But when it comes to books about parenting identity, rather than the nuts and bolts of raising children, nearly all are about what it's like to be a mother. Drawing on research in sociology, economics, philosophy, gender studies, and the author's own experiences, *Father Figure* sets out to fill that gap. It's an exploration of the psychology of fatherhood from an archetypal perspective as well as a cultural history that challenges familiar assumptions about the origins of so-called

traditional parenting roles. What paradoxes and contradictions are inherent in our common understanding of dads? Might it be time to rethink some aspects of fatherhood? Gender norms are changing, and old economic models are facing disruption. As a result, parenthood and family life are undergoing an existential transformation. And yet, the narratives and images of dads available to us are wholly inadequate for this transition. Victorian and Industrial Age tropes about fathers not only dominate the media, but also contour most people's lived experience. *Father Figure* offers a badly needed update to our collective understanding of fatherhood—and masculinity in general. It teaches dads how to embrace the joys of fathering while guiding them toward an image of manliness for the modern world.

Times & McKinsey Business Book of the Year “Linda Scott shines a light on women’s essential and often invisible contributions to our global economy—while combining insight, analysis, and interdisciplinary data to make a compelling and actionable case for unleashing women’s economic power.” —Melinda Gates, author of *The Moment of Lift: How Empowering Women Changes the World* A leading thinker's groundbreaking examination of women's economic empowerment Linda Scott coined the phrase “Double X Economy” to address the systemic exclusion of women from the world financial order. In *The Double X Economy*, Scott argues on the strength of hard data and on-the-ground experience that removing those barriers to women’s success is a win for everyone, regardless of gender. Scott opens our eyes to the myriad economic injustices that constrain women throughout the world: fathers buying and selling daughters against their will; husbands burning brides whose dowries have been spent; men appropriating women’s earnings and widows’ land; banks discriminating against women applying for loans; corporations

paying women less than men; men treating women as their intellectual inferiors due to primitive notions of female brain development; governments depriving women of affordable childcare; and so much more. As Scott takes us from the streets of Accra, where sex trafficking is widespread, to American business schools, where women are routinely patronized, the pervasiveness of the Double X Economy becomes glaringly obvious. But Scott believes that this rampant problem can be solved. She proposes concrete actions and urges her readers to rise up and join the global movement for women’s economic empowerment that is gaining momentum by the day.

The Double X Economy World Scientific
The book, Economic Empowerment of

Women in the Islamic World, discusses the economic, social, and political rights and status of women in Islam, which is theoretically given by the Islamic Jurisprudence (Shariah law). The chapters in this volume will address historical practices in comparison to the status of women in the contemporary Muslim world. Men and women in Islam, regardless of their age, social class, and education, are equal as citizens and individuals, but not identical in their rights and responsibilities. It can be observed from Islamic history that in the early age of Islam, women were given full confidence, trust, and high responsibilities in leadership, educational guidance, and decision-making. This volume will try to clarify the confusion in the status of the women in Islam that is presented by the media, as it is assumed that theoretical Islamic empowerment of women bears little relation to the real conditions of women in modern Muslim societies. It has been widely claimed in the media that Muslim women suffer more than men in Muslim societies and communities in terms of insecurity, domestic abuse, and low access to education and medical care.

It is also stated in the press and media that absence of good governance also results in gender inequality and violation of the rights of Muslim women. This volume also aims to provide the solutions for the empowerment of women in the Islamic world. We assumed that without good governance, the status of women is not likely to improve. Muslim women have the potential to play a fundamental role in curbing corruption, social ills, violence, and crime in the Muslim world. This volume will make the case that in order to achieve stability and prosperity, the government must ensure a platform for women to participate in decision-making and hence benefit from the rights they are accorded in Islam. By covering a range of perspectives on the economic lives of Muslim women around the world, it hopes to shed light on the problems faced and to offer possible solutions to the empowerment of women in the Islamic world.

Report of the Asian and Pacific Conference on Gender Equality and Women's Empowerment World Bank Publications
Joy Wiggins and Kami Anderson advocate that the only way women can successfully

support each other is by addressing the varying intersections of our individual power and privileges, particularly focusing on how some privileges are inherited along lines of race, class, sexuality, and geography. When we fully examine how we have power in certain situations and not in others, we start to see where we can lend privilege to create truly inclusive spaces for the historically underrepresented and marginalized. Wiggins and Anderson look at how the dynamics of privilege and power have played out in the history of the feminist movement and identify and break down socialized behaviors and ideologies that trigger implicit bias and microaggressions. And they provide tools to interrupt negative thoughts and actions so women can nurture mutual support and show up as their authentic selves. Each chapter features a dialogue between them reflecting on how issues of race, privilege, and power have played out in their lives and their friendship. The system of patriarchy has created an environment for women to knowingly and unknowingly sabotage each other—it is not inherent in women themselves. This book teaches us

how to take an active approach to becoming better allies for each other and by so doing improve our world and end the cycle of injustice.

From Sabotage to Support SAGE Publications

This open access book analyses the interplay of sustainable development and human rights from different perspectives including fight against poverty, health, gender equality, working conditions, climate change and the role of private actors. Each aspect is addressed from a more human rights-focused angle and a development-policy angle. This allows comparisons between the different approaches but also seeks to close gaps which would remain if only one perspective would be at the center of the discussions. Specifically, the book shows the strong connections between human rights and the objectives of the 2030 Agenda for Sustainable Development and the Sustainable Development Goals adopted by the United Nations in 2015. Already the preamble of this document explicitly states that "the 17 Sustainable Development Goals ... seek to realise the human rights of all". Moreover, several

goals and targets of the 2030 Agenda correspond to already existing individual human rights obligations. The contributions of this volume therefore also address how the implementation of human rights and SDGs can reinforce each other, but also point to critical shortcomings of the different approaches.

Intentioning by best-selling author Gloria Feldt will help you envision the life and career you might have thought were impossible dreams, then give you the courage and actionable tools to achieve them. In the wake of the coronavirus pandemic and a pandemic of racial injustice that together shook our world to its core and revealed deep fault lines in our culture, Gloria Feldt, New York Times best-selling author, speaker, commentator, international leadership expert, successful CEO, and feminist icon, shows how we can seize the once-in-a-lifetime opportunity created by massive disruption to build back stronger with diverse women at the center of the recovery. In *Intentioning: Sex, Power,*

Pandemics, and How Women Will Take The Lead for (Everyone's) Good, Feldt inspires diverse women to embrace their personal power to lead with intention, confidence, and joy. It comes as no surprise to her that women flexed their formidable muscles when needed most, representing a disproportionate number of essential workers during the darkest days of the coronavirus global outbreak and leading the charge against racism in the United States. But this book is decidedly about the future, taking the leadership lessons learned from this disruption and creating a better world for all. Feldt not only unveils the next step in advancing gender parity in all spheres of business and life, but she also lays out the vital next steps in the overall advancement of our economy and our civilization. The "Lead Like a Woman" framework and the "9 Leadership Intentioning Tools" she presents in this book will prepare, motivate, and propel women of all diversities and intersectionalities now so that by 2025, women will have attained their fair and equal share of leadership positions across all sectors of industry and society.  Looking at gender through multiple lenses, this volume seeks to understand what empowerment really means to women today. It examines the situation of women in, and their contribution to, politics, business, education, social and economic development, the women's movement, health, law, insurgency and the arts. The volume analyses certain key issues of contemporary discourse including: • ownership of one's body and freedom of choice • redefinition of empowerment and leadership and how far we have achieved it • importance of equal access to education, employment and health • political participation and decision making, and • dichotomy between marginalisation of women on grounds of caste, class and

religion in a society with changing laws on women's rights

We all have been given gifts, but for many, those gifts have yet to be discovered. Some are prompted by their biological clock and others need a little

push to wake up their potential and put it to good use. A crisis or tragedy also may push someone into unlocking the hidden talents they possess. We are all called to be leaders, but being a leader is more than telling people what to do. It is about recognizing the talents that lie within you and rising to meet challenges when needed, thereby becoming who you were meant to be. *Wake Up The Leader Within You* encourages you to discover and feed the gifts that lie dormant within you.

Dig Where You Are is about seven remarkable men and women who have solved some of the biggest challenges facing our societies today. From the slums of Mumbai, the villages of Tibet and northeast Thailand, the inner cities of Philadelphia and San Francisco, and a ghetto outside Stockholm, *Dig Where You Are* tells of an artist, a surgeon, a teacher, a criminologist, an economist, a community organizer and a general physician each of whom saw a way beyond suffering and injustice, took responsibility for the wellbeing of others and ended up transforming lives and communities across the world. Who are

they and how did they do it? These are the stories of everyday people armed with a belief in the potential of others, a passion to change things for the better and a healthy dose of grit and persistence. Their lives are an inspiration for anyone who wants to make a difference but is not sure how to start. They remind us that it is small groups of committed and caring people—not large institutions and governments—who really change the world. Book jacket.

The Leader in Me Intl Food Policy Res Inst

A bold and inspiring memoir and manifesto from a renowned voice in the women's leadership movement who shows women how to cultivate the single skill they really need in order to thrive: the ability to let go. Once the poster girl for doing it all, after she had her first child, Tiffany Dufu struggled to accomplish everything she thought she needed to in order to succeed. Like so many driven and talented women who have been brought up to believe that to have it all, they must do it all, Dufu began to feel that achieving her career and personal goals was an impossibility. Eventually, she discovered the solution: letting go. In *Drop the Ball*,

Dufu recounts how she learned to reevaluate expectations, shrink her to-do list, and meaningfully engage the assistance of others—freeing the space she needed to flourish at work and to develop deeper, more meaningful relationships at home. Even though women are half the workforce, they still represent only eighteen per cent of the highest level leaders. The reasons are obvious: just as women reach middle management they are also starting families. Mounting responsibilities at work and home leave them with no bandwidth to do what will most lead to their success. Offering new perspective on why the women's leadership movement has stalled, and packed with actionable advice, Tiffany Dufu's *Drop the Ball* urges women to embrace imperfection, to expect less of themselves and more from

others—only then can they focus on what they truly care about, devote the necessary energy to achieving their real goals, and create the type of rich, rewarding life we all desire.

Women Driven Mobility Way Women Work

Despite recent advances in important aspects of the lives of girls and women, pervasive challenges remain. These challenges reflect widespread deprivations and constraints and include epidemic levels of gender-based violence and discriminatory laws and norms that prevent women from owning property, being educated, and making meaningful decisions about their own lives--such as whether and when to marry or have children. These often violate their most basic rights and are magnified and multiplied by poverty and lack of education. This groundbreaking book

distills vast data and hundreds of studies to shed new light on deprivations and constraints facing the voice and agency of women and girls worldwide, and on the associated costs for individuals, families, communities, and global development. The volume presents major new findings about the patterns of constraints and overlapping deprivations and focuses on several areas key to women's empowerment: freedom from violence, sexual and reproductive health and rights, ownership of land and housing, and voice and collective action. It highlights promising reforms and interventions from around the world and lays out an urgent agenda for governments, civil society, development agencies, and other stakeholders, including a call for greater investment in data and knowledge to benchmark progress.
